REASONS FOR REVISIONS

[1] Savings—funds in excess of project requirements.
[2] Project deferred.
[3] Decrease due to change in scope of work.
[4] Decrease, project or portion of project financed from other funds.
[5] Additional funds to cover increases in project costs.
[6] Additional funds required because of revision of design standards or scope of work.
[7] Additional funds required because of low budget estimate or higher construction costs.
[8] Additional project transfer from prior budget.
[9] Additional project to improve deficient roadway or structure.
[10] Additional project to improve drainage.
[11] Additional project to improve traffic service.
[12] Additional project to relieve traffic congestion.
[13] Additional project to improve traffic safety.
[14] Additional project to install or revise traffic regulatory or safety devices.
[15] Additional project to replace a deteriorated or destroyed structure.
[16] Additional project to repair a deteriorated roadway or structure.
[17] Additional project to provide for roadway delineation.
[18] Additional project to restore or reconstruct roadway at slipout.
[19] Additional project for freeway or expressway construction.
[20] Additional project for erosion control and/or restoration.
[21] Additional project to stabilize slide area or remove underground water.
[22] Additional project to place roadway in acceptable condition for relinquishment.
[23] Additional project to construct weighing facilities or loadometer stations.
[24] Additional project to acquire material site for use on construction.
[25] Additional project for landscaping.
[26] Additional project to comply with fish and game requirements.
[27] Additional project for archaeological salvage.
[28] Additional project for commemorative markers.

REASONS FOR REVISIONS

[1] Savings—funds in excess of project requirements.
[2] Project deferred.
[3] Decrease due to change in scope of work.
[4] Decrease, project or portion of project financed from other funds.
[5] Additional funds to cover increases in project costs.
[6] Additional funds required because of revision of design standards or scope of work.
[7] Additional funds required because of low budget estimate or higher construction costs.
[8] Additional project transfer from prior budget.
[9] Additional project to improve deficient roadway or structure.
[10] Additional project to improve drainage.
[11] Additional project to improve traffic service.
[12] Additional project to relieve traffic congestion.
[13] Additional project to improve traffic safety.
[14] Additional project to install or revise traffic regulatory or safety devices.
[15] Additional project to replace a deteriorated or destroyed structure.
[16] Additional project to repair a deteriorated roadway or structure.
[17] Additional project to provide for roadway delineation.
[18] Additional project to restore or reconstruct roadway at slipout.
[19] Additional project for freeway or expressway construction.
[20] Additional project for erosion control and/or restoration.
[21] Additional project to stabilize slide area or remove underground water.
[22] Additional project to place roadway in acceptable condition for relinquishment.
[23] Additional project to construct weighing facilities or loadometer stations.
[24] Additional project to acquire material site for use on construction.
[25] Additional project for landscaping.
[26] Additional project to comply with fish and game requirements.
[27] Additional project for archaeological salvage.
[28] Additional project for commemorative markers.

MILITARY DEPARTMENT

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS

The Capital Outlay program of the Military Department comprises the construction of armories, warehouses, rifle ranges, and other facilities essential to the organization, training, and morale of the California National Guard and the California Air National Guard. The long-range construction program would provide armories and other facilities to house and train all units.

Since the 1951-52 fiscal year the Federal Government under Public Law 783, Eighty-first Congress, has participated in the construction of armories on a cost-sharing basis. Federal funds have been made available on the basis of up to 75 percent of qualifying phases of the construction.

In addition to federal participation in the construction of armories, certain facilities such as motor vehicle storage buildings, warehouses, airplane hangars, and shop buildings primarily for the care and maintenance of federal equipment issued for state use are financed entirely from federal funds except for the cost of planning and supervision of construction which is provided by the State.

The Capital Outlay program for 1964-65 provides for the preparation of plans and supervision of construction of federally financed projects and for minor projects which include repairs to various existing armories, paving of yards and related work.

STATE BUILDING PROGRAM

PROPOSED 1964-65 EXPENDITURES [a]

Preparation of plans and supervision of construction of projects financed by Federal Government	–	–	$100,000
General Fund			
Minor Projects: [b]			
Roof repairs at various locations	–	–	56,000
Survey of armory sites and title insurance	–	–	4,000
Paving at Various Locations:

2	**GENERAL ANALYSIS**			
3				
4	The department operates 2 state office buildings in Sacramento, housing the various boards and commissions comprising			
5	the department, the Division of Corporations and the Board of			
6	Equalization. Included in this Budget are funds to automate the			
7	3 passenger elevators in the main building. The cost of such			
8	alterations should be recovered over an 8-year period through			
9	savings in the cost of the operators' salaries. Also provided is			
10	financing for the expansion of the existing cafeteria to impro			
11	the dining service to the state employees housed in the 2 bui			
12	ings and to economically facilitate the operation of the cafete			
13	by a blind operator.			
14	Minor projects are also included to improve building utili			
15	tion for civil defense.			
16				
17	**STATE BUILDING PROGRAM**			
18				
19	**PROPOSED 1964-65 EXPENDITURES** [a]			
20				
21	Automate 3 passenger elevators, Business and Professions Building	–	–	$157,800
22	This will improve elevator service and reduce building maintenance costs to the building occupants.			
23	Expand cafeteria, Business and Professions Building	–	–	120,150
24	To improve feeding service to the approximately 1,200 state employees in the Business and Professional Buildings and to make feasible its operation by a blind operator.			
25	Minor Projects:			
26	Construct stairs to basement	–	–	10,000
27	Enclose basement windows	–	–	8,800
28	**TOTAL EXPENDITURES, CAPITAL OUTLAY**	–	–	$296,750

DEPARTMENT OF CONSERVATION

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

Division of Forestry

Expenditures for capital outlay in the 1964-65 fiscal year are proposed for conservation camps, fire stations, offices, ranger unit headquarters, site acquisitions and minor projects. The program for constructing 2 new conservation camps per year is continued with funding proposed for Phases I and II of construction and equipment for 2 new camps. Acquisition funds are also contemplated to purchase sites for 2 additional camps. Construction of a new camp is also proposed on the present site of the Ben Lomond Conservation Camp. Funds for purchase of this site in Santa Cruz County were provided in the 1963-64 Budget. Purchase of a new site is proposed for the Minnewawa Conservation Camp in San Diego County.

Additional acquisition funds are included to cover the Northern California Training Center site and various sites for strategically located fire control stations and lookouts. The fire station sites proposed are: Alder Forest Fire Station (Del Norte County), Hurleton Forest Fire Station (Butte County), Eagle Lake Forest Fire Station (Lassen County), Big Creek Forest Fire Station (Santa Cruz County), Hammond Forest Fire Station (Tulare County), Coulterville Forest Fire Station (Mariposa County), Dulzura Forest Fire Station (San Diego County), and Elk Camp Forest Fire Station (Humboldt County).

The major construction program, exclusive of the conservation camp program, consists of new facilities for the San Diego Ranger Unit Headquarters, Placer County Ranger Unit Headquarters, Alderpoint Forest Fire Station (Humboldt County), Shingletown Forest Fire Station (Shasta County), Clear Lake Oaks Forest Fire Station (Lake County), Smith Creek Forest Fire Station (Santa Clara County), and offices for the Orange County Ranger Unit Headquarters and Butte County Ranger Unit Headquarters. A paint shop is proposed as an addition to the Konocti Conservation Camp in Lake County.

Minor construction projects are contemplated in all districts in the Division and include water towers, gas and oil houses, water systems, lookout replacements, and small remodeling, addition, and expansion projects. The larger projects are Allen Peak lookout Replacement, Weed barracks and messhall, White Rock barracks, and Alturas office and equipment storage. Also proposed in this group are conservation camp projects in the amount of $160,071. These projects consist of trail, road and firebreak construction, in-camp projects, and construction and improvement of water, sewer, and other utility systems.

Communication projects are also indicated for generator houses, a repeater facility and conversion of 31 radio vaults to single-meter circuits. Completion of the Division of Forestry's radio system in Districts II and VI is proposed along with implementation of their plan for District I.

STATE BUILDING PROGRAM

PROPOSED 1964-65 EXPENDITURES [a]

Site Acquisition for Conservation Camps:			
Two new camps	–	–	$75,000
Purchase of sites for the continuation of the camp program.			
New site for Minnewawa Conservation Camp	–	–	25,000
The existing camp is located on leased property with a year-to-year tenancy. Total replacement of all buildings has been recommended by the Office of Architecture and Construction.			
Site acquisition for Northern California Training Center	–	–	20,000
General Fund			
For costs related to acquisition of site at Preston School of Industry near Ione. This location is more centrally located to the 3 districts involved than the original area contemplated at Boggs Mountain State Forest in Lake County.			
Site Acquisition for Lookouts and Forest Fire Stations:			
Alder Forest Fire Station	–	–	10,000
General Fund			
Present station is on old frame building at United States Forest Service Yurok Experimental Station. Building to be disposed at termination of use permit in 1964. Travel time studies indicate crew should be relocated in the Klamath-Glen area.			
Hurleton Forest Fire Station	–	–	5,000
General Fund			
Present old facility located on state-owned 40 acres is scheduled for replacement in 1966-67. Relocation of station is proposed to afford higher level of protection. Currently owned site would be a desirable location for a conservation camp.			
Eagle Lake Forest Fire Station	–	–	10,000
General Fund			
This station is located on leased property. It is proposed that the present 2.1 acres be purchased. Lessor desires to liquidate holding in this area.			
Big Creek Forest Fire Station	–	–	7,000
General Fund			
This station is located in an abandoned hospital on a short term lease. As lessor has other plans for this facility, purchase of a permanent site is proposed.			
Hammond Forest Fire Station	–	–	14,000
General Fund			
This station is located on leased property. It is proposed that 2.52 acres under lease and an adjacent 1.5 acres be purchased. The adjacent property will provide adequate land area for this facility.			

[a] From State Construction Program Fund unless otherwise indicated.

DEPARTMENT OF CONSERVATION—Continued

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65
	Division of Forestry—Continued			
	STATE BUILDING PROGRAM—Continued			
	PROPOSED 1964-65 EXPENDITURES [a]—Continued			
	Coulterville Forest Fire Station	–	–	$3,000
	General Fund			
	Present 1 acre site is under lease. It is proposed to purchase this site and an adjacent 3 acres required for future expansion.			
	Dulzura Forest Fire Station	–	–	13,000
	General Fund			
	Crew is presently housed in a trailer and/or tent platforms on a lot being leased on a 6 month basis each year. It is proposed to purchase a suitable site for permanent facilities scheduled for construction in 1966-67.			
	Elk Camp Forest Fire Station	–	–	8,000
	General Fund			
	Present site consisting of approximately 4 acres is under lease with a short term remaining. It is proposed to purchase this site and adjoining acreage to compensate for loss of area due to highway realignment.			
	Miscellaneous sites, statewide	–	–	10,000
	General Fund			
	For opportunity purchases of lookout sites and/or fire station sites.			
	Engineering, planning and inspection services	–	–	124.807
	General Fund			
	To provide 8 technical positions, a survey crew, 1 clerical position, employees benefits and operating expenses required in connection with the division's Capital Outlay program.			
	Construct office—Butte County Ranger Unit Headquarters	–	–	90,380
	Equip office—Butte County Ranger Unit Headquarters	–	–	840
	To replace an inadequate facility erected in 1940. Present office building is extremely overcrowded.			
	Construct office—Orange County Ranger Unit Headquarters	–	–	175,510
	Equip office—Orange County Ranger Unit Headquarters	–	–	1,698
	Present staff is operating from 4 buildings as the existing office building is entirely inadequate. Complete facility is approximately 30 years old. Future plans by City of Orange to widen street will require removal of present office building.			
	Construct San Diego County Ranger Unit Headquarters	–	–	573,187
	Equip San Diego County Ranger Unit Headquarters	–	–	18,438
	To relocate ranger unit headquarters on newly acquired site. Present facilities are overcrowded and located on 4 city lots in the center of La Mesa.			
	Construct Alderpoint Forest Fire Station	–	–	179,764
	Equip Alderpoint Forest Fire Station	–	–	2,130
	To relocate station on recently acquired site. Present facilities are surplus metal buildings located on property where lease will be terminated			
	Construct Shingletown Forest Fire Station	–	–	113,810
	Equip Shingletown Forest Fire Station	–	–	1,685
	To replace inadequate facilities erected in 1942 using tent platforms placed on wooden piers.			
	Construct Clear Lake Oaks Forest Fire Station	–	–	98,090
	Equip Clear Lake Oaks Forest Fire Station	–	–	368
	To provide permanent facilities to house a No. 4 (14-man) crew. Present surplus metal building was designed to house only 8 men and is not of sufficient value to warrant expenditures for remodeling.			
	Construct Placer County Ranger Unit Headquarters	–	–	403,422
	Equip Placer County Ranger Unit Headquarters	–	–	6,720
	To relocate facilities to new site. Proposed construction of Auburn Dam will cause present facilities to be either inundated or cut off from access to the south and east.			
	Construct Smith Creek Forest Fire Station	–	–	83,650
	Equip Smith Creek Forest Fire Station	–	–	1,373
	To provide adequate facilities to house a No. 3 (11-man) crew. Present condition of building constructed from salvage material during 1937-38 does not justify remodeling expense.			
	Construct 2 conservation camps—second phase	–	–	1,200.000
	Equip 2 conservation camps—second phase	–	–	225,000
	To provide for the construction phase of 2 80-man conservation camps and necessary equipment to complete normal complement.			

[a] From State Construction Program Fund unless otherwise indicated.

DEPARTMENT OF FISH AND GAME

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS

The proposed 1964-65 Capital Outlay budget provides for projects totaling $273,860. A major construction project is proposed for a laboratory building at the Nimbus Dam facility. Equipment for this project is also included.

Three minor projects are proposed for 3 regions of the department. Replacement of the water supply line to Crystal Lake Hatchery is necessary in Region I. In Region II, reconstruction of flood damaged facilities at the Hay Press Creek Fish Planting Base is required. The third phase in remodeling the broodstock facilities is proposed for Hot Creek Fish Hatchery in Region V.

WILDLIFE CONSERVATION PROGRAM [1]

PROPOSED 1964-65 EXPENDITURES

Region V—Water Projects Branch:			
Construct bioassay laboratory	–	–	$157,000
Funds are provided for the construction of a departmental bioassay laboratory. This facility will provide space for conducting toxicity tests and related research to determine the effects of pollutants on fish and wildlife and to recommend control measures.			
Equip bioassay laboratory	–	–	12,060
Minor Projects:			
Region I:			
Crystal Lake Hatchery:			
Replace water supply line	–	–	35,000
Region II:			
Hay Press Creek Base:			
Rebuild existing facility	–	–	20,000
Region V:			
Hot Creek Hatchery:			
Rehabilitation of broodstock facilities—phase III	–	–	49,800

ESTIMATED 1962-63 AND 1963-64 EXPENDITURES

Region IV—Inland Fisheries:			
Kern River Hatchery water supply system	–	$65,000	–
Region V:			
Construct garage at Mojave River Hatchery	$451	–	–
Rehabilitate Hot Creek Hatchery—phase II	140,000	–	–
Plans and Construction of Patrol Boat:			
State's share	–	*75,000*	–
Advance for federal share	–	*75,000*	–
Minor Projects:			
Region I—Inland Fisheries:			
Cedar Creek spawning house	—6 [d]	–	–
Yreka Screen Shop, fish ladder on East Fork of Elk Creek	695	–	–
Red Bluff Screen Shop, fish screens, perforated plate, Dixon and Thomes Creek	–	1,324	–
Construct fish trap, holding pens and weir, at Noyo River Egg Collecting Station	28	–	–
Improve fishway and traps at Snow Mountain Station	11,889	–	–
Region IV—Inland Fisheries:			
Moccasin Creek Hatchery emergency pond repair	22,061	104	–
San Luis Wasteway and Holding Reservoir, Water Control Structures:			
Advance for federal share	*99*	*34,640*	–
Region V—Inland Fisheries:			
Construct employee-public restrooms at Mt. Whitney, Black Rock Hatchery	3	–	–
Hot Creek Hatchery stationary screens	6,364	–	–
Mt. Whitney Hatchery, replace water supply line	18,711	289	–
Mojave River Hatchery, relocate domestic water system	–	3,600	–
Region V—Wildlife Protection:			
Architectural fees to design patrol boat	–	2,000	–
Marine Resources Operations:			
Purchase of research vessel "Alaska"	–	13,000	–
Staff Operations:			
Blockage of Old River Slough	–	10,000	–
Preliminary plans, Camanche Dam, Mokelumne River fishing facilities	34,051	–	–
Preliminary plans and specifications—bioassay laboratory	1,450	–	–
TOTAL EXPENDITURES, CAPITAL OUTLAY	$235,796	$279,957	$273,860
Fish and Game Preservation Fund	*235,796*	*245,218*	*198,860*
Federal funds	–	*34,739*	*75,000*

[d] Unexpended balance reported as expended in prior year.

[1] From Fish and Game Preservation Fund unless otherwise indicated.

DEPARTMENT OF FISH AND GAME—Continued

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

Wildlife Conservation Board

GENERAL ANALYSIS

Continuation of the acquisition, construction and improvement of wildlife conservation projects is planned. The $9,000,000 appropriated by Chapter 1327, Statutes of 1947, the $3,000,000 in revenue provided by Chapter 1401, Statutes of 1951, and the revenue of $750,000 each fiscal year provided by subsequent legislation such as Chapter 1313, Statutes of 1955, and Chapter 1828, Statutes of 1959, has been or will be allocated to projects by the Wildlife Conservation Board. The budget reflects the actual and estimated expenditures of funds allocated by Wildlife Conservation Board action previous to June 30, 1963, and reflects expenditures based on anticipated allocations by the Wildlife Conservation Board for fiscal years 1963-64 and 1964-65.

In 1962-63 fiscal year a total of $492,340 was allocated for projects qualifying under the Federal Accelerated Public Works Act, PL 87-658. Of this amount, 50 percent ($246,170) will be reimbursed by the Federal Government to the Wildlife Restoration Fund when the projects have been completed. In 1963-64 fiscal year, $175,850 has been allocated under the APW program. Fifty percent ($87,925) will be reimbursed to the Wildlife Restoration Fund upon completion of the projects.

The $1,900,934 in unexpended project allocations shown below consists of allocations made by the Wildlife Conservation Board for specific projects but where the work has not been accomplished by June 30, 1963.

There are 3 Fish Hatchery and Stocking Projects totaling $13,694, 22 Fish Habitat Development and Improvement Projects totaling $317,504, 38 Angling Access Projects totaling $1,368,755, 1 Game Farm Project at $41,250, 2 Game Habitat Development and Improvement Projects totaling $60,933, 6 Hunting Access Projects totaling $30,630, 2 miscellaneous projects at $50,942 and various special projects totaling $17,226.

WILDLIFE CONSERVATION PROGRAM

PROPOSED 1964-65 EXPENDITURES [1]

Fish hatchery and stocking projects	–	–	$50,000
For construction and equipping of facilities for fish hatching and stocking.			
Fish habitat development and improvement projects	–	–	161,700
For acquisition and development of warm water lakes for reservoir construction or improvement; stream clearance and improvements; stream flow maintenance dams; marine habitat; fish screen and ladder projects.			
Angling access projects	–	–	389,400
For the preservation and restoration for coastal access; river, stream and bay access; lake, reservoir and Salton Sea access; piers.			
Game farm projects	–	–	10,000
To modernize game propagation facilities.			
Game habitat and development projects	–	–	50,000
For the preservation and restoration of waterfowl management areas and other game areas.			
Hunting access projects	–	–	100,000
To provide access roads to popular hunting areas.			
Miscellaneous projects	–	–	25,000
For construction and development of projects that do not fall into any of the other specific categories.			
Special projects	–	–	3,500
For project evaluation, land acquisition, and engineering studies of potential projects by the Wildlife Conservation Board staff.			

ESTIMATED 1962-63 AND 1963-64 EXPENDITURES [1]

Fish hatchery and stocking projects	$46,759	$22,625	–
For construction and equipping of facilities for fish hatching and stocking.			
Advance for federal share	–	22,425	–
Fish habitat development and improvement projects	33,683	189,000	–
For acquisition and development of warm water lakes for reservoir construction or improvement; stream clearance and improvements; stream flow maintenance dams; marine habitat; fish screen and ladder projects.			
Advance for federal share	–	72,400	–
Angling access projects	458,572	603,430	–
For the preservation and restoration for coastal access; river, stream and bay access; lake, reservoir and Salton Sea access; piers.			
Advance for federal share	–	73,670	–
Game farm projects	–	30,000	–
To modernize game propagation facilities.			
Game habitat and development projects	4,854	45,000	–
For the preservation and restoration of waterfowl management areas and other game areas.			
Hunting access projects	163,817	119,150	–
To provide access roads to popular hunting areas.			
Advance for federal share	139,750	850	–

GENERAL ANALYSIS

The capital outlay program for the Division of Beaches and Parks consists of both acquisition and construction projects and is proposed at $4,349,945 in total. For acquisition, the program of providing for opportunity buying of suitable beach and park lands is continued. Each year a number of parcels of land suitable for development as a part of the statewide park system become available at favorable prices. Expenditure of any funds for this purpose would be made only after review and approval by the State Public Works Board.

Thirteen major construction projects are proposed for the 1964-65 fiscal year. These projects provide 346 new campsites, 120 new picnic units and parking for 630 cars. An additional $1,651,000 is proposed for recreational development at State Water Project reservoirs in the Department of Water Resources Capital Outlay budget. These developments will provide another 25 camp units and 145 picnic sites.

At Angel Island State Park restoration of the island to a usable condition is proposed along with development of adequate entrance facilities at Ayala Cove. Development of campsites and picnic areas is proposed for Big Basin Redwoods State Park, Salton Sea State Recreation Area and Del Norte Coast Redwoods State Park. Beach erosion control is proposed at San Buenaventura State Beach and Doheny State Beach and channel erosion control is proposed for Humboldt Redwoods State Park. Repair of the hot springs pool and construction of new sanitary facilities is envisioned at Grover Hot Springs State Park. The development of an adequate water supply system is proposed for Mitchell Caverns State Reserve. Co-operation with the city of San Clemente in the construction of a new sidewalk fronting the San Clemente State Beach is proposed.

Additional work in the final restoration stages of the historic ships is contemplated for the San Francisco Maritime State Historical Park. Corrections to the mechanical systems and roof defrosting units is necessary for Squaw Valley State Recreation Area. At Torrey Pines State Reserve, it is proposed to construct a 630-car parking lot and beach improvements.

Minor projects are provided for the improvement, repair, and maintenance of existing park units and for small construction projects. Water main replacement is scheduled for Anza-Borrego Desert State Park and erosion control for Armstrong Redwoods State Reserve and Hendy Woods State Park. Sewage facility improvements and repairs are proposed for Big Basin Redwoods State Park, Castle Crags State Park, Millerton Lake State Recreation Area, Mitchell Caverns State Reserve, New Brighton State Beach, Portola State Park, Seacliff State Beach and Van Damme State Park. Beach erosion control measures are necessary at Bolsa Chica State Beach, Capitola State Beach, Pismo State Beach and Twin Lakes State Beach.

Water system improvements and repairs are indicated for Armstrong Redwoods State Reserve, Clear Lake State Park, Cuyamaca Rancho State Park, Emma K. Wood State Beach, Hearst-San Simeon State Historical Monument, MacKerricher State Park, and Palomar Mountain State Park. Purchase of water for replenishment of water lost to evaporation is proposed for Lake Elsinore State Recreation Area. Other projects include historic building restoration, parking areas, road repairs, electric utility lines, residences, and trail construction.

REAL PROPERTY ACQUISITION

PROPOSED 1964-65 EXPENDITURES [a]

New Appropriation

Opportunity purchases of park lands	–	–	$500,000
Throughout the year valuable lands that can play an important part in the State Park System will become available at favorable prices. This item is proposed in order to take advantage of these opportunities.			

[a] From General Fund unless otherwise indicated.
[b] A nonrevenue fund. Neither the revenue nor the expenditures are included in the overall budget totals.

[a] From General Fund unless otherwise indicated.
[d] Unexpended balance reported as expended in prior year.
[49] Reconciliation of this total to the original appropriation follows:

Budget Act of 1956, Item 400, 400.1 and 400.3	$29,366,045
Transfers from Item 400(h) (Columbia Historic), to Development	—250,000
Reversion of Item 400(gg) (Henry Cowell Redwoods), Budget Act of 1959, Section 10	—60,000
Transfer from Item 400.3 (Reservoir Areas), to the Department of Water Resources	—300,000
Transfer to Development, Budget Act of 1960, Item 347.1	—200,000
Transfers to Section 16409 of the Government Code	—460,059
Transfers from Section 16409 of the Government Code	221,110
Savings from Reserve augmentation reverting June 30, 1962	—48,110
Budget Act of 1956, Items 400, 400.1 and 400.3 (Adjusted)	$28,268,986

[50] Chapter 287, Statutes of 1959, redefined areas to be acquired at Mount Tamalpais. Augmented from Section 16409 of the Government Code $155,500.
[51] Expenditures for Riders' and Hikers' Trails are shown in a separate section.

	TOTAL EXPENDITURES (Acquisition and Development)		—$56,865	$65,804	–
	MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT				
	PROPOSED 1964-65 EXPENDITURES [a]				
	Angel Island State Park:				
	Continuing development Ayala Cove, and area restoration		–	–	$253,350
	The State Division of Beaches and Parks recently acquired the remaining two thirds of the island from the United States Government. The master plan calls for development of the island so that its prime historical features may be enjoyed by the visitor. Reduction of fire hazard and restoration of 161 acres on all sections of the island will be accomplished by park crews. A project for Ayala Cove consists of landscaping, construction of comfort stations, entrance gate, redwood benches and directional signs.				
	Big Basin Redwoods State Park:				
	Continuing development		–	–	437,950
	The continuing development is in accordance with a land use concept designed to increase the camping capacity of this park and upgrade existing facilities. It is the first step in an overall program to alleviate concentrated heavy use in existing areas where natural ground covers in old growth redwoods have been injured and in some cases destroyed. 630 camper families were turned away in the 1962-63 season due to the shortage of campsites, and picnic areas were opened up during the night to accommodate one-night campers. This project consists of construction of 100 campsites, sanitary facilities, extension of existing sewer system, water system, power lines and widening and improving the Sky Meadow Road and construction of campground roads and parking area.				
	Del Norte Coast Redwoods State Park:				
	Initial development		–	–	453,800
	A need for additional camping facilities in this area is demonstrated by the overcrowding and high number of turnaways experienced by the two adjacent state parks, Jedediah Smith and Prairie Creek Redwoods. Completion of the initial phase of development is essential to provide these facilities. Funds were approved in the 1963-64 budget for roads and parking and utilities. This request will provide 146 camp units, sanitary facilities, park office, park residence, summer help quarters and landscaping.				
	Doheny State Beach:				
	Beach erosion control		–	–	249,795
	The Corps of Engineers has found that over the years the shoreline along Doheny Beach is retreating. Failure to take proper corrective action could result in all or partial loss of the 6,000-foot beach and heavy loss of parking areas, roadways, houses and utilities. The Division of Beaches and Parks' share is 21.35 percent of the total, to be expended in conjunction with the Corps of Engineers and Department of Water Resources.				

[a] From General Fund unless otherwise indicated.
[d] Unexpended balance reported as expended in prior year.
[52] Transferred to Section 16409 of the Government Code $15,804. Transferred from Section 16409 of the Government Code in 1963-64 fiscal year $15,804.

DEPARTMENT OF PARKS AND RECREATION—Continued

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65
	Division of Beaches and Parks—Continued			
	MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT—Continued			
	PROPOSED 1964-65 EXPENDITURES—Continued			
	Grover Hot Springs State Park:			
	Repair pool and construct sanitary facilities	–	–	$59,700
	The sides of the existing hot springs pool are cracked and the bottom has dangerous holes. There are no sanitary facilities adjacent to this popular bathing attraction. It is proposed to repair the pool and construct adequate sanitary facilities at the pool site.			
	Humboldt Redwoods State Park:			
	Continuing development and erosion control	–	–	165,000
	This phase of the continuing program consists of the protection of a portion of the left bank of the South Fork Eel River near Cabin Creek and opposite the freeway; channel erosion and bank protection of Bull Creek Flats in the Rockefeller Forest and continued area clean-up work in the Bull Creek Basin. The primary purpose in all works proposed is the protection of the Rockefeller Forest, the location of the tallest and largest Coast Redwoods remaining in the world.			
	Mitchell Caverns State Reserve:			
	Water system development	–	–	78,750
	The present water supply system is from a local spring of inadequate supply. To bring this supply up to standard it is proposed to drill a well, install a pump and necessary related facilities and a pipeline to existing reservoirs.			
	Salton Sea State Recreation Area:			
	Continuing development	–	–	180,180
	The continuing development program for Salton Sea proposes 750 camp units to be completed within a 5-year period. A boat basin and 150 new campsites were completed in January 1963. This budget proposes 100 additional campsites in Imperial County and conforms to the ultimate land use plan. The Salton Sea is extremely popular with boaters, fishermen and water skiers from all parts of Southern California.			
	San Buenaventura State Beach:			
	Beach erosion control	–	–	68,475
	This project will provide for Beaches and Parks share of a program to correct the beach erosion problem at Ventura. The project will be carried out in conjunction with the Department of Water Resources and Corps of Engineers.			
	San Clemente State Beach:			
	Sidewalk	–	–	4,725
	The City of San Clemente has requested the State to cooperate in the construction of a sidewalk along the frontage road, southwesterly side of Via de Frente, for the protection of school children who now must walk in the street where a safety hazard exists.			
	San Francisco Maritime State Historic Park:			
	Continuing restoration—historic ships	–	–	66,140
	This is part of a continuing program in the restoration of the Historic Ships, "Alma," "Eureka," "Wapama," and "Thayer." These ships are displayed to the public at the Hyde Street Pier in San Francisco as a part of the San Francisco Maritime State Historic Park. The project will permit completion of the restoration phase of these historic ships.			
	Squaw Valley State Recreation Area:			
	Mechanical repairs and improvements to Blythe Arena	–	–	419,300
	Under certain adverse weather conditions, there is a definite possibility that structural damage can occur to the Blythe Arena. The Office of Architecture and Construction recommended that the corrections indicated be completed before the next snow season. The project consists of a new refrigeration system for indoor ice rink, new brine tank, new heating system, generator for standby power and a building to house new refrigerator and boiler equipment.

	PROPOSED 1964-65 EXPENDITURES—Continued			
	Torrey Pines State Reserve:			
	Initial beach area development	–	–	$368,600
	This request for the initial development of the beach area of this reserve is for roads and a 631-car parking area and coin-operated automatic control gate; comfort station and sewage system; utilities, including water supply system and underground electric power supply; lifeguard stands; pedestrian walks; and landscaping, including irrigation. Swimming at this beach is very attractive to residents of the City of San Diego and development is urgently needed to control the hazardous, unsanitary and unsightly conditions now existing due to beach visitor use of the narrow shoulders of heavily traveled Highway 101.

[a] From General Fund unless otherwise indicated.

[d] Unexpended balance reported as expended in prior year.

[58] Chapter 1/62, 2d Extraordinary Session, Section 13, reappropriated Chapter 2024/1959 and transferred $50,000 to development for this park.

[59] Chapter 1050/63, Section 10.45, reappropriated the unexpended balance of Item 345 (pp) (Ocean Beach), Budget Act of 1962. Of this amount $548,930 was transferred to Pueblo de Los Angeles and is to be expended only if the City and County of Los Angeles transfer full control and possession of the facility to the State by December 31, 1963.

[60] Transferred from the Department of Water Resources, Chapter 1050/63, Item 362, in accordance with the Davis-Dolwig Act. Expenditure not included in Beaches and Parks budget total.

	Division of Beaches and Parks—Continued			
	ACQUISITION AND RESTORATION OF HISTORIC SHIPS			
	Analysis			
	Because of the part played by the early day sailing and steam schooners in the development of California, this project was established to create a fitting monument. The expenditures are for restoration and rehabilitation to make them ready for exhibit purposes			
	ESTIMATED 1962-63 AND 1963-64 EXPENDITURES [a]			
	Historic ships	—$9,591 [d]	$3,721	–
	TOTAL EXPENDITURES (Historic Ships)	—$9,591	$3,721	–
	ACQUISITION, DEVELOPMENT AND IMPROVEMENT OF STATE PARK IN SAN FRANCISCO			
	Analysis			
	This project includes the acquisition and development of a site for a state park to be located in the City of San Francisco. Budget Act of 1956, Item 400.2, appropriated $2,000,000 for this purpose. Budget Act of 1958, Item 417, transferred $276,000 from this appropriation to augment an appropriation made for the acquisition and restoration of historic ships. Budget Act of 1963, Section 10, extends the appropriation to June 30, 1964.			
	ESTIMATED 1962-63 AND 1963-64 EXPENDITURES [a]			
	Acquisition of real property and development of a state park in San Francisco (Expenditures)	$510,240	$194,345	–
	RIDERS' AND HIKERS' TRAILS			
	Analysis			
	The Riding and Hiking Trail, authorized by Chapter 112, Statutes of 1946, was to be a 3,000-mile statewide loop. Chapter 1536, Statutes of 1955, authorized lateral trails concurrently with the statewide loop to accelerate the program and provide more effective use. Chapter 2169, Statutes of 1957, appropriated $200,000 for continuation of this program. Budget Act of 1963, Section 10, extends the appropriation to June 30, 1964.			
	ESTIMATED 1962-63 AND 1963-64 EXPENDITURES [a]

	DEVELOPMENT LOAN TO THE DIVISION OF BEACHES AND PARKS			
	Chapter 2056, Statutes of 1961, authorizes a loan to the Division of Beaches and Parks to purchase water to fill Lake Elsinore and for construction of necessary recreational facilities at Lake Elsinore State Recreation Area. This loan is made on the same terms as loans made to local agencies. Funds for the loan of $750,000 are to come from the Small Craft Harbor Revolving Fund and are to be repaid from revenues collected by the Division of Beaches and Parks for use of the facilities provided pursuant to Item 346, Budget Act of 1962.

	GENERAL ANALYSIS			
	In accordance with the provisions of Chapter 124, Statutes of 1955, the California Olympic Commission, in co-operation with other organizations, provided facilities for, promoted participation in, and staged the VIII Olympic Games in Squaw Valley, February 18-28, 1960. This commission terminated activity on June 30, 1962 in accordance with Chapter 2035, Statutes of 1961. The Department of General Services has been liquidating the commission's fiscal affairs. It is estimated that the affairs of the commission will be concluded in the 1963-64 fiscal year.

The Capital Outlay budget presents the expenditures for the California Water Development Program and for construction of department facilities under the State Building Program. The Capital Outlay expenditures for the California Water Development Program include the cost of the construction and acquisition phases of the State water facility projects, the State contributions to federal-state projects, and state financial assistance to local projects.

A general explanation of the State projects under the California Water Development Program is presented in the State Operations budget on page 738 with a description of the significant units of each project and a timetable of design, acquisition, construction, and operation. The timetable is based on the best current estimates of project emphasis and production potential. Each expenditure for State projects in the Capital Outlay budget relates directly to the timetable which indicates the beginning and progress of all projects active during the current and budget years.

CALIFORNIA WATER PROGRAM

STATE PROJECTS

GENERAL MANAGEMENT	$48,346	$252,440	–
PROJECT PLANNING	1,358,375	1,534,606	$1,783,313
GENERAL INVESTIGATIONS	205,323	922,479	947,009
OTHER ACTIVITIES	41,684	52,779	61,317

[a] A nonrevenue fund. Neither the revenue nor the expenditures are included in the budget totals.

[1] Includes expenditures of $277,481 in 1962-63, $366,368 in 1963-64 and $415,025 in 1964-65 for administration included in Other Activities in the Program Summary on page 716.

[2] General Fund.

	Less: Amounts reported as expenditures in project costs	—48,266	—420,000	—430,000
	Net Expenditures	–	–	–

Expenditures for aid to local impact areas are provided as required under the terms of Chapter 2019, Statutes of 1959, as renumbered by Chapters 309 and 464, Statutes of 1963. A circular area of 40 miles diameter with Oroville Dam as the center was designated by the Governor as an impact area in May of 1961. The same designation was made on the San Luis Dam area in October of 1962. Actual and estimated amoun for aid to local school districts (funds transferred to Depar ment of Education for disbursement) and aid to local gover ment for police, fire, and designated other local services a detailed below.

STATE FINANCIAL ASSISTANCE FOR LOCAL PROJECTS

To assist local agencies in the financing of water projects, the Legislature enacted Chapter 2052, Statutes of 1957, entitled "State Financial Assistance for Local Projects". Chapter 1752, Statutes of 1959, amended the 1957 statutes: designated the law as the Davis-Grunsky Act; and provided initial funds. Chapter 1762, Statutes of 1959, provided $130,000,000 for the program. During 1961, and again in 1963, the act was amended in order to make it more workable (Chapters 520, 1286, 1348, and 1723, Statutes of 1961, and Chapters 908, 1075 and 2023, Statutes of 1963).

This program provides state financial assistance to public agencies for development of needed and economically justified local water projects. To encourage agencies to develop the public recreational potential of local projects, state grants are provided for costs properly allocated to the recreational and fish and wildlife functions. The program also permits state participation as partner in local projects, under certain conditions.

The Department of Water Resources prescribes procedur and gives information to interested agencies pertaining to appl cations, receives and processes applications, makes findings feasibility based on engineering, economic, and financial analys of reports prepared by applicants, and makes reports to t Legislature on each project.

The Department of Water Resources, with prior approval the California Water Commission, can make loans up $4,000,000 and grants up to $400,000. Larger loans and gran may be made only after approval by the Legislature.

Approximately $10,000,000 in state funds have been approv for loans and grants under the program. Final applications f another $25,000,000 are currently under review or preparatio

CALIFORNIA WATER PROGRAM—Continued			
The following schedule reflects the estimated expenditure pattern of Chapter 1752, Statutes of 1959, loans and grants based on preliminary review of applications received:			
Approved Loans and Grants:			
South Sutter Water District	–	$225,565	–
South Sutter Water District (Loan Number 2)	$288,168	1,548,168	–
Sierra County Waterworks District Number 1	–	75,000	–
Georgetown Divide Public Utility District	–	–	–
Monterey County Flood Control and Water Conservation District	–	320,000	$1,250,000
Alameda County Flood Control and Water Conservation District (2 projects)	–	185,000	150,000
Humboldt Bay Municipal Water District	–	300,000	–
City of Santa Cruz	–	149,300	–
Browns Valley Irrigation District	–	700,000	–
Sacramento Municipal Utility District (4 projects)	–	1,175,000	–
Approved Loans for Preparation of Feasibility Reports:			
Groveland Community Service District	2,500	–	–
Formal Applications Received:			
South Sutter Water District	–	960,000	–
Jackson Valley Irrigation District	–	–	400,000
Tuolumne County Water District Number 2	–	–	300,000
Groveland Community Services District	–	138,000	–
Helix Irrigation District	–	537,000	–
City of San Diego	–	800,000	–
Loan Applications for Preparation of Feasibility Reports Received:			
Hydesville County Water District	–	3,500	–
Preliminary Applications Received:			
Hydesville County Water District, Alderpoint County Water District, Centerville Community Services District, Placer County Water Agency, Nevada Irrigation District, Yuba County Water Agency, Oroville-Wyandotte Irrigation District, San Luis Obispo County Flood Control and Water Conservation District, Antelope Valley-East Kern Water Agency, San Bernardino Valley Municipal Water District, Lee Vining Public Utility District, Applegate-Clipper Gap County Water District, Mariposa County Water Agency, Shasta Community Services District	–	3,622,000	7,014,000

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

Veterans' Home of California

The Veterans' Home, a 2,412-bed facility, is located in Napa County. It is a home for aged and disabled, honorably discharged former members of the armed forces. The site of the home is on a hillside with both single and 2-story buildings and a 4-story hospital. Most of the structures of the institution have been replaced and all existing buildings are in good condition. Bed vacancies are in domiciliary sections only. Hospital and intermediate care facilities are occupied, with a long waiting list of applicants for hospitalization.

Provision is proposed for further remodeling and construction of the nospital facilities if federal moneys become available for this purpose.

PROPOSED 1964-65 EXPENDITURES [a]			
Replace reservoir cover	–	–	$53,724
The existing wood cover was built in 1906 and has deteriorated to the extent that it is a safety hazard. It is proposed to replace it with a galvanized steel cover.			
Construct addition and alterations to Medical Treatment Center	–	–	363,900
This project will provide expanded hospital facilities and surgical area and make possible the relocation of the X-ray unit away from the congested surgical suite.			
Equip addition and alterations to Medical Treatment Center	–	–	51,700
Minor Projects: [b]			
Remodel front elevator, hospital	–	–	30,000
Replace lighting, main dining room	–	–	4,000
Relocate telephone office	–	–	12,000
Replace incinerator, annex I	–	–	2,100
Complete fire alarm system	–	–	20,000
Install oxygen distribution system	–	–	40,000
Wall covering, patient areas	–	–	15,750
Landscaping, Lincoln Barracks	–	–	20,000
Addition to central warehouse	–	–	38,925
Security screens, wards 1A and 1B	–	–	19,000
Replace hazardous water closets, hospital	–	–	25,000
Alteration and improvement projects under $5,000	–	–	4,075
ESTIMATED 1962-63 AND 1963-64 EXPENDITURES [a]			
Alteration and additions to main culinary unit	$187,300	–	–
Construct medical treatment center	8,400	–	–
General Fund			
Minor Projects: [b]			
Remodel pharmacy	—2,025 [d]	–	–
Enlarge clinical laboratory	—3,083 [d]	–	–
Remodel food distribution area in hospital kitchen	—2,573 [d]	–	–
Install additional toilets and showers in ward 2E	—529 [d]	–	–
Replace pathological incinerator	—1,287 [d]	–	–

[a] From State Construction Program Fund unless otherwise indicated.
[b] Minor projects from General Fund unless otherwise indicated.
[d] Unexpended balance reported as expended in prior year.
[1] Does not include any allowance for vacancies due to members on pass, or for turnover. Excess capacity is in domiciliary sections only.

GENERAL ANALYSIS

Lump sum appropriations for project planning and miscellaneous repairs have been provided from which allocations to agencies are made as needed. The expenditures from such allocations are included in the individual agency budgets. That part which has not been allocated but which is estimated to be needed for further allocations, is included here as an expenditure.

Funds for preparation of complete project planning are proposed to continue the presently authorized procedures for securing sound cost estimates for subsequently budgeted projects.

Expenditures from available appropriations are estimated for allocation to state agencies upon approval of the State Public Works Board as prescribed by law for increased cost of construction when the lowest bid on a project is in excess of the available funds for such project. Savings from completed projects are transferred to this fund and are available by law for such allocations.

Unallocated construction funds appropriated by Item 397.5, Budget Act of 1963, are to be allocated by the Director of Finance for providing laundry facilities to serve Camarillo State Hospital. A study is in progress to determine the feasibility of enlarging the facilities at the Men's Colony in order to expand the contractual service now being rendered to Camarillo. The results of this study will determine how these funds shall be used.

Funds are proposed for miscellaneous repairs and improvements to be allocated to agencies upon subsequent determination of requirements.

RECONCILIATION WITH APPROPRIATIONS

	Salaries of County Agricultural Commissioners				
	TOTAL EXPENDITURES *(General Fund)*	$171,001	$171,229	$177,600	$6,371 (3.7%

GENERAL ANALYSIS

To secure more adequate and uniform enforcement of the provisions of the Agricultural Code, the State participates in the payment of salaries of the county agricultural commissioners as provided by Section 63.5 of the Agricultural Code. Participation is limited to the lesser of $3,300 per year or two-thirds of the salary of each commissioner. Fifty-two counties are participating in this program. There are indications that 2 additional counties may participate. Variation in amounts between years is the result of changing salaries paid the commissioners by the various counties.

	Assistance to Counties for Construction of Juvenile Homes and Camps			
	TOTAL EXPENDITURES *(General Fund)*	$305,425	$644,445	$535,130

GENERAL ANALYSIS

In accordance with the provisions of Section 891 of the Welfare and Institutions Code, the State may reimburse the counties for one-half of the cost of construction and equipping juvenile homes, ranch camps or forestry camps not to exceed $3,000 per bed unit. Reimbursement covers the construction of new buildings (including related site development and utilities) or remodeling of existing county owned buildings into a juvenile home, ranch or forestry camp. This program is administered by the Department of the Youth Authority.

Funds for this purpose are available for a period of 2 years with a specific portion of the appropriation available in the first year. This method of appropriation takes into account a realistic construction time for these facilities and allows the State to make commitments to counties for planning and construction time of more than 1 year.

The program for 1964-65 is based on an estimate of 65 beds activated that were started in 1963-64 but for which payment will not be required until the budget year. It is estimated that construction will start on an additional 205 beds in 1964-65 with the possibility that 50 will not require reimbursement until 1965-66.

Under this program a total of 2,059 beds will have been built or funded from the time of inception of this program in 1957-58 through 1964-65.

	Number of camps	41	44	45	1
	Average number of wards	2,297	2,643	2,798	155
	GENERAL ANALYSIS				
	Counties may establish juvenile homes, ranches or camps under the provisions of Sections 880 through 890 of the Welfare and Institutions Code to which wards may be committed by the juvenile courts in lieu of commitment to the Department of the Youth Authority. If the facilities meet standards prescribed by the Youth Authority they are eligible to receive state assistance toward the operation of the homes and camps. Reimbursement to counties is made for one-half of operating costs, but not in excess of $95 per month per child. There is no limit as to the number of camps for which one county may be reimbursed. It is estimated that counties will be reimbursed for an average population of 2,798 boys and girls during the 1964-65 fiscal year with a total of 45 camps in operation at the end of the year.

	GENERAL ANALYSIS				
	The juvenile border patrol is a co-operative program between the State and the City of San Diego, in accordance with Section 1760(d) of the Welfare and Institutions Code, to control the flow of juveniles crossing into Mexico. The State and the City of San Diego each contribute toward this program which is designed to prevent juvenile delinquency.

GENERAL ANALYSIS

PART I—CONTINUING PROGRAM

This section includes apportionments to local public school districts from continuing appropriations, as follows:

1. Apportionment for support of public schools.
 $208.58 per pupil in average daily attendance in the preceding fiscal year is provided for support of kindergarten, elementary, secondary, and technical schools. This apportionment is based on a constitutional minimum augmented by legislative action.
 Article IX, Section 6, of the Constitution provides that the Legislature shall add to the State School Fund revenues to provide for an apportionment each fiscal year of not less than $180 per pupil in average daily attendance during the preceding fiscal year. This apportionment per pupil was increased by the Legislature from $180 to $193.37 in 1957; to $201.10 in 1959; to $201.36 in 1961; to $208.44 in 1963; and to $208.58 effective July 1, 1964.
 The 1963-64 rate includes an allowance of $0.80 for the support of special educational programs for the mentally gifted. The further increase of $0.14 in 1964-65 will finance the mandatory education of severely mentally retarded children.
 The total cost in 1964-65 based on an estimate of 4,205,000 pupils in average daily attendance will be $876,799,274. This amount is funded by $3,500,000 available in the State School Fund and $873,299,274 from the General Fund.
2. Automobile driver training.
 $45 per pupil for reimbursement of actual cost of instructing pupils in the operation of motor vehicles, plus 75 percent of the actual amount in excess of $45 expended for replacing vehicles and simulators used, is authorized by Education Code Section 17305. The total reimbursement during any one fiscal year cannot exceed the total of the moneys collected in the Driver Training Penalty Assessment Fund during the preceding fiscal year. This fund receives its funds from a penalty assessment levied on offenses relating to operation of motor vehicles. In 1964-65 the maximum reimbursable expenses are estimated at $7,000,000.
3. Project-connected pupils.
 Special allowances are provided pursuant to Education Code Sections 18301-18307 inclusive for State Department of Water Resources project-connected pupils. In 1963-64 $36,000 is provided for this purpose. In 1964-65 it is estimated that $50,000 will be required to carry out the purposes of the program.
4. Apportionment to junior college tuition funds for newly formed districts.
 Apportionments are authorized by Education Code Section 20211 for newly formed junior college districts to pay their junior college tuition fund tax. Areas not in a junior college district are assessed a tax to cover the cost in the preceding year of sending students to junior college. The special tax upon all taxable property in a county not situated in any school district maintaining a junior college is cancelled when the area is formed into a junior college and the State General Fund pays the amount which would have been raised by the tax for a one-year period. During 1962-63 junior college districts qualified for $2,180,141 under this program. It is estimated that $3,000,000 will be required in both the 1963-64 and the 1964-65 fiscal year.
5. Special allowance for instructional television.
 Chapter 10, 1st Extraordinary Session of 1963 authorized a special program of state assistance for instructional television. The one district authorized on a pilot basis will be reimbursed at the rate of $0.25 per student participant. It is estimated that 40,000 students will participate in 1963-64 resulting in a 1964-65 expenditure of $10,000. This new program terminates on the 91st day after final adjournment of the 1965 Regular Session of the Legislature.
6. Special education programs for educationally handicapped minors.
 Chapter 2165, Statutes of 1963 authorized school districts to provide special programs for the educationally handicapped. State reimbursement of the excess costs of this new program are limited to a maximum of $900,000 in 1964-65; to $2,000,000 in 1965-66; and thereafter to a limit of $20 multiplied by the average daily attendance of the pupils enrolled in the programs.

PART II—PROGRAM AUGMENTATIONS

Because of growing pressures on the local property tax base and difficulty in achieving proper equalization of educational opportunity for California's children within present disproportionate wealth districts, the following program augmentations are proposed to the existing State and local contributions for support of the public schools:

Equalization Aid Increase for Grades K-14:
Additional State support of the public schools— $35,000,000

The State increased its support of the public school system by $25,000,000 in 1963-64 (Chapter 14, 1st Extraordinary Session, Statutes of 1963).

An amount equal to the amount withheld from transfer from the General Fund to the State School Fund pursuant to Section 3.6 of Budget Act of 1963, is to be placed in a special reserve account in the General Fund for specific appropriation by the Legislature and will amount to approximately $20,000,000. A like provision is included in the Budget Act of 1964 which will also amount to $20,000,000.

It is proposed to use $35,000,000 of this reserve amount together with a countywide tax proposal or its equivalent in school finance or school district reform to meet the continuing needs of the public schools. This amount, when combined with the $25,000,000 provided at the 1963 Session, will place new State contributions at the $60,000,000 level proposed for 1964-65 by the Conference Committee on AB 1000 last year. If county-wide tax equalization is approved and further increases should be contingent on such approval, another $27,500,000 in new resources will be available bringing total new funds of $87,500,000 into school support.

Sufficient funds to more than match the added local effort to be provided through the countywide support proposal are allotted for increased State support for the elementary and high school grades. Since the greatest need for funds lies in the districts of least wealth, it is proposed that almost the entire amount be applied to equalization effort for these less wealthy districts.

A proportionate increase in State equalization aid is also provided for Grades 13 and 14 in Junior Colleges. Growth requirements and the expanding role of these institutions under the Master Plan for Higher Education should be encouraged through an equivalent increase in the foundation program for Junior Colleges.

[a] Neither receipts nor expenditures of bond funds are included in the overall budget totals.

Apportionments for Public Schools—Continued

GENERAL ANALYSIS—Continued

PART II—PROGRAM AUGMENTATIONS—Continued

Under our present system of public school support, it is next to impossible to devise a system of allocating State funds to school districts that will provide for uniform utilization of locally taxable wealth or permit reasonable equity in tax effort among the various districts. School district organization has in many instances separated children and wealth by district boundary lines which denies equal ability and effort to support an adequate educational program. In addition, basic aid guarantees prevent the State from using sufficient portions of its contributions to provide this equalization. For these reasons, the use of a countywide tax in lieu of a similar amount of local district tax is recommended, to be levied at the present computational levels for elementary and high schools. These levies will be used within counties to alleviate, in part, basic inequalities in wealth between districts.

Legislation will be proposed to provide the program augmentations and reforms contained in this budget.

Average Daily Attendance

The average daily attendance upon which apportionments are based is as follows:

Elementary Grades, Kindergarten Through 8:			
Regular classes	2,574,283	2,681,660	2,792,800
Classes for physically handicapped	14,120	14,756	15,750

[b] From funds placed in a special reserve account in the General Fund subject to specific appropriation by the Legislature.

[c] Pursuant to Section 4 of Chapter 1006, Statutes of 1961 the receipts of $709,782 in 1962-63 plus a balance of $1,559,890 from 1961-62, a total of $2,269,672 was in the county school service fund surplus account in the General Fund. Funds from these sources were included in the amounts for program augmentation approved at the 1963 1st Extraordinary Session of the Legislature. In addition, the remaining balance in the surplus account was appropriated in 1963-64 to the School District Revolving Fund by Section 20106 of the Education Code.

State Construction Program Fund[a]	–	*10,000,000*	*10,000,000*

GENERAL ANALYSIS

Junior College Tax Relief

In recognition of the growth needs of the junior colleges in meeting their obligations under the Master Plan for Higher Education, the Legislature established a temporary program for junior college tax relief for Capital Outlay purposes. Chapter 1006, Statutes of 1961 appropriated $5,000,000 for this purpose, and a similar amount was approved in the 1962-63 Governor's Budget. These tax relief grants were utilized:

(a) For payment of interest and redemption of outstanding bonds issued for junior college purposes or for loans from the County School Service Fund for Capital Outlay purposes.
(b) For purchase or improvement of junior college sites or the planning or construction for junior college buildings on a matching basis not to exceed 1 part state funds for 4 parts district funds.

Junior College Construction Assistance

Since the 1961 tax relief program offered no permanent satisfactory solution to the shared responsibility of the State and junior college districts in meeting the expanded role of these schools under the Master Plan for Higher Education, $20 million was included for junior college construction in the State Construction Program Fund bond program approved in November of 1962.

The 1963 Legislature appropriated $20 million to be distributed under the Junior College Facility Construction Law of 1963 on a formula basis providing for state and local participation in the construction of necessary educational facilities. These funds will finance the program through the 1964-65 fiscal year.

The Junior College Facility Construction Law further provides for a joint study to develop a continuing program of State financial assistance to junior college districts for the construction of facilities based upon ability, effort and need. Recommendations will be presented at the 1965 Regular Session of the Legislature proposing the continuing program of state assistance necessary to meet the State's responsibility to junior colleges in accordance with the Master Plan for Higher Education.

[a] Neither receipts nor expenditures of bond funds are included in the overall budget totals.

GENERAL ANALYSIS

Objectives

Child care centers are established to provide care and supervision of children when it's necessary for the parent to work and the parent qualifies on the basis of need. The centers are administered under the provisions of Sections 16601 through 16645.28 of the Education Code.

Program and Performance

To carry out this program the State furnishes two-thirds of the cost, or about $0.28 per hour per child, for the maintenance and operation of the centers. The balance of the cost, or about $0.14 per hour is paid by fees collected from those persons utilizing the program.

The Child Care Center Program was established on a temporary basis by the 1943 Legislature and was made a permanent program by the 1957 General Session of the Legislature. Legislative changes were made at the 1961 General Session of the Legislature affecting the state support of the program and also affecting the eligibility of parents to participate in the program. Chapter 841, Statutes of 1963, has added authority for operation of centers by county school superintendents with the approval of the county board of education.

Section 16622 of the Education Code provides that if, during any fiscal year, there is apportioned to the Child Care Center Fund more or less than the amount to which the fund was entitled, the Superintendent of Public Instruction during the next or any succeeding year shall withhold from or add to, the apportionment during the next or any succeeding fiscal year the amount of such excess or deficiency. The 1964-65 Budget includes a deficiency amount of $96,542; $90,916 for the 1962-63 fiscal year and $5,626 for the 1963-64 fiscal year. These deficiencies arose because of higher enrollment hours than had been anticipated in the respective appropriations.

	Actual 1960-61	Actual 1961-62	Actual 1962-63	Estimated 1963-64	Estimated 1964-65
Enrollment hours	18,972,390	19,343,537	20,020,791	20,672,133	21,343,977
Change from prior year	50,755 (0.3%)	371,147 (2%)	677,254 (3.5%)	651,342 (3.3%)	671,844 (3.2%)
Total entitlement	$4,994,128	$5,368,460 [b]	$5,497,709 [c]	$5,716,925 [d]	$5,976,314

The 1964-65 Budget provides for a 3.25 percent increase in enrollment hours in the existing 229 child care centers with no new centers anticipated. It also includes provision for 4 pilot child care centers for physically handicapped and mentally retarded children at an estimated cost of $124,832. This cost is based upon 187,000 enrollment hours at $0.56 an hour plus transportation charges computed for 100 units at $200. These pilot centers are authorized by Chapter 2047, Statutes of 1963. Chapter 2047 also authorizes operation of pilot centers by county superintendents of schools with the approval of the county board of education. A further change made in the pilot program is the new authority for state contribution to transportation costs of children in the pilot centers.

Also included is $26,000 to be apportioned to an estimated 5 rural agricultural centers which are approved on a year-to-year basis.

The administrative costs of this program are carried in the budget of the Administrative Services Bureau, Division of Public School Administration, Department of Education.

[a] Neither receipts nor expenditures of bond funds are included in the overall budget totals.

[b] Reflects a deficit of $433,662 in the 1961-62 fiscal year which was included in the 1962-63 appropriation as authorized by Section 16622, Education Code.

[c] Reflects a deficit of $90,916 in the 1962-63 fiscal year which is included in the 1964-65 appropriation as authorized by Section 16622, Education Code.

[d] Reflects a deficit of $5,626 in the 1963-64 fiscal year which is included in the 1964-65 appropriation as authorized by Section 16622, Education Code.

GENERAL ANALYSIS

The State Teachers' Retirement System will contain 316,712 active members, with an additional retired roll of 29,728 members on June 30, 1965. Since July 1, 1944, members' contributions have been on a full reserve basis. State contributions are appropriated in amounts required to liquidate the amount of maturing liabilities not funded from the members' accumulated reserve and contributions of employers, rather than as the liabilities accrue. Since July 1956 the members' contributions are fixed in percentages of salary which on the average will provide for accumulation of funds sufficient to pay for one-half the cost of the member's benefit for such service. The district payment since July 1956 has been 3 percent of the teacher payroll in the district (with a maximum limitation of an amount equal to $0.05 per $100 assessed valuation) plus $12 per teacher. Before 1956 only $12 per teacher payment was made by the district.

The State finances expenditures not funded by the contributions of employing agencies and members. The State's contributions to the Teachers' Retirement Fund and the Retirement Annuity Fund are used to finance the major portion of expenditures for retirement allowances. The major portion of such allowances is payable for prior service which is funded entirely from contributions of the State and the employing districts. Subventions to local retirement systems and a portion of death benefits from the Retirement Annuity Fund are also provided from state contributions.

The subventions to local systems consist of payments of amounts equal to the allowances which would have been payable had the retired members involved been entitled to benefits from the state system alone. The payments are made on the basis of the amounts withheld from local members in the preceding year, and are reduced by one-half of the benefit payable on account of service after 1944 on which no Retirement Annuity Fund contributions have been paid.

Chapter 2060, Statutes of 1959, added a program of monthly benefits for survivors of active members who die while in service. These benefits are payable upon such death as they occur after September 30, 1959. Currently the benefits are being financed from a reserve of contributions credited on account for service rendered prior to July 1, 1944.

Chapter 2171, Statutes of 1963, provided an increase in the minimum benefits from $70 to $80 per year for each year of creditable service. This provides a partial recognition of increased costs borne by the low fixed-income group of annuitants in this system.

GENERAL ANALYSIS

Objectives

Chapter 2107, Statutes of 1963 added a new program which provides grants to school districts for teachers taking further academic training qualifying them as teachers of the physically handicapped or mentally retarded minors.

Program and Performance

This act authorizes school districts or county school superintendents to enter an agreement with certificated employees agreeing to take further academic training leading to qualification as a teacher of the physically handicapped or mentally retarded. The district or the county may make financial grants to such teachers up to the limit of $50 per unit taken during a given summer. The total amount allowed for any one employee will be the product of $50 and the number of units of credit needed to qualify for the special credential. There is a further limitation of 5 years between the first and final allowance for any one employee. Not later than October 31st of each year, the Superintendent of Public Instruction shall allow an amount sufficient to reimburse each school district or county superintendent of schools for the total of such grants made during the preceding summer.

A maximum of $60,000 is available in 1964-65 for this program. A report is required to the 1965 General Session of the Legislature describing the results and recommending the desirability of continuing the program.

GENERAL ANALYSIS

Objectives

The cash proceeds derived from the sale of general obligation bonds issued for the state school building aid program are loaned to eligible school districts for the purpose of financing the acquisition of land, construction of school facilities, and the purchase of equipment for educational needs.

Program and Performance

The school districts of California have received financial assistance for the development of school facilities since 1947 when a $20,000,000 appropriation was enacted into law followed by a $35,000,000 appropriation in 1948 and a $20,000,000 appropriation in 1952 supplemented by bond authorizations and bond sales that began during 1950 and have continued during the interim years into the current budget period.

School districts establish their eligibility for loans from state general obligation bond issue proceeds after the district's outstanding bonds exceed 95 percent of the maximum that the districts could have outstanding under the statute authorizations on the date the conditional apportionment is made, or is within $25,000 of the district's total bond limitation.

Authorized bonds have been sold to the extent of *$1,135,000,000* as of November 30, 1963, and additional bond sales are tentatively scheduled totaling $195,000,000 prior to June 30, 1965. The amounts to be repaid by the school districts are determined annually by the relationship between assessed valuation of property of the borrowing district and the amount the district must collect from taxes on local property for payment on its bonded debt. The repayments by borrowing districts are affected significantly by the use of deferment provisions authorized in the statutes of the State of California with a resultant effect upon the net cost to the General Fund as computed by fiscal year. The period for repayment when deferment provisions are used extend the repayment period from 30 years to 40 years. After 40 years the unpaid balance will be canceled in accordance with the stipulations in the law.

The effective rate for state bond issues has varied from a low effective rate of 1.74 percent in 1950 to a high effective rate of 4 percent in 1959. The latest completed sales have been sold at moderate rates of approximately 2.99 percent.

The actual debt service data from the beginning of this program is presented in the following tabulation:

Fiscal Year	Debt Service			District Repayments	Other Repayments	General Fund Net Cost
	Interest	Redemption	Total			
1950-51	$1,700,084	–	$1,700,084	–	$882,216	$817,868

GENERAL ANALYSIS

Objectives

The textbook program, under the authority of Section 7, Article 9, of the Constitution, provides for the publishing and purchasing of textbooks approved by the State Board of Education. The textbooks are then distributed without charge to pupils in the elementary grades of the public schools within the State.

Program and Performance

The 1964-65 program includes funds for a one-year distribution of the new adoptions in mathematics for all grades and in Social Studies for the 4th grade and for a two-year printing program for prior adoptions. All books offered by publishers for the new adoptions were evaluated by the State Curriculum Commission and the commission recommended its choice of books to the State Board of Education for adoption. The State Board of Education is now in the process of adopting the textbook program in the subjects.

The State Printing Plant which over the years has manufactured the bulk of all California textbook adoptions, at a saving of many millions of dollars to California taxpayers, will continue to provide the major number of textbooks for use in the Public School System. This budget, however, continues to provide funds for the purchase of some textbooks which have not been offered on a lease plate basis for printing in the State Printing Plant. In the opinion of the State Board of Education, the purchase of these books will ensure the best possible educational opportunity for the pupils in California. To assure that this opportunity to purchase textbooks is offered at a reasonble cost in relation to state printing costs, it is proposed that the price differential be limited to 13 percent of a computed estimated cost figure which has as its base the cost of manufacturing the same or similar books in the State Printing Plant. This limitation will to some extent offset the increased costs inherent in purchasing completed textbooks rather than manufacturing them in the State Printing Plant.

Recent developments in the adoption proceedings of the mathematics textbooks indicate the need of a complete review of the prices charged by the publishers for royalties as well as for completed books. Such a review will be made as soon as possible with the Legislative Analyst and the Department of Education.

The new adoptions contained in this budget would normally be placed into the public schools for use beginning Fall, 1965. However, the subject matter improvements contained in the new mathematics adoptions are so important that every effort is being made to place the more critical basic books (at least grades 1, 2 and 7) into the schools by Fall of 1964, a full year ahead of schedule. An Emergency Fund authorization of $1,111,000 is proposed in 1963-64 to allow the acceleration of these 3 basic books. The State Board of Education is reducing the costs of the new adoptions to offset the additional costs in the 1963-64 fiscal year.

Reprints and Purchases of Previous Adoptions:

GENERAL ANALYSIS

Objectives

The Public Library Services Act, Chapter 1802, Statutes of 1963, has as its objective the improvement of locally-financed free public libraries throughout the State by means of incentive grants to public library systems.

Program and Performance

This program is administered by the state librarian with the advice of the Public Library Development Board created by the act. The board has 9 members appointed by the Governor to 4-year terms.

The program provides 3 types of grants to qualifying libraries: planning grants to develop an acceptable plan for improved library services, establishment grants to assist in the financing of the formation costs of library systems, and per capita grants based on average population per square mile served by the system. The first 2 types of grant are one-time in nature while the per capita grants will be on an annual basis.

State financial support is limited to not more than 2 percent of the total operating expenditures of all the public libraries of the State from funds received from public sources for the last completed fiscal year.

A progress report will be available at the 1964 Budget Session of the Legislature.

	Totals *(Federal funds)* [a]	$3,728,272	$3,866,263	$3,866,263

GENERAL ANALYSIS

The National Defense Education Act of 1958 was enacted by Congress (Public Law 85-864) to provide financial assistance to states and their subdivisions in order to ensure trained manpower of sufficient quality and quantity to meet the national defense needs of the country. The total program is discussed in the State Operation Section of the Budget, National Defense Education. These titles, providing for reimbursements to local school districts, are administered by the State Department of Education.

Before a state can participate in the provisions of the National Defense Education programs, it must prepare and have approved by the United States Commissioner of Education a state plan for each program title which becomes the state's contract with the Federal Government. Federal funds are then released to the state in accordance with the approved state plan and on the basis of state allocations determined by the United States Commissioner under a formula described in the act.

TITLE 3a—IMPROVEMENT OF INSTRUCTION

Objectives

Title 3a of the National Defense Education Act is concerned with the improvement of instruction in the fields of science, mathematics, and modern foreign languages.

Program and Performance

Under Title 3a of the act, school districts and offices of the county superintendents of schools file applications for funds for the purchase of equipment, materials, and minor remodeling with the State Department of Education and certify that local matching funds are available. The State Department of Education reviews the applications in terms of the state plan and either approves or disapproves the proposals. Upon approval by the State Department of Education, the local agency is authorized to proceed with the purchases as outlined in their project proposal and to file a claim for reimbursement of not more than one-half of the expenditure.

Federal funds available for this title are matched by local school district expenditures and no General Fund appropriation is required.

Reimbursements to school districts *(Federal funds)* [a]	$2,671,852	$2,739,528	$2,739,528

TITLE 5—IMPROVEMENT OF GUIDANCE

Objectives

Title 5 of the National Defense Education Act is concerned with the establishment and improvement of programs of testing and guidance for the identification and encouragement of able students.

Program and Performance

This title provides federal funds for reimbursement to local school districts for the establishment and maintenance of programs in guidance, counseling, and testing in public secondary schools. School districts file applications for these federal funds with the State Department of Education where the applications are reviewed in terms of the State Plan for Title 5. If approved by the department the local district is authorized to proceed with its program and the district is reimbursed for part of the expenditure.

Existing state and local expenditures meet the matching requirement of this title and no General Fund appropriation is required.

Reimbursements to school districts *(Federal funds)* [a]	$1,056,420	$1,126,735	$1,126,735

	School Building Construction			
	SUMMARY			
	TOTAL EXPENDITURES *(State School Construction Fund)*	$179,967	$268,275	$130,000

GENERAL ANALYSIS

The State Project Area School Construction Law authorizes the State Allocation Board to make apportionments from balances in the State School Construction Fund to eligible school districts under prescribed conditions caused by State of California major construction projects.

The additional financial burden at the district level is measured by increased enrollment load identified as project children in average daily attendance and must reach a minimum of 25 during the period and at least 5 percent of the average daily attendance in the district during the year.

The districts that receive apportionments are required to repay the principal amount within a period of 30 years. Allocations have been made to the Thermalito School District located in Butte County and construction is in progress.

School Lunch Program			
TOTAL EXPENDITURES *(Federal funds)* [a]	$6,249,993	$6,200,000	$6,200,000

GENERAL ANALYSIS

Under the Federal School Lunch Act, federal funds are distributed to school districts offering approved lunches to children on a partially reimbursed basis. During the school months of the 1962-63 fiscal year an average of 3,725 schools participated, an increase of 120 schools over the previous year. Surplus food commodities donated by the Federal Government during 1962-63 were valued at $13,191,625, an increase of $419,498 over the 1961-62 fiscal year. These surplus food commodities were distributed by the State Educational Agency for Surplus Property. Handling charges for this service, amounting to $1,035,510, were reimbursed by the school districts to the Surplus Property Revolving Fund.

	Special Milk Program				
	TOTAL EXPENDITURES *(Federal funds)* [a]	$8,718,779	$8,700,000	$8,000,000	

GENERAL ANALYSIS

This program is sponsored by the Federal Government under the Agricultural Adjustment Act of 1949, to encourage school pupils to consume surplus milk. During the 1962-63 school year, 16,553,478 gallons of milk were consumed in this program, an increase of nearly 613,059 gallons over the previous year. An additional 7,769,805 gallons were consumed in the School Lunch Program. Latest information available from the United States Department of Agriculture indicates that federal funds will be 8 percent less in the 1964-65 fiscal year than has been available in recent years. This program, as well as the School Lunch Program is administered through the Division of Public School Administration of the Department of Education.

Totals	$5,999,080	$6,031,040	$5,984,305	—$46,735 (—0.8%)

GENERAL ANALYSIS

Objectives

The purpose of vocational education is to provide training to develop skills, attitudes and working habits and to impart knowledge and information needed by workers to enter and make progress in employment on a useful and productive basis.

Program and Performance

The vocational education program for California is based on a plan, co-operatively approved and financed by local school districts, the State Department of Education, and the United States Office of Education.

The available funds are expended for supervision and teacher training at the state level and as reimbursements to those local districts which meet the established qualifications of the program. These reimbursements are based on the excess costs to the school districts of meeting the prescribed standards.

In accepting federal aid for vocational education, the State has provided appropriations to match, in part, federal grants-in-aid contained in federal vocational education legislation. After the deduction of state operating costs, the remaining balances of state and federal funds for supervision and teacher training costs are distributed to public secondary school districts maintaining approved courses in vocational instruction in agriculture, homemaking, business education and industrial occupations.

Additional federal funds are available for reimbursements to schools for their costs of providing training under the Manpower Development and Training Act (PL 87-415).

This program, conducted jointly with the State Department of Employment, is directed to training the unemployed in employable work skills and then placing them in gainful employment.

Allocations by program are as follows:

	Actual 1962-63	Estimated 1963-64	Estimated 1964-65
Agriculture	$332,658	$271,476	$269,614

SUBVENTIONS FOR MENTAL HYGIENE

LINE	SUBVENTION EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	ESTIMATED 1964-65
	Assistance to Local Agencies for Mental Health Services			
	TOTAL EXPENDITURES	$3,205,713	$5,291,206	$11,679,948

GENERAL ANALYSIS

Financial assistance to local governments may be granted under Section 9034 and pursuant to Section 9030 of the Welfare and Institutions Code for the establishment and development of mental health services, including services to the mentally retarded, through locally administered and controlled community mental health programs. It is designed to augment and promote the improvement and, if necessary, the expansion of existing local psychiatric services in general hospitals or clinics that help to conserve the mental health of the people of California. The Department of Mental Hygiene is responsible for the review and co-ordination of this program.

This program began in 1958 and by the end of 1962-63, 20 local jurisdictions were participating in it. It is anticipated that programs in 2 additional jurisdictions will be approved for reimbursement during the current year.

Legislation enacted in 1963 expanded the scope of the programs which could be accepted and liberalized the state matching provisions. The major revisions relate to the removal of the restrictions on involuntary commitments and changes in the reimbursement rate. The former reimbursement rate of 50 percent was amended to a point where total local expenditures will be reimbursed somewhere between a low of 50 percent and a high of 75 percent. The actual rate will be somewhere between these two extremes, dependent upon the local jurisdictions' past program for mental health services.

During 1964-65 new programs are expected to be proposed in the following jurisdictions: Fresno, Humboldt, Kings, Madera, Marin, Merced, Orange, Sacramento, San Bernardino, Shasta, Stanislaus, Tulare, Mariposa, and Yolo counties.

These new programs in jurisdictions not now offering reimbursable programs plus new or expanded programs in jurisdictions already receiving reimbursement in 1963-64 are expected to provide the following additional services in 1964-65:

- 24 outpatient clinics, including screening and referral units for the mentally ill and mentally retarded;
- 226 psychiatric treatment hospital beds providing psychiatric hospitalization for acute and emergency cases;
- 1 multipurpose center for the mentally retarded, including day care and rehabilitative services, and intensive treatment and retraining;
- 13 consultation services, extending services to local government agencies of Health, Welfare, Probation, Law Enforcement, to schools and other professional groups.

In addition to the above added services, many existing programs are strengthening their present staffs.

The funds requested in 1964-65 represent the best estimates of cost based on available information and the experience of the field staff of the Department of Mental Hygiene. They represent the costs of currently approved programs and anticipated expansion of local mental health services in existing jurisdictions as well as provision for new jurisdictions entering the local mental health assistance program. The tables below contain a brief description of services currently included in each local mental health program. They also contain a description of the financial picture of the Short-Doyle program.

A brief description of the program conducted by each local jurisdiction is broken down into the 5 categories recognized by the enabling legislation. These are (1) outpatient psychiatric services, (2) inpatient psychiatric services, (3) rehabilitation services, (4) psychiatric consultation services, and (5) information services. Any jurisdiction must provide one or more of these 5 services to qualify. Some jurisdictions provide all services.

The actual amounts reimbursed by the State in the 1962-63 fiscal year are shown in the first column below. This amount includes reimbursement for services rendered in the fourth quarter of 1961-62 and the first 3 quarters of 1962-63. These reimbursements total $3,205,713. The combination of reimbursements covers the fourth quarter claims of one fiscal year and the first three quarters of the following fiscal year which is in accordance with the provisions of the Short-Doyle Act.

The actual state obligations incurred during 1962-63 are $3,333,785 but $879,979 of these charges are carried forward to 1963-64. Conversely $751,907 from prior year obligations are reimbursed in 1962-63, making the total reimbursement of $3,205,713.

The 1963-64 figures shown in this table are the full-year costs of programs conducted in that year, $7,766,144, and reflect the applications approved. This amount is discounted by anticipated savings of $1,221,128 reflecting some lag in getting all programs started and filling vacant positions. The amount is further reduced by the fourth quarter carryover to 1964-65, $2,133,789, but increased by the fourth quarter of 1962-63, $879,979. Thus the estimated expenditures for 1963-64 are $5,291,206, which is within the $5,450,000 appropriated for that year.

The program for 1964-65 is shown in lump sum only and not distributed by jurisdiction. Full year costs are estimated at $14,663,440. This amount is reduced by estimated delays in programs and unfilled positions, $1,835,233, and $3,282,040 for fourth quarter charges carried forward to 1965-66, but increased by the fourth quarter of 1963-64, $2,133,789, resulting in a net expenditure estimate of $11,679,948.

Treatment	184,731	223,241	223,241
Totals	$8,635,282	$11,302,931	$12,202,083

GENERAL ANALYSIS

This budget provides funds for a state program for handicapped children, which is administered under the provisions of Sections 249 to 271 of the Health and Safety Code. Whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of the county requests the State to furnish such services. The county pays a part of these costs from the funds provided under the provisions of Section 270 which makes it mandatory that each county appropriate at least 1/10 mill on each dollar of assessed property valuation to finance the program.

The budget formula for distribution of these funds is as follows:

a. Treatment:
After the county has spent the 1/10 mill, the State will provide funds sufficient to bring the program up to $20,000, or 3/10 mill, whichever is greater. Treatment costs beyond that point will be shared in the ratio of $2 of state funds to $1 of county funds.

[a] Grants from the Federal Government and expenditures therefrom are not included in the budget totals.

LINE	SUBVENTION EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	ESTIMATED 1964-65

Assistance to Counties for Care of Crippled Children—Continued

GENERAL ANALYSIS—Continued

b. Administrative Allowance:
The State will contribute two-thirds of the expenditures for administration of each independent county program made in accordance with an approved budget, but not to exceed 6⅔ percent of the expenditures for diagnosis and treatment by that county in the prior year.

c. Diagnosis and Noncounty Resident Care:
The State finances the cost of diagnosis for all children believed to have a condition eligible for treatment, and the cost of treatment when the county of residence cannot be established.

Services rendered include necessary medical examinations and consultations, medical and surgical procedures, office and hospital visits, hospitalization, convalescent home care, rehabilitation services, and appliances such as artificial limbs, braces, hearing aids, etc.

Eligible medical conditions for this program are those which are remediable.

Normal program growth and medical fee increases during the budget year represent an increased cost of $481,152.

The 1964-65 budget also provides $418,000 to initiate a program for the care of children afflicted with epilepsy. Of this amount $350,000 is provided to pay for approximately 2,800 diagnostic examinations and the remainder will pay the state share for the treatment of approximately 1,900 children.

Assistance to Counties for Tuberculosis Sanatoria

TOTAL EXPENDITURES *(General Fund)*	$3,557,761	$3,140,418	$3,207,628

GENERAL ANALYSIS

Section 3298 of the Health and Safety Code provides for state grants-in-aid to counties for the treatment and care of persons suffering from tuberculosis. Over the last few years there has been a steady decline in the number of patient-days subsidized. Decreased patient-days result from improved techniques of early case finding and treatment, decreased incidence of disease, and decreased bed occupancies. This is shown in the following tables:

	ACTUAL					ESTIMATED	
	1958-59	1959-60	1960-61	1961-62	1962-63	1963-64	1964-65
Patient-days	1,303,568	1,131,191	971,127	836,820	740,000	680,000	639,000

Under the provisions of Section 3300 of the Health and Safety Code the State provides a subsidy of $2.60 per patient-day for the first 36,500 patient-days of care, $2.30 per patient-day for the second 36,500 patient-days, and $1.75 for all additional days, plus an additional amount specified in each budget act. The Budget Act of 1963 provided a supplemental amount of $2.44 to each category.

A supplemental amount of $2.94, an increase of $0.50 over the Budget Act of 1963, is proposed for the 1964-65 fiscal year based on the increased cost of care experienced by local sanatoria.

Section 3295 of the Health and Safety Code provides for the care of persons suffering from tuberculosis who violate the quarantine or isolation orders of a county health office. An agreement has been made with the Department of Corrections to care for these persons at the Medical Facility at Vacaville and at the Institution for Women at Corona. Included in the budget request is $67,500 to reimburse the Department of Corrections for an average occupancy of 37 beds.

The rate of decrease has slowed down and for this reason hospitalization has not decreased as rapidly as was anticipated in the 1963-64 budget. It is now estimated that there will be 680,000 patient-days in 1963-64 as compared to 639,958 estimated in the 1963-64 budget. The 40,042 increase in patient-days will require an augmentation of $177,915 to meet the additional cost.

GENERAL ANALYSIS

Section 1157 of the Health and Safety Code permits the Department of Public Health to furnish local public health services to those counties of less than 40,000 population that have no recognized local health departments and which contribute a minimum of $.55 per capita for public health purposes. This program now includes the following 16 counties: Alpine, Amador, Calaveras, El Dorado, Glenn, Lake, Lassen, Mariposa, Modoc, Mono, Nevada, Sierra, Siskiyou, Tehama, Trinity, and Tuolumne.

The budget provides for 2 new positions in 1964-65. On health education consultant is proposed to divide the worklos with the 1 existing health education consultant now servir the 16 counties. It is intended that with this position the Sta will provide adequate staff for a minimum basic health educ tion program in these counties. One public health nurse proposed for Amador and Calaveras Counties to meet a workloa increase mainly related to the increased number of tuberculos cases under care in those counties.

	GENERAL ANALYSIS			
	Federal and state funds may be allocated to qualified health departments under the provisions of Section 1100 of the Health and Safety Code to provide effective local public health services. State funds are allocated to local health departments in accordance with Section 1141 of the Health and Safety Code. The General Fund portion for 1964-65 is proposed on the same basis as was approved in the 1962 Budget Act. This includes basic allowances plus an amount equal to 20.7 cents per capita for estimated population increase. After allocation of federal funds for special local demonstration and investigation projects, the balance of the federal funds is distributed in the same ratio as state funds.

	TOTAL EXPENDITURES *(General Fund)*				$207,719	$209,463	$214,522
	Personnel man-years				11.5	11.5	11.6
	GENERAL ANALYSIS						

Assistance is provided to local governmental agencies in accordance with Sections 2425 and 2426 of the Health and Safety Code for control of mosquito-borne diseases by means of subsidies provided for reporting of mosquito incidence, and research conducted in field laboratories to determine the most effective and economical methods of mosquito control.

State assistance in co-operative control activities cannot exceed 50 percent of the cost of such activities.

The 1964-65 Budget provides for continuation of the same level of assistance as provided in 1963-64.

Currently the Department of Public Health is re-evaluating the mosquito surveillance program to determine if local agencies can be served better by a shift in program emphasis toward additional applied research.

	GENERAL ANALYSIS						

This is a program jointly sponsored by the Department of Public Health, the Department of Education, local school districts, and local health departments throughout the State. Treatment is provided for children with complicated medical diagnoses such as cerebral palsy, poliomyelitis, muscular dystrophy, amputation, and multiple sclerosis by therapists in special school facilities. Special classrooms and therapy units are built and equipped by the school district; the physical and occupational therapists, and medical supervision are provided through the Department of Public Health. Assignment of therapists is based on the number of children with cerebral palsy requiring treatment. Children with other disabling conditions receive treatment on a "time available" basis.

This budget provides funds for the department to employ therapists in counties which do not operate independent programs and enter into contracts for local health departments to employ them. All therapists will be transferred to local agencies by July 1, 1964.

GENERAL ANALYSIS

Section 435.3 of the Health and Safety Code provides that the State may participate in the federal hospital construction program. Hospitals include nursing homes, diagnostic and treatment and rehabilitation centers, and chronic disease hospitals. Allocations are made in accordance with the provisions of Section 435.6 of the Health and Safety Code to nonprofit as well as governmental hospitals.

A deficiency appropriation is proposed to enable the start of construction during 1963-64 on hospitals receiving allocations of state and federal funds during the same year.

GENERAL ANALYSIS

The social welfare public assistance program in California will provide an estimated 915,000 aged, handicapped and needy persons with monetary assistance and social services at an estimated cost of $959,500,000 in state, federal and county funds in 1964-65.

The State Department of Social Welfare supervises the locally administered Aid to the Blind, Aid to Potentially Self-supporting Blind, Aid to Dependent Families with Children, Aid to Needy Disabled, Old Age Security, and Medical Assistance for the Aged assistance programs.

Rehabilitation services are provided to individuals in the form of treatment or surgery to prevent blindness and vocational training for the mentally retarded. In previous years these services were funded from the appropriation for the support of the Department of Social Welfare.

Within the area of local administration the department provides an extensive program of training for county public assistance personnel in the form of both an in-service orientation program for new personnel, and an educational leave stipend program for existing personnel. It promotes the extension of the completely federal financed programs of child welfare and day care services throughout the State, and provides such services with state personnel in some counties without programs of their own. It encourages the counties to initiate special projects directed towards improving services to recipients, with the ultimate objective of reducing dependency and promoting rehabilitation.

Licensing of agencies for the reception and care of aged and children, and for public and private adoptions is the responsibility of the State Department of Social Welfare. The department provides reports to courts for independent adoptions and issues certificates of authority to institutions of the aged that provide life care contracts. Through agreement with certain of the larger counties these responsibilities have been delegated and are administered in part at the local level.

The 1963 Legislature made a number of program changes; the major items are noted under the program headings. The Medical Care Premium Deposit Fund was abolished to release unused funds and all medical payments are now made directly from the General Fund.

AID TO THE BLIND

This is a public assistance program financed by the State, Federal and county governments for needy persons without sight, or with impaired sight, who meet certain other requirements such as those dealing with property.

The present basic grant of $125 per month and the maximum grant of $175 per month per recipient includes $5 in cost of living increases granted since January 1, 1960. Out-patient medical care is provided at an average maximum of $17.50 per month per adult recipient.

Chapter 510, Statutes of 1963, provided for: inpatient medical care, equivalent to that provided under the Medical Assistance for the Aged program for those recipients under 65 years of age; an additional grant not to exceed $300 for attendant and other special services to those recipients who require these services; the elimination of a prescribed period of residence for determining eligibility; and the granting of aid on the first day of the month following application rather than the first day of the month in which eligibility is determined. It is estimated that there will be an increase of 552 in the average caseload in 1964-65 as a result of these changes.

In addition, over 200 cases in the 1963-64 estimate of the average caseload results from transfer of persons receiving aid to potentially self-supporting blind to this program as permitted by Chapter 510, Statutes of 1963.

Chapter 2168, Statutes of 1963, eliminated, to the extent allowed by federal regulations, any consideration of an applicant's income or property in determining eligibility or the amount of aid. This resulted in an increase of the property reserve by $300 per individual and increases of $700 to $1,000 for married couples. It is anticipated that these provisions will increase the average caseload for 1964-65 by 474 recipients.

The 1964-65 Budget anticipates an additional cost of living increase of $2 per month per recipient to be effective December 1, 1964 making the grants $127 basic and $177 maximum.

AID TO POTENTIALLY SELF-SUPPORTING BLIND

This is a public assistance program financed by the State and county governments for needy persons without sight, or with impaired sight, who are unable to provide themselves fully with the necessities of life but are working on a plan for self-support.

Effective July 1, 1963, Chapter 510, Statutes of 1963 permits persons applying for or receiving aid under this program to receive payment under the Aid to Blind program for a period of 12 months, or such other period as may be authorized by the Federal Government. The temporary reduction in payments under this program results from this change in state law and an existing federal provision that permits federal participation in potentially self-supporting blind programs for a 12-month period.

Chapter 510 also provides for: inpatient medical care, equivalent to that provided under the Medical Assistance for the Aged program for those recipients under 65 years of age; an additional grant not to exceed $300 for attendant and other special services to those recipients who require these services; the elimination of a prescribed period of residence for determining eligibility; and the granting of aid on the first day of the month following application rather than the first day of the month in which eligibility is determined.

With the addition of an anticipated $2 cost of living increase on December 1, 1964, the basic and maximum grants for this program will be the same as those for the blind, $127 and $177 respectively. Outpatient medical care is provided at an average maximum of $17.50 per adult recipient.

AID TO NEEDY DISABLED

This is a public assistance program financed by State, federal and county governments for needy persons who are both permanently impaired and totally disabled. The maximum average payment is $100 per month per recipient for assistance; the 1963 Legislature removed the individual maximum grant of $106. Medical care is provided at an average maximum of $17.50 per month per adult recipient.

Chapter 510, Statutes of 1963, revised the definition of totally disabled effective January 1, 1965, to include any impairment which substantially precludes the individual from engaging in useful occupations within his competence. This legislation also provides for an annual cost of living adjustment to the average grant effective January 1, 1964; reduction of the residence requirement from 5 to 3 years effective January 1, 1965; and grants aid on the first day of the month following application rather than the first day of the month in which eligibility is determined effective January 1, 1964.

A cost of living increase of $1, effective February 1, 1965, is included in the 1964-65 estimates.

	Federal funds [b]	*82,677,473*	*98,586,600*	*115,577,100*

This is a public assistance program financed by State, Federal and county governments. The primary purpose of the program is to provide family security and financial assistance for children who are deprived of parental support or care. It is designed to keep children in their own family unit with parental responsibility for the family living plan; if this is not possible, the best substitute care is provided in the home of a relative, a foster home, or a children's institution.

Chapter 510, Statutes of 1963, added the unemployment of parent or parents as a basis for eligibility in this program, effective February 1, 1964. This legislation also provided that insofar as practical useful work experience and constructive vocational training for unemployed parents shall be established by the county. Provision was also made for the granting of aid on the first day of the month following application rather than the first day of the month in which eligibility is determined, effective January 1, 1964.

The 1964-65 estimates anticipate an additional cost of living increase of 1.5 percent to be effective April 1, 1965.

The estimated increase in the average medical vendor payment for 1964-65 reflects the restoration of dental services to the teenage children and more medical care for the adult members of the family groups.

[a] Includes county supplemental payments.

[b] Grants from the Federal Government and expenditures therefrom are not included in the overall budget totals.

[c] Includes county supplemental payments.

[d] Includes some incapacitated fathers not included in the assistance persons count.

[e] Average based on the State Controller's transfer to the Medical Care Premium Deposit Fund.

[f] Represents the State Controller's transfer to the Medical Care Premium Deposit Fund, which exceeds advances to counties by over $5 million.

	OLD AGE SECURITY			
	This is a public assistance program financed by State, Federal, and county governments for needy persons at least 65 years old who also meet certain other requirements in regard to such things as residence and property. The basic grant of $107 per month and the maximum grant of $172 per month per recipient include $2 in cost of living increases granted after January 1, 1962. Medical care is provided at an average maximum of $17.50 per month per adult recipient. Chapter 510, Statutes of 1963, provided for the granting of aid on the first day of the month following application rather than the first day of the month in which eligibility is determined. 1964-65 estimates anticipate a further increase in cost of living allowances of $1 per month per recipient to be effective December 1, 1964.

PREVENTION OF BLINDNESS

This program provides treatment or surgery to prevent blindness or restore vision to persons applying for or receiving Aid to the Blind. The cost of treatment of recipients of Aid to the Blind is paid through the Public Assistance Medical Care Program. The local assistance budget provides funds for treatment of a small group of persons who do not meet federal aid requirements regarding degree of vision. Provision for this program for 1962-63 and 1963-64 is reflected in the Department of Social Welfare's support budget.

	Expenditures:

	General Fund	–	–	*41,710*
	Federal funds [a]	–	–	*1,290*

SHELTERED WORKSHOPS

The 1963 Legislature authorized a pilot program of vocational training for the mentally retarded in sheltered workshops. The Department of Rehabilitation, through a contract, provides vocational evaluation and work training center experience for a limited number of Aid to Disabled recipients. These persons would not otherwise qualify for vocational rehabilitation services. The $30,000 General Fund share of this cost will be matched by $90,000 in federal funds. The 1964-65 request is the same amount as authorized for 1963-64, since there has been insufficient time to evaluate the effects of the program. The 1963-64 appropriation is shown in the Department of Social Welfare's support budget.

COUNTY ADMINISTRATION OF ASSISTANCE PROGRAMS

GENERAL ANALYSIS

The cost of local administration of programs for the blind, children, disabled, the aged, and medical assistance for aged is borne by the county and the Federal Government. Federal funds for county administration are received by the State and forwarded to the counties on the basis of estimates prepared by the State Department of Social Welfare subject to adjustment upon receipt and audit of the counties' statements of expenditures.

Aid to the Blind:			
Total expenditures	$1,563,909	$1,595,200	$1,753,700
Less: County share—paid by counties	—810,190	—750,500	—820,900
Net Expenditures—Federal Funds	$753,719	$844,700	$932,800
Aid to Families With Dependent Children:			
Total expenditures	$29,734,744	$36,581,000	$43,346,100
Less: County share—paid by counties	—15,514,795	—16,763,300	—18,778,000
Net Expenditures—Federal Funds	$14,219,949	$19,817,700	$24,568,100
Aid to Disabled:			
Total expenditures	$4,644,599	$7,260,300	$11,078,100
Less: County share—paid by counties	—2,337,353	—3,285,900	—4,904,000
Net Expenditures—Federal Funds	$2,307,246	$3,974,400	$6,174,100
Old Age Security:			
Total expenditures	$21,550,195	$22,926,200	$24,416,600
Less: County share—paid by counties	—10,886,350	—10,708,100	—11,101,600
Net Expenditures—Federal Funds	$10,663,845	$12,218,100	$13,315,000
Medical Assistance for the Aged:			
Total expenditures	$2,914,587	$3,688,300	$4,716,500
Less: County share—paid by counties	—1,459,933	—1,641,300	—2,063,500
Net Expenditures—Federal Funds	$1,454,654	$2,047,000	$2,653,000
TOTAL EXPENDITURES (Federal funds) [a]	$29,399,413	$38,901,900	$47,643,000

TRAINING

The State and Federal Governments assist the county welfare departments in improving the quality of administration and service by encouraging employee training.

Programs are conducted for in-service training opportunities for personnel of county welfare agencies; and for granting of scholarships to persons agreeing to work for county welfare departments.

The 1962 amendments to the Social Security Act placed more emphasis on staff training and provided for federal payment of 75 percent of the cost of training activities.

Federal administrative regulations now require completion by 1967 of:

1. Organized in-service training for all staff in state and and local agencies.
2. Technical and professional education for specified positions in state and local agencies.
3. Assignment of technically competent persons to plan, direct and conduct the staff development program.

[a] Grants from the Federal Government and expenditures therefrom are not included in the overall budget totals.

Subventions for Health and Welfare

SOCIAL WELFARE—Continued

Local Administration—Continued

TRAINING—Continued

The 1964-65 General Fund cost is expected to be as follows:

a. County training and orientation	$52,577
b. Scholarships and stipends	56,250
c. Public assistance interns and field instruction units	7,875

One of the primary methods used for in-service training is through orientation centers. Orientation centers are operated by 8 counties; 9 additional counties plan to operate their own; the State Orientation Center provides training services for the remaining 41. Approximately 410 beginning social workers will receive training in groups of 48 at a time. The intensive 4-week training is practical and covers the actual procedures used on the job. For operation of the center, $25,077 is proposed from state funds and $75,230 from federal funds to continue the existing staff and provide for the addition of 3 training and 1 clerical positions required to expand the class size to 48 per session. To provide maintenance expenses of trainees attending the orientation and induction center, $27,500 of state funds is matched by an estimated $82,500 of federal funds. In addition, $49,283 of Federal Child Welfare Services funds is set aside for institutes and conferences for local child welfare services staff.

For scholarships for personnel to work in county welfare departments, the department proposes:

1. The sum of $56,250 matched by an estimated $168,750 of federal funds, to support stipends for persons who will work in public assistance in county welfare departments.
2. The sum of $370,800 of federal Child Welfare Services funds to support 120 stipends for workers who will work on child welfare services in county welfare departments.

The department proposes to establish 3 additional public assistance field instruction units or intern programs to help meet the shortage of trained and qualified personnel. These units are to be located at the 3 new graduate schools of social work being established by the State College Trustees at Fresno, Sacramento, and San Diego State Colleges. For this purpose $7,875 of State General Fund money is matched by an estimated $23,625 of federal funds.

CHILD WELFARE SERVICES

The Federal Government supports or augments county programs of child welfare services.

The program for 1964-65 calls for augmentation or supplementation of county child welfare operations in the sum of $900,668 from Federal child welfare services funds. Of this sum, approximately $155,000 is planned to be used by the Department of Social Welfare to employ 14 specialists and 5 clerical employees to provide child welfare services in local communities under co-operative arrangements between the department and the county welfare departments in instances where the county itself cannot recruit the desired personnel.

The last Congress appropriated additional funds for special day care services. These are expected to continue in the budget year.

[a] Grants from the Federal Government and expenditures therefrom are not included in the overall budget totals.

SPECIAL PROJECTS

A total of $175,000 in State funds is proposed to promote local community activities for older persons with the intent to provide an opportunity for older persons to remain active and contributing members of their community. These funds continue the current level of service.

Funds are also provided for projects of a pilot or experimental nature in accord with the purposes and criteria laid down in Chapter 5 of Division 1 of the Welfare and Institutions Code. These projects are designed to be of use primarily to the community in which they take place.

1. In the public assistance programs, the State General Fund portion is $611,600 to which is added an estimated $1,788,400 federal public assistance funds.
2. In child welfare programs, such projects are financed entirely from federal funds to an estimated total of $343,086.

During the current year additional federal funds were available for day care projects; continuation is not anticipated.

	TOTAL EXPENDITURES *(General Fund)*	$5,321,178	$6,329,447	$7,096,309	$766,862
	LOCAL INSPECTION OF HOMES AND AGENCIES CARING FOR AGED AND CHILDREN				
	This program provides for the reimbursement of expenses incurred by counties and cities who may maintain approved services for the licensing and inspection of agencies for child care and home finding, and agencies for the care of the aged, in accordance with the provisions of Sections 1622 and 2302 of the Welfare and Institutions Code. This reimbursement is in the amount found necessary by the State Department of Social Welfare for proper and efficient administration, not to exceed $65 per year for each new or renewal license issued.				
	Inspection services—aged and children's homes	$1,486,884	$1,550,400	$1,620,045

	REIMBURSEMENTS TO COUNTIES FOR ADMINISTRATION AND COST OF CARE OF ADOPTIONS				
	County adoption agencies are licensed to accept relinquishments, make adoptive placements of children, and to investigate and report on petitions for adoption filed independently. These agencies are reimbursed for administrative costs pursuant to Section 1641 of the Welfare and Institutions Code. Fees received from adoptive parents (up to $300) are abated to the cost of administration. The cost of care for children committed to the State Department of Social Welfare or a public adoption agency pursuant to Section 226(c) of the Civil Code is reimbursed by the State.

GENERAL ANALYSIS

The Airport Assistance Fund was created by Chapter 2127, Statutes of 1961, which makes a continuing appropriation of $350,000 per year from the Motor Vehicle Fuel Fund. Fifteen thousand dollars of this amount is available for the support of the Division of Aeronautics, Department of Public Works, for the division's activities in connection with the administration of the fund. The balance, $35,000, is available for grants to cities, counties and airport districts for airport and aviation purposes. The Section 21682, Public Utilities Code, provides for a maximum grant of $2,500 for each airport, and conditions this grant on matching funds being provided for the same purposes by the local government. Any remaining balance in the fund may be expended in accordance with Section 21684 by making allocations to cities, counties and airport districts for the acquisition and developments of airports. Any unused portion of the $15,000 which is set aside each year for administration by Section 21681 of the Public Utilities Code is available in the succeeding year to increase the amount available for grants to local governments under Section 21682, et seq.

Grade Crossing Protection Works

TOTAL EXPENDITURES *(State Highway Fund)*	$4,327,853	$4,837,010	$5,232,977

GENERAL ANALYSIS

This program provides assistance to cities, counties, and cities and counties in paying their share of cost of constructing grade crossing protection works and railroad grade separation works on streets, roads, and highways on the basis of need as determined by the Public Utilities Commission.

PROJECT DETAIL

Allotments to cities and counties for grade crossing protection works	$212,728	$300,000	$232,977
Allotments to cities and counties for railroad grade separation works	4,115,125	4,537,010	5,000,000
TOTAL EXPENDITURES *(State Highway Fund)*	$4,327,853	$4,837,010	$5,232,977

Flood Control

SUMMARY

DEPARTMENT OF WATER RESOURCES			
Major federal-state flood control projects	$6,374,207	$11,030,618	$10,921,027
Small flood control projects	230,219	1,109,925	474,000
Watershed protection projects	962,734	3,247,218	6,238,800
Less amounts restricted to expenditure in 1965-66	–	–	—5,192,000
Totals, Department of Water Resources	$7,567,160	$15,387,761	$12,441,827
RECLAMATION BOARD	$6,890,573	$5,711,774	$10,438,114
TOTAL EXPENDITURES *(General Fund)*	$14,457,733	$21,099,535	$22,879,941

GENERAL ANALYSIS

The purpose of the program is to pay the cost of acquisition of rights-of-way and necessary relocations required by the construction of authorized federal flood control projects which have been adopted and approved by the Legislature. State financial participation is authorized to the extent and for the purposes outlined in Chapters 1, 2, 3 and 4 of Part 6, Division 6, of the Water Code.

Three major categories of projects are administered by the Department of Water Resources and a fourth is under the jurisdiction of the State Reclamation Board, as follows:

Major Federal-State Flood Control Projects—Department of Water Resources

Projects in this group are specifically authorized for financial assistance by the Legislature. Congressional approval and appropriations are required before state funds are made available by the Legislature. These projects are generally designed and constructed by the Corps of Engineers of the United States Army. Two exceptions are the Los Angeles River Watershed Project and the Santa Ynez River Watershed Project which were approved under the authority of the Secretary of Agriculture.

This reallocation schedule provides for the continuation of 9 currently authorized projects in the budget year, and 1 project in Alameda County requiring funds for the first time.

It is not expected that all work on projects proposed for 1964-65 will be completed during that year. In order to more accurately reflect the proper expenditure level for the budget year, $3,056,700 of the appropriation is limited to expenditure only during the 1965-66 fiscal year.

[a] Expenditures from bond funds not included in overall budget totals.
[b] A working revolving fund. Neither the revenue nor expenditures included in budget total.
[c] A nonrevenue fund. Neither receipts nor expenditures are included in overall budget totals.

Flood Control—Continued

GENERAL ANALYSIS—Continued

Small Flood Control Projects—Department of Water Resources

These projects are approved by the Chief of Engineers, United States Army Corps of Engineers, under the authority contained in Section 205 of the Flood Control Act of 1948, as amended. These acts provide for construction of small flood control projects not specifically authorized by Congress, provided that not more than $1,000,000 be allotted for the purpose in one single project. The Department of Water Resources, in its review of the project, is required to find that the benefits exceed the costs and that the project is the most economical plan considering all costs. (Section 12750.1 of the Water Code).

The reallocation schedule for fiscal year 1964-65 sets forth 6 projects involving state funds. Generally, the construction period does not exceed 1 year; however, due to land acquisition problems, the reimbursement program may involve 2 years or more.

Watershed Protection Projects—Department of Water Resources

These projects are authorized by the Department of Agriculture pursuant to Public Law 566, 83rd Congress, Second Session, as amended; entitled the Watershed Protection and Flood Prevention Act of 1954. State financial participation is authorized by "The California Watershed Protection and Flood Prevention Law," which also encompasses "pilot plant" or "experimental projects" authorized by Public Law 156, 83rd Congress, First Session, to be carried out pursuant to Public Law 46, 74th Congress. The act provides for the construction of works of improvement for the purposes of flood prevention and the agricultural phases of conservation, development, utilization, and disposal of water. In any watershed or subwatershed areas, the projects shall be limited to 250,000 acres and shall not include structures having a capacity of more than 5,000 acre-feet for flood prevention, or a capacity of more than 25,000 acre-feet for all purposes.

This reallocation schedule provides for the continuation of 10 currently authorized projects in the budget year.

It is not expected that all work on projects proposed for 1964-65 will be completed during that year. In order to more accurately reflect the proper expenditure level for the budget year, $2,135,300 of the appropriation is limited to expenditure only during the 1965-66 fiscal year.

Sacramento-San Joaquin River Drainage Basin Projects—Reclamation Board

Through the State Reclamation Board, the State co-operates with the Federal Government in the construction of flood control projects in the Sacramento-San Joaquin River drainage basin. The extent of state participation is determined by the several acts adopting and approving specific projects and for which appropriations to meet the State's cost are made as necessary. Generally such participation consists of the acquisition of rights-of-way, easements, flowage rights, and the cost of replacement or relocation of permanent improvements as necessitated by the construction of the flood control works, except that on the Sacramento River Bank Protection projects a contribution toward construction cost is required.

The 1964-65 fiscal year budget reflects the following program:

(1) Continuation of the Sacramento River Bank Protection Project.
(2) Activity on the Sacramento River Flood Control Project, including major and minor tributaries is being continued with a construction project scheduled for Steamboat Slough and many enclosed parcels under condemnation on the Chico, Mud and Sandy Project as well as possible inverse condemnation claims on Cherokee Canal and Cache Creek.
(3) The Lower San Joaquin River Flood Control Project is being continued with the contracts for the area between the Merced River and Friant Dam, the final portion of this state-constructed project, scheduled to be awarded in fiscal year 1964-65.
(4) The Corps of Engineers is scheduled to award 2 contracts on the San Joaquin River located between Walthall Slough and the Stanislaus River and between Stanislaus River and the Tuolumne River during fiscal year 1964-65.
(5) The Middle Creek Flood Control Project has 4 enclosed right-of-way parcels outstanding and under condemnation. These are scheduled for completion in the 1964-65 fiscal year.
(6) The Calaveras-Littlejohn (Bear Creek) Project is scheduled for completion in fiscal year 1964-65.
(7) The Sacramento River Flood Control Project, Chico Landing to Red Bluff has been completed with the exception of condemnation and possible claims action.
(8) The Mormon Slough Flood Control Project is a new project which will require project engineering during fiscal year 1964-65.

PROJECT DETAIL

GENERAL ANALYSIS

Beach erosion control in California is the responsibility of the Department of Water Resources as defined in Sections 330 to 339, inclusive, of the Water Code which provides for study of beach erosion problems, co-operation with all federal, state, and local agencies in planning and construction within the availability of funds. It is further provided that it is the policy of the State to bear one-half of the costs of local public agency participation required by authorized federal projects, including construction costs and costs of lands, easements, and rights-of-way. Advances by the State for the federal share of the cost of beach erosion control projects is permitted under Section 338 of the Water Code. Such advances are considered as loans and are returned to the State upon completion of a project or a severable portion of a project.

Advances for the federal share of each project were increased in 1963-64 to reflect provisions of Public Law 87-874, Rivers and Harbors Act of 1962. As interpreted, Public Law 87-874 increases the federal share of the construction costs of authorized projects on public lands from one-third to one-half by Section 103(a)(1). By the same law, Section 103(a)(2), the federal share of construction costs for projects within parks or conservation areas has been increased from one-third to 75 percent.

PROJECT DETAIL

San Diego County, La Jolla (Bird Rock):			
State's share	–	–	$17,000
Local share (San Diego County)	–	–	289,000

GENERAL ANALYSIS

The Division of Small Craft Harbors and the Small Craft Harbors Commission were created by Division 5.7 of Part 1, Public Resources Code. The powers of the division are exercised by the chief of the division acting under the supervision and direction of the Director of Parks and Recreation. The commission establishes the general policies. The division has as part of its mission the program of developing small craft harbors and maintaining or improving the waterways of the State. At the present time, the agency is functioning in the area of assistance to cities, counties, or harbor districts in the planning of small boat harbors and waterway development. The assistance may be in the form of engineering advice, surveys, and site inspection. During the final planning stages in which preliminary plans are developed into contract plans and specifications this assistance would take the form of planning loans and engineering consultation. The agency may also provide construction loans to those local jurisdictions that can properly qualify.

As a part of the long-range program, it is contemplated that the division will also construct harbor of refuge facilities as state development in areas where the need is great and where complete development of the project is beyond the financial capability of a local agency.

The Small Craft Harbors Commission has been authorized to make expenditures from any funds available from the of bonds authorized by the Harbor Development Bond La 1958. It is provided in this law that loans might be mad cities, cities and counties, counties, and districts having p to acquire, construct, and operate small craft harbors. W the bonds which are authorized by this law are general ob tion bonds, it was contemplated that they would be self-l dating.

By a recent amendment to the Public Resources Code, Small Craft Harbors Commission is empowered to make gr to cities, counties, or districts for the construction and dev ment of small craft launching facilities. A proposed prog for such grants in the current and budget years is include this budget.

Chapter 2102, Statutes of 1963 increased the transfe funds from the Motor Vehicle Fuel Fund to the Small C Harbor Revolving Fund from $750,000 to $2,000,000 annu In addition, Chapter 1724, Statutes of 1963 provided tha boat registration fees collected on or after July 1, 1964 wi to the Small Craft Harbor Revolving Fund instead of General Fund. As a result of the passage of this legisla boating facilities proposed for 1964-65 will be financed from Small Craft Harbor Revolving Fund.

FEASIBILITY AND PLANNING STUDY LOANS

Section 5827 of the Public Resources Code authorizes the Division of Small Craft Harbors to make planning loans to cities, counties, or districts having power to acquire, construct, and operate small craft harbors. Such loans as are made must be repaid within 10 years and repayment must include a charge estimated to equal the revenue which the State would have derived by investing the total deferred payment at interest rate prevailing for legal state investments.

The 1964-65 fiscal year proposes the continuation of the p ning loan program. It is estimated that approximately $50 in loan requests will be received by the commission in 1964

PROJECT DETAIL

CARLSBAD, San Diego County A loan to plan the development of boating facilities around Agua-Hedionda Bay with possible opening of Bay to ocean traffic.	–	$15,000	
SAN DIEGO, San Diego County It is contemplated that a feasibility study for berthing within the Mission Bay complex will be undertaken.	–	10,000	–
PORT SAN LUIS, San Luis Obispo County It is contemplated that Port San Luis will conduct a feasibility study based upon an earlier Corps of Engineers study for a complete marina including facilities for deep draft vessels.	–	10,000	
LAKE TAHOE, El Dorado County To plan the development of boating facilities on the south shore of Lake Tahoe and property controlled by El Dorado County.	–	8,000	
STATEWIDE For the budget year feasibility and planning loan funds to encourage and facilitate proper planning for boating facility development throughout the State of California is requested. It has been the experience of the division that approximately $50,000 each year is needed to properly carry out this function.	–	32,000	$50,000
PORT HUENEME, Ventura County Develop plans for harbor with berthing and launching facilities.	$10,000	–	–
Totals, Feasibility and Planning Study Loans *(Small Craft Harbor Revolving Fund)* [b]	$10,000	$75,000	$50,000

LAUNCHING FACILITIES GRANTS

Section 5865 of the Public Resources Code authorizes the Small Craft Harbors Commission to make grants from the Small Craft Harbor Revolving Fund to cities, counties, or districts for construction and development of small craft launching facilities. These grants are to be made in areas of greatest public recreational boating need and for projects which will not be constructed other than by such a grant or by other state agencies. It has been the experience of the division that the average launching facility unit costs approximately $50,000. The division is requesting a $300,000 budget authorization for 6 projects to be developed in accordance with the criteria and need set forth in the Boating Development Plan for the 1964-65 fiscal year.

PROJECT DETAIL

EAGLE LAKE, Lassen County The construction of a breakwater to protect the launching ramp.	–	$55,000	–
REDDING, Shasta County The construction of a launching ramp, sanitary facilities, parking area and safety devices for a launching facility on Lake Redding.	–	50,000	–
LUCERNE, Lake County Enlargement of the launching ramp and protective breakwater construction.	–	44,530	–
SAN DIEGO, San Diego County Enlargement, rehabilitation and modification of launching facilities around Mission Bay.	–	100,000	–
LAKE TAHOE AREA AND NORTHEASTERN COUNTIES The construction of a launching ramp, sanitary facilities and parking area on the south shore of Lake Tahoe or the same type of facilities in Siskiyou, Modoc, Shasta or Lassen County to help fill the void in water access throughout these counties.	–	–	$50,000
DELTA AREA The construction of a launching ramp, sanitary facilities and parking area on the Mokelumne, San Joaquin River area or for assistance in the same type of facility on new reservoirs under development in this area.	–	–	50,000
COLORADO RIVER AREA The construction of launching ramp, sanitary facilities and park area on the Colorado River between the Needles and Blythe area.	–	–	50,000
LOS ANGELES AREA The construction of launching ramp, sanitary facilities and parking area and water area near Metropolitan Los Angeles to assist in a shortage of water access in relation to the large number of boat ownerships in the Los Angeles area.	–	–	50,000
SAN DIEGO AREA The construction of launching ramp, sanitary facilities and parking area outside the Mission Bay complex.	–	–	50,000
STATEWIDE A request is made for funds to cover 1 launching facility project at a location to be determined by the Small Craft Harbors Commission in accordance with the needs shown in the Boating Development Plan.	–	470	50,000
Totals, Launching Facilities Grants *(Small Craft Harbor Revolving Fund)* [a]	–	$250,000	$300,000

SMALL CRAFT HARBOR CONSTRUCTION LOANS

Section 5827 of the Public Resources Code authorizes the Division of Small Craft Harbors to make construction loans to cities, counties, or districts having power to acquire, construct and operate small craft harbors. The division may loan money for acquisition, construction, improvement, maintenance or operation of small craft harbors and related facilities. In addition, the division may concern itself with connecting waterways. The division is charged with the responsibility of determining that a project is feasible. The commission functions as the policy body in establishing the policies and standards to be used in making loans.

A brief statement of the present policies and standards follows:

1. All planning shall have been completed and copies of such plans and reports submitted to the division for approval.

[a] A nonrevenue fund. Neither the revenue nor the expenditures are included in the budget totals.

Loans and Grants to Local Agencies for Small Crafts Harbors—Continued

SMALL CRAFT HARBOR CONSTRUCTION LOANS—Continued

2. The feasibility study shall indicate a favorable benefit-cost ratio.
3. All property to be used in connection with the project shall be owned or fully controlled by the requesting public agency; or an agreement-to-sell by the owner at a stated reasonable price shall be obtained prior to final approval of the loan.
4. A repayment and operating agreement approved by the governing body of the requesting public agency and the Small Craft Harbors Commission shall be entered into before funds are released.
5. If the loan does not cover the entire cost of the project, a financing plan shall be submitted indicating sources of construction funds other than the loan being applied for, and the proposed method of retiring the loan and meeting ot financial obligations of the project.
6. An operating plan shall be submitted indicating how harbor will be operated and maintained on completion construction.
7. Personnel of the division will inspect periodically the c struction area to check on progess and to discuss the w with the local agency's inspection staff.

The 1964-65 Budget contemplates construction loans harbors at Moss Landing, Santa Cruz, Vallejo, Dana Poi Port San Luis and Avalon. Also proposed is a statewide a cation for projects to be determined by the Small Craft H bors Commission.

PROJECT DETAIL [a]

AVALON, Los Angeles County	–	–	$250,000
Improvement of existing harbor and protective works. *Small Craft Harbor Revolving Fund* Total estimated project cost $3,000,000			
BLYTHE, Riverside County	–	$465,000	–
Launching ramp, berthing, camping facilities. Responsible agency, Riverside County. Total estimated project cost $500,000			
CRESCENT CITY, Del Norte County	—$7,000 [b]	40,000	–
Construction of berthing facilities for 25 boats and extension of existing wharves. Responsible agency, Crescent City Harbor District. Total estimated project cost $188,000			
DANA POINT, Orange County	–	–	250,000
Breakwater, dredging of harbor, 2,000 boat slips, pier, parking, administrative building, streets and walkways. *Small Craft Harbor Revolving Fund* Total estimated project cost $10,000,000			
MILL VALLEY, Marin County	70,000	230,000	–
Marina development at end of Sausalito Canal, dredging, launching facilities and 120 berths. Responsible agency, City of Mill Valley. Total estimated project cost $300,000			
MOSS LANDING, Santa Cruz County	–	–	500,000
One hundred forty-five berths, water transmission system, service buildings, public parking and access roads. Total estimated project cost $500,000			
PETALUMA, Sonoma County	–	397,000	–
Marina development. Responsible agency, City of Petaluma. Total estimated project cost $420,000			
PORT SAN LUIS, San Luis Obispo County	–	–	500,000
Six hundred moorings, dredging of harbor, 2,000-foot breakwater, and new bridge over San Luis Creek. *Small Craft Harbor Revolving Fund* Total estimated project cost $8,000,000			
SAN FRANCISCO, San Francisco County	–	1,500,000	–
Breakwater, berthing for 669 boats, parking area, paving. Responsible agency, City and County of San Francisco. Total estimated project cost $2,000,000			
SAN LEANDRO, NO. 2, Alameda County	215,000	–	–
Construction of breakwater, 378 berths and dredging. Responsible agency, City of San Leandro. Total estimated project cost $2,010,000			

[a] From Small Craft Harbor Bond Fund unless otherwise indicated.
[b] Return of funds shown as loan in prior year.

OTHER HARBOR PROJECTS			
The Budget Session of 1962 allocated $325,000 for the Division of Small Craft Harbors in co-operation with the Federal Government for the construction of a harbor of refuge at Noyo. This construction is to be carried on with the Noyo Harbor District acting as principal. Inasmuch as a complete harbor development cannot be carried on without federal funds, the $325,000 shown for the 1963-64 fiscal year cannot be expended until the federal funds are available.			
Noyo Harbor, Noyo Harbor District *(Small Craft Harbor Revolving Fund)* [b] Construction of a harbor of refuge at Noyo Harbor in Mendocino County.	–	$325,000	–
The Budget Session of 1963 allocated $1,800,000 from the Small Craft Harbor Revolving Fund to the Division of Small Craft Harbors for expenditure by the division for the purpose of making a loan to the City of Berkeley, pursuant to the Small Craft Harbors Law (Division 5.7, commencing with Section 5801, of the Public Resources Code) for the acquisition, construction, development and improvement of a small craft harbor. The major part of the funds will be expended during the 1964-65 fiscal year and the balance in 1965-66.			
City of Berkeley *(Small Craft Harbor Revolving Fund)* [b] Construction of a small craft harbor including berthage, launching facilities, breakwater, shoreside buildings, landscaping, roadways and parking necessary in a full-scale marine design to accommodate approximately 400 boats.	–	–	$1,000,000

HARBOR OF REFUGE CONSTRUCTION LOANS

Section 5823.5 of the Public Resources Code authorizes the Division of Small Craft Harbors to conduct or contract for planning, acquisition, construction, development and improvement of any portion of coastal small craft harbors which normally are nonrevenue producing and will result in the maximum protection for small craft with a minimum of facilities. Any such harbor shall be turned over to a county, city, or district having the power to operate a small craft harbor upon the request of such county, city, or district, if such county, city, or district enters into an agreement with the division for repayment to the State of all costs incurred by the division in acquiring and developing such small craft harbor, including planning costs. No such harbor shall be constructed until an agreement for transfer has been entered into. The agreement for the turnover may provide that the State at any time following the completion of the harbor may require the county, city, or district in control to make repayment for said state expenditure for the harbor, when and if said harbor produces a revenue. Moneys for this program are to be from the Small Craft Harbor Revolving Fund and the program is to be conducted in co-operation with the existing Federal Government program for small craft harbor development along the coastline of California.

[a] Expenditures from bond funds not included in overall budget totals.
[b] A nonrevenue fund. Neither the revenues nor the expenditures are included in the budget totals.

GENERAL ANALYSIS

State bond sale proceeds are available as provided in the Harbor Development Bond Law of 1958. It is provided in this law that loans might be made to cities, cities and counties, counties, and districts having power to acquire, construct, and operate small craft harbors. While the bonds which are authorized by this law are general obligation bonds, it was contemplated that the bonds would be self-liquidating.

Grants to Soil Conservation Districts			
TOTAL EXPENDITURES *(General Fund)*	$99,701	$100,000	$100,000

GENERAL ANALYSIS

Section 9063.1 of the Public Resources Code authorizes the State Soil Conservation Commission to make grants within appropriated funds to soil conservation districts, organized pursuant to Division 9 of the Public Resources Code, to assist such districts in carrying out any work they are authorized to undertake whenever the commission determines that such work is necessary for the welfare of the people of the State.

The projects must advance the conservation, use and management of soil and water resources on croplands, forests, range and watershed lands within soil conservation districts.

Projects consist of channel realignment and lining, riprap of stream banks, construction of drainage facilities, miscellaneous other construction and planting projects, preliminary planning prior to actual construction of projects, feasibility studies of projects, demonstrations to illustrate proper soil conservation methods and techniques, testing of various types of grasses and legumes to prevent soil erosion and spraying to remove objectionable growths.

Salaries of Superior Court Judges

TOTAL EXPENDITURES *(General Fund)*	$3,908,620	$4,063,783	$4,103,900	$40,117 (9.9%

GENERAL ANALYSIS

Under the provisions of Section 68206 of the Government Code, the State contributes toward the salary of each judge of the superior courts in accordance with the population of the county as determined by Section 68207 of the Government Code.

The amount budgeted is to provide the State's share of salaries of the 346 judges in 1963-64 and 347 judges in 1964-65 authorized by existing law. This represents an increase of 11 judges in 1963-64 and 12 in 1964-65 as the result of 1963 legislation. The increased number of judges was not anticipated in the 1963-64 Budget; therefore, an allocation from the Emergency Fund in the amount of $101,783 will be necessary in 1963-64 to finance the State's share of the new judges' salaries.

The following statement shows the contribution by the Sta and by the county toward the salary of each judge as provid under Section 68202 of the Government Code:

Population of county	*State share*	*County share*	*Tota salar*
250,000 or more	$11,500	$9,500	$21,0
100,000 or more but less than 250,000	13,500	7,500	21,0
More than 40,000 but less than 100,000	11,400	7,500	18,9
40,000 or less	13,400	5,500	18,9

Contributions to Judges' Retirement Fund				
TOTAL EXPENDITURES *(General Fund)*	$455,080	$476,763	$480,396	

GENERAL ANALYSIS

Under the provisions of Section 75101 of the Government Code, the State contributes to the Judges' Retirement Fund an amount equal to 4 percent of the salary for each of the established judgeships of the superior and municipal courts. Provision is made for contributions relating to 346 superior court judgeships in 1963-64 and 347 in 1964-65 and 257 judges of the municipal courts in 1963-64 and 258 in 1964-65. One additional municipal court authorized by law for the Lodi Judicial District, San Joaquin County has not been included in expenditure estimates since certification under the conditions of Government Code Section 71043 as prescribed by Section 73486 has not yet been accomplished. The increase of 11 superior court judgeships in 1963-64 and 12 in 1964-65 and the 17 municipal judges in 1963-64 and 18 in 1964-65 are the result of 1963 legislation.

Legislation will be proposed at the 1964 session to increase salaries of judges and the retirement contribution rate for both members and state. The increased cost is included in the Provision for Salary Increases.

Continuing appropriation prescribed by Section 75101 of the Government Code (Expenditures)	$455,080	$476,763	$480,396

County Veterans Service Officers			
TOTAL EXPENDITURES *(General Fund)*	$499,990	$500,000	$500,000

GENERAL ANALYSIS

Pursuant to Sections 970-973 of the Military and Veterans Code, the State may reimburse the counties for part of the cost of county services maintained for assistance to veterans and the dependents of deceased veterans in presenting and pursuing such claims as the veterans may have against the United States arising out of war service and in establishing the veteran's right to any privilege, preference, care or compensation provided for by the laws of the United States or of this State.

The amount paid each county, conditioned upon the observance of certain standards and regulations, is determined by the California Veterans' Board except that the payment toward the salary of the county service officer shall not exceed $75 per month. Payments are also made for partial cost of assistants' salaries and operating expenses.

The 1964-65 Budget continues the same level of State expenditures as authorized for 1963-64.

	Assistance to Cities and Counties for Peace Officers' Standards and Training				
	TOTAL EXPENDITURES *(Peace Officers' Training Fund)*	$669,168	$470,000	$781,160	$311,160

GENERAL ANALYSIS

In accordance with the provisions of Chapter 1823, Statutes of 1959, allocations of moneys collected from a 5 percent assessment on criminal fines will be made to those cities and counties which adhere to standards for recruitment and training established by the Commission on Peace Officers' Standards and Training. State participation is restricted to an amount, not to exceed 50 percent of salaries and wages, and expenses of those officers meeting the standards and participating in training, and is contingent upon the amounts available in the Peace Officers' Training Fund.

Section 13521 of the Penal Code was amended by Chapter 1621, Statutes of 1963, to increase the penalty assessment to 10 percent. The additional funds will be used to increase the number of hours of training from 160 to 200 hours for the basic recruitment course and to set up an 80-hour course f supervisory personnel effective January 1, 1964.

There are currently 440 jurisdictions identified as havi law enforcement orgauizations subject to enforcement standar zation. At the end of fiscal year 1962-63 there were 314 jur dictions eligible for state assistance. From fiscal year 1959- through fiscal year 1962-63 approximately 4,161 peace office had been trained under this program. During 1963-64 it estimated that 1,970 officers will participate in the basic r cruit course and in 1964-65 about 2,075 will participate. Supe visory courses are expected to begin January 1, 1964, a approximately 200 will participate by June 30, 1964, and a proximately 450 during 1964-65.

The support expenditures and fund statement are shown the state operations section of the budget.

	Assistance to Counties for Construction of Jails		
TOTAL LOANS *(School Land Fund)* [b]	$335,345	–	–

GENERAL ANALYSIS

Financial assistance to counties for the construction of jails can be provided under the Local Agency Allocation Law, State Allocation Board, from funds in the State School Land Fund not dedicated to the support of public schools.

Under this program moneys can be made available only if the county does not have a jail meeting minimum standards for jail construction promulgated by the Board of Corrections and the financial resources of the county are such as to warrant state assistance.

If funds are allocated to a county, the Controller transfer to the School Land Fund each payment due to the county unde Section 25761 of the Business and Professions Code, until ther has been deducted an amount equal to the allocation for con struction together with interest not to exceed 3½ percent an nually.

No expenditures are anticipated for this purpose in the budge year.

	California Water Fund	604,150	5,724,375	–
	Totals	$963,456	$5,707,280	—$17,095

GENERAL ANALYSIS

FLOOD RELIEF LAW OF 1956: Chapter 9, Statutes of 1956 (First Extraordinary Session) appropriated $24,900,000; $14,500,000 from the General Fund and $10,400,000 from the State Lands Act Fund. The amount appropriated from the General Fund was subject to allocation by the State Public Works Board to provide assistance to local agencies, including any city, city and county, county, or public district, for repair and restoration of public property damaged or destroyed by storm and flood during the months of December 1955 and January and February 1956. The amount appropriated from the State Lands Act Fund was for loans to local agencies for the completion of any of the repair projects for which the agencies were unable to meet their share of the cost. The 1957 Legislature appropriated an additional $1,200,000 from the General Fund to complete the financing of the program and the 1958 Legislature extended the availability of the appropriation until June 30, 1960. To date the General Fund appropriation has been encumbered to the extent of $14,406,559 and the balance of $1,293,441 has reverted in accordance with Section 16409.1 of the Government Code. The State Lands Act Fund has been encumbered to the extent of $190,863 and the balance of $10,209,137 has reverted. Chapter 2039, Statutes of 1961, appropriated an additional $40,000 from the General Fund to complete the financing of one delayed project in the City of Santa Cruz under the program inasmuch as the appropriation under Chapter 9 was no longer available for the purpose. A total of $29,845 was encumbered for this project and the balance of $10,155 has reverted.

FLOOD RELIEF FOR 1958, 1960, 1962 AND 1963: Item 446.7, Budget Act of 1958, appropriated $15,000,000 from the California Water Fund to provide financial assistance to local agencies for the repair and restoration of public real property damaged by storm or flood during the period between January 1, 1958 and July 1, 1958. The 1959 Legislature extended the availability of the appropriation to June 30, 1960 and the 1960 Legislature further extended the appropriation without regard to fiscal years and made it available to provide financial assistance to local agencies to repair storm damage occurring between January 1, 1960 and July 1, 1960, as well as to complete the 1958 program. In 1961 the Legislature further amended the legislation to make the appropriation available to provide financial assistance to local agencies to repair storm damage occurring between November 1, 1961 and July 1, 1962. The 1963 Legislature further extended the appropriation to provide similar financial assistance to local agencies for repair of storm damage occurring between October 1, 1962 and July 1, 1963. Chapter 572 of 1963 allocated $1,020,000 of the funds to the Department of Water Resources for the repair and restoration of the Daguerre Point Debris Dam. Chapter 8 of the 1963 1st Extraordinary Session augmented the appropriation made by Item 446.7, Budget Act of 1958, in the amount of $800,000 from the General Fund to finance the repairs. This appropriation was based on a more detailed estimate of cost. To date, commitments incurred or to be incurred are estimated at $6,110,000 for the 1958 repair program, $1,640,000 for the 1960 program, and $1,502,000 for the 1962 program, and $5,528,000 for the 1963 program, which amounts are estimated to be sufficient to complete the programs. With the completion of the current assistance program it is expected that the appropriated funds will be fully expended.

Item 446.8, Budget Act of 1958, appropriated $1,000,000 from the California Water Fund to provide funds for work and remedial measures required to immediately avert, alleviate, repair or restore damage or destruction to property having a general public and state interest and to protect the health, safety, convenience, and welfare of the general public of the State. These funds were designed to provide working capital for repair, restoration and maintenance of flood control structures during periods of flood emergency. No withdrawals have been made from this fund which is available without regard to fiscal years.

GENERAL ANALYSIS

This program provides for federal assistance to state and local governments in solving planning problems resulting from the increasing concentration of population in metropolitan and urban areas. The grants are designed to facilitate comprehensive planning for urban development on a continuing basis by such governments, and to encourage the establishment and improvement of adequate planning staffs.

Federal grants made under this program generally represent two-thirds of the estimated cost of the work for which the grant is made. The balance of the cost is borne by the local communities.

The initial application for assistance is made to the State Office of Planning, which in turn applies to the Federal Government for the grant on behalf of local jurisdictions. Upon approval of the program by the Federal Government, the State Office of Planning enters into a contract for the planning grant. The State then enters into contracts with the city (or county) and its chosen planning consultant for completion of the approved planning program.

CLASSIFICATION OF FUNDS IN THE STATE TREASURY

The budget totals of revenues and expenditures reflect the activities of many separate funds. See Schedule 5 for complete list of these funds. They are segregated into the following classifications:

GENERAL FUND—Consists of money received into the State Treasury not required by law to be credited to any other fund, to be used for general purposes of State Government.

SPECIAL FUNDS—Funds created to receive certain revenues or to finance particular activities which are for general purposes of State Government or are for activities subject to the regulatory or police powers of the State.

OTHER FUNDS—See Schedule 5 for list of funds which are not included in the budget totals. They consist of moneys which were derived from sources other than general or special taxes, licenses, fees or other state revenues. There are receipts from the Federal Government, funds created for accounting purposes, receipts from sale of lands, or moneys held in trust. Funds not included in the budget totals are segregated into the following classifications:

Working Capital and Revolving Funds—Funds created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget at the agency receiving the commodity or service.

Public Service Enterprise Funds—Activities operated under state control for the benefit of the public. Funds are derived from charges to those who use the service and no support is derived from taxes, licenses or other state revenues. These functions are not subject to the regulatory or police powers of the State.

Bond Funds—To hold proceeds from the sale of bonds and to finance projects for which the bonds were authorized. The Legislature may create the General Obligation Bond Proceeds Fund into which the proceeds from the sale of all bonds may be deposited. The cost to the State is charged at the time interest payments are made and when the bonds are redeemed. (See Treasury Funds for which no detailed transactions are reported in the budget.)

Retirement Funds—Moneys held in trust by the State for retirement benefit payments.

Debt Service Funds—Moneys held by the State to be used for payment of interest or for redemption of bonds.

Trust and Agency Funds—Funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their sources from taxes or other state revenues, or are in the nature of transitory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

TREASURY FUNDS FOR WHICH NO DETAILED TRANSACTIONS ARE REPORTED IN THE BUDGET

Ballot Paper Revolving Fund: The fund is used by the Secretary of State to purchase paper for sale to counties and municipalities for their use for election ballots.

Old Age and Survivors Insurance Revolving Fund: The fund is used by the State Employees' Retirement System to clear employer and employee contributions under the Federal Old Age and Survivors Insurance Program from public agencies included in the agreement between the State and the Federal Government.

Opportunity Work Centers Revolving Fund: Provides for purchase and rental of equipment for Blind Centers.

State Payroll Revolving Fund: The fund is used by the State Controller for payment of salaries through the Central Payroll System.

Welfare Advance Fund: The fund is used for disbursements to counties of state and federal shares of social welfare public assistance programs.

India Basin Sinking Fund: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Fund No. 1: Receives money from the proceeds of bond sales to be used for the construction of wharves, piers, seawall, and other improvements in San Francisco Harbor.

San Francisco Seawall Fund No. 5: Receives money from the proceeds of bond sales to be used for the construction of wharves, piers, seawall, and other improvements in San Francisco Harbor.

San Francisco Seawall Sinking Fund No. 2: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Sinking Fund No. 3: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

San Francisco Seawall Sinking Fund No. 4: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of the San Francisco Harbor Bonds.

Toll Bridge Authority Revolving Fund: A permanent revolving fund to pay expenses incurred by the California Toll Bridge Authority in the administration of the Toll Bridge Authority Act.

California Heritage Preservation Fund: The fund was established by Chapter 1938, Statutes of 1963, to receive donations, gifts and grants from any source to provide for the restoration, preservation and display of the historical documents of the State on deposit with the Secretary of State.

Condemnation Deposits Fund: Contains deposits held in trust pending settlement of court cases in condemnation proceedings.

School Land Fund: A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

Special Deposit Fund: Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

State Park Contingent Fund: Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions, or administration of the state park system. The amounts received are disbursed in accordance with the provisions of the donations.

Surplus Money Investment Fund: Excess money in those funds which do not have other provision for investment may be transferred to this fund, the pooled resources are invested and the interest earned is prorated to the contributing funds.

Tax-deeded Land Rental Trust Fund: Receipts are derived from leases made by the State Controller covering property deeded to the State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

Treasury Trust Deposits: Provides for the State Treasurer's Central Banking System.

Unclaimed Property Fund: This fund accounts for all unclaimed moneys held by the State.

	Personnel man-years	946.9	1,121.3	1,385.3	264

GENERAL ANALYSIS

Objectives

The Department of General Services provides a variety of services to State agencies. Those services which are to be wholly borne by the using agency are operated through the Service Revolving Fund which permits the spreading of costs of capital improvements over more than one year through business accounting methods of charging depreciation and all other costs to a function.

The services are: the operation of an automotive pool; the operation of two airplanes for general state use; the purchase and distribution to State agencies of office supplies and other common items used by State agencies; printing of textbooks and documents; reproduction by multilith and mimeograph processes; engineering, maintenance, and modification of radio microwave services, repair of office machines and data processing for departmental needs. (Data processing is included in the 1964-65 Department of General Service Support Budget for legislative review.) An additional data processing equipment rental program is proposed.

Program and Performance

The services performed are financed by charges to the using agency. Financing from the General Fund is used to provide equipment, inventory of materials and supplies and subsequent additions which are necessary for the operation of the various functions.

Operations for the budget year will require a net augmentation of $1,330,093. This sum is net after offsetting depreciation on all functions as well as any estimated surplus.

It has been determined that an augmentation of $648,421 is required for the 1963-64 fiscal year which is $437,747 less than the amount appropriated. An improved data processing system has been put into operation which will speedup the billings for printing.

The following general service areas are to operate during 1964-65:

Central Stores
Data Processing Equipment Rental
Data Processing Section
Documents Section
Office Machine Repair
Office of State Printing
Radio Maintenance
Rented Buildings
Reproduction Section
Transportation Services.

It is proposed to transfer the telephone services function during 1965-66 from the Support Budget to the Service Revolving Fund.

CENTRAL STORES

Warehouses are operated in Sacramento, San Francisco and Los Angeles. These carry a stock of general office supplies and other items which state agencies require and through group purchasing can be supplied at less cost than by agencies purchasing the item. The functions of the Documents Section formerly operated as a part of the Office of State Printing are now more closely co-ordinated with those of the stores operation.

The stores function will require an augmentation of $27,725 during the budget year because operating expenses will exceed sales. This function has accumulated a surplus of $145,028.

DATA PROCESSING EQUIPMENT RENTAL

An augmentation of $224,451 is proposed in this budget for the purchase of $332,891 worth of selected basic data processing equipment. This equipment will be rented to state agencies. It is proposed to buy only machines currently being leased. Service will continue to be provided by contract. This program is based on the economics of the purchase of this type of equipment. It is estimated that the investment will be recovered in 4 years.

DATA PROCESSING SECTION

This function performs data processing services for the Department of General Services and Service Revolving Fund activities. This function was transferred from the Department of Finance effective July 1, 1963. Six of 8 positions deleted by the 1963 Legislature were administratively established to perform workload assigned to this function. This activity is shown as a reimbursed support activity in the budget year for the purpose of legislative budget review. It is intended to transfer this function to the Service Revolving Fund in the future.

DOCUMENTS

This function sells state documents and distributes material required under the Library Distribution Act. An augmentation in the amount of $3,076 is requested for equipment purchases.

OFFICE MACHINE REPAIR

This unit is equipped to service state-owned typewriters, adding machines and calculators. Operations are carried on in Sacramento, Los Angeles, and San Francisco. The Los Angeles and San Francisco units started operating during the current year.

The income of this operation will exceed expense by $2,000 which will offset other augmentation requests contained in this budget.

OFFICE OF STATE PRINTING

This office produces the printing for state agencies and the Legislature, manufactures textbooks, and operates the Legislative Bill Room.

This budget includes $535,879 for additional and replacement equipment. A request is included for purchase of an offset press costing $175,800, to supply the needs of the state agencies. While added capacity to meet increased demand is the chief reason for the addition of this equipment, considerable savings will be realized in those instances where it is necessary to run sheets through a single color press twice. This savings will amount to $10 per operating hour and will average 600 hours per month to total $6,000 per month. On this basis alone the investment will repay itself in less than 3 years.

The purchase of a 2-color web offset press at an estimated cost of $300,000 was authorized in the 1963-64 Budget Act. At the time this press was being ordered, studies showed that immediate conversion to a 4-color machine would result in greater savings to the State. Additional funds amounting to about $45,000 were obtained from savings and postponements on equipment purchases. Originally, the 2-color press was to be used for long run agency work, such as voters' pamphlets, and income tax forms. Savings of $70,000 were projected. However, arithmetic texts adopted for the elementary schools include books that can be produced on the 4-color press at annual savings of $140,000.

Fifteen salaried positions are included as proposed new in this budget. Four layout men and 2 estimators are proposed to meet current workload and will release trade rate employees to perform printing operations. One production control man and 1 expediter will insure more efficient use of men and machines in the plant and avoid undue delays by improved work schedules. An accountant is proposed for maintenance of cost accounting. This position will replace services formerly provided by contract. A stenographer is proposed for the State Printer's office. A clerk is proposed to perform the personnel work necessary for the estimated increase in plant personnel. Three typists are proposed to assist the estimator, layout men and production control and 1 typist will maintain the standing type file.

Department of General Services

SERVICE REVOLVING FUND—Continued

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS—Continued

Program and Performance—Continued

RADIO MAINTENANCE

This function provides engineering, maintenance, and modification of communication equipment used by state agencies having radio and microwave equipment. To perform this service, the unit operates 42 maintenance shops at various locations throughout the State.

Eleven technicians for planning, engineering, installation, modification, and maintenance are necessary to accomplish the workload required by the equipment budgeted by the using state agencies. Agency budgets requiring service totaled $1,280,000 in 1963-64. The unit has a backlog of engineering work of approximately 11,000 hours and the new proposed projects are equivalent to 13,000 additional hours.

An augmentation of $178,548 is requested to finance additional equipment and replacement equipment to service the units.

RENTED BUILDINGS

The Department of General Services leases a building in Santa Ana and Sacramento which is sublet to state agencies.

REPRODUCTION SERVICES

This section provides duplicating services to state agencies in Sacramento. During the past year a unit was established in Office Building No. 1 to serve agencies in this building and in the Mull Building. A unit is proposed to be established and in Retirement Building to serve the tenant agencies. Agreement with state agencies in San Francisco has been reached for the establishment of a unit to serve state agencies there. It is proposed to also establish a similar service in Los Angeles. An augmentation in the amount of $143,280 is requested for equipment to establish reproduction service in the Sacramento Retirement Building, San Francisco and Los Angeles.

TELEPHONE SERVICES

Telephone services represent the central switchboards operated by the Department in Sacramento, Oakland, San Francisco, Los Angeles, Fresno, and San Diego.

This budget is shown in the Department of General Services support budget in 1964-65 but will be transferred to the Service Revolving Fund.

TRANSPORTATION SERVICES

The transportation services provide efficient use of state automobiles. Pool cars are available at 6 garages and 5 airports. A garage will be put into operation in San Diego which will provide automobile service, repair and storage.

This budget provides 132 additional automobiles for an estimated 5 percent increase in auto mileage use during the budget year. In addition 413 automobiles are scheduled for replacement during the budget year based upon a 100,000 mile use expectancy. Sixty-six more cars will be replaced which will not have reached 100,000 miles. It is proposed to revise the existing fleet replacement policy to allow replacement of vehicles at any time regardless of age or mileage when it is determined to be economical to do so. The 66 automobiles proposed represent 10 percent of the fleet over 70,000 miles which are expected to incur unusually high maintenance expense.

	1962-63	1963-64	1964-65
Cars on hand, July 1	2,494	2,535	2,634
Purchase of cars	424	494	611
Sale of cars	383	395	479
Cars available June 30	2,535	2,634	2,766
Mileage	37,491,873	39,366,000	41,334,000
Average mileage per car	14,904	14,945	14,944

The unit also provides repair service and inspection of state motor vehicles. Proposed new positions include: 4 for Los Angeles, 1 mechanic for San Francisco, and 4 positions to operate the new San Diego facility.

Two state airplanes are operated by this unit. The 19-passenger Convair purchased this year, and a 6-passenger twin-engine Beechcraft. It is proposed that 2 positions be added for this function—a pilot and a clerk. The pilot would be available for operation of the aircraft and the clerk for necessary scheduling and clerical functions.

The Beechcraft, in order to meet standards for use, requires overhaul and modification and $50,000 is requested for this purpose.

GENERAL ANALYSIS

Objectives

The functions of this office have been transferred from the Department of Public Works to the Department of General Services under provisions of Chapter 1786, Statutes of 1963.

The assignment of this office is to plan, design, and supervise construction of state building projects. It is the central architectural and engineering service for the State Government. In addition, it approves for safety the plans and construction of all public school building projects.

By law, this office serves as clients: all state departments and agencies except the University of California, the San Francisco Port Authority, the Department of Water Resources and (since July 1, 1961) the California State Colleges. The Trustees of the California State Colleges have, however, entered into an agreement with this office by which a major part of the architectural services for the colleges will be obtained.

In addition, a variety of related services are provided, such as architectural and master planning consulting services at 4 state college campuses and at all state institutions; surveys of potential sites and preparation of site suitability reports; all phases of construction contract administration; minor construction; repair and alteration projects; and special architectural and engineering investigations.

General Process—Construction projects, in written program form, originate in the several state agencies and are submitted to Department of Finance for consideration for inclusion in the Capital Outlay budget. After approval by the Department of Finance each project is then transmitted to this office where preliminary plans, outline specifications and estimates of cost are prepared for the proposed major and minor construction projects. These documents form the basis for a request to the Legislature for appropriation and project authorization.

Upon passage of the Budget Bill by the Legislature, and its signature by the Governor, and after specific authorization by the State Public Works Board, working drawings and specifications and final construction estimates of cost are prepared and the project advertised for construction bids. Award of contract to the successful bidder, pursuant to the requirements of the State Contract Act, initiates the final phase of responsibility.

Where the Director of General Services determines that the obtainable staff is unable to perform the particular work within the time required by public interest, with approval by the Department of Finance and the State Personnel Board, he may contract with qualified architects and engineers for the performance of the work (Section 14101, Government Code).

The capital outlay program estimates were the best available at the time of budget preparation. However, to the extent that the amount of actual authorized building projects assigned to this office may vary above or below estimates, the funds available are increased or decreased accordingly.

The Architecture Revolving Fund Budget is presented in three major programs: Preliminary planning; contract working drawings; and supervision of construction. Management and general administration costs are distributed to these three programs.

Preliminary Planning—The preparation of plans and specifications and estimates of cost form the basis for requests to the Legislature for appropriations in the capital outlay section of the budget.

Preliminary planning also includes preparation of preliminary plans, specifications, and estimates for projects financed under continuing appropriations rather than annual authorizations on the Budget Act.

Additionally, this program includes such special projects as architectural consulting and master planning services and a large volume of surveys, reports, and recommendations on suitability and feasibility of sites and other studies.

Contract Working Drawings—The preparation of drawings, specifications and estimates of cost for advertising and contracting by the division and also the preparation of similar documents for advertising and contracting by other agencies, such as the Federal Government, Division of Beaches and Parks.

Supervision of Construction—Continuous, full-time inspection of projects under construction to insure conformity with plans and specifications.

1964-65 Architecture Revolving Fund Program

On the basis of revised program and increased efficiency, this office has reduced its estimate of positions required for the current year by 30.6 positions previously budgeted and approved. The reduction is carried through in the 1964-65 budget request.

Evaluation of the 1964-65 program is made on 3 separate portions of the total program in which this office is actively participating, all within a single budget year. During any particular year the division is actively preparing: (1) preliminary planning for projects to be included in the budget in the succeeding year; (2) contract drawings and documents for projects previously approved by the Legislature, the funds for which became available during the current year; and (3) supervising construction of projects approved in both preceding and current years.

An additional reduction of 5.7 positions is made in the budget year. One clerical position and one technical position were added administratively in the current and are proposed in the budget year to provide staff for added workload in administration and building inspection.

[a] Architecture Public Building Fund Budget (Schoolhouse Section of Office of Architecture and Construction) is shown in the State Operations Budget.

ADMINISTRATION

PROGRAM SUMMARY

A pro rata share of the management and general administration expense of divisional activities, including operating expenses, is distributed to each of the 3 major programs. Included in this area are the executive positions of the State Architect and the deputy chiefs in the fields of administrative and technical services: the Project Management Service, responsible for authoring projects, co-ordinating requirements and solutions with client agencies and the Department of Financ scheduling and timing the projects according to statewide pr ority; and support personnel in the fields of administratio office services, accounting, contracts, personnel functions, secr tarial services, public relations, management analysis, trainin safety, and central files.

PROGRAM EXPENDITURE DETAIL

Prorated to preliminary planning	*(158,328)*	*(172,807)*	*(166,586)*
Prorated to contract working drawings	*(1,029,016)*	*(1,137,472)*	*(1,115,247)*
Prorated to supervision of construction	*(395,781)*	*(431,974)*	*(416,423)*

PRELIMINARY PLANNING

PROGRAM SUMMARY

A. *Preliminary Planning*

Preliminary planning is the initial phase of the program involving participation in a project by this office. After the basic needs of a state agency are presented in a written program and approved by the Department of Finance, the division proceeds with architectural and engineering studies based on the approved criteria. During the course of the initial planning, and upon completion of the preliminary plans, meetings are held with the client agencies and Department of Finance to obtain approval of the preliminary plans and specifications.

The ultimate product in the preliminary planning program is a package consisting of preliminary plans, outline specifications and estimates of cost for the proposed project.

This package, signed by authorized representatives of the using agency, is transmitted to the Budget Division, Department of Finance, for incorporation in the Capital Outlay portion of the budget. It is the defined scope of the project which will be the basis of the contract drawings if the project is funded by the Legislature.

In the current fiscal year this office is preparing preliminary plans, outline specifications and budget estimates, based on requests from the Department of Finance and from the Trustees of the California State Colleges for projects thus far valued at $70,986,000. This amount is not static but increases as new requests are received from the Department of Finance and special fund agencies. These are the projects which may, or may not, be included in the budget for funding in the 1964-65 fiscal year. This office is also currently updating preliminary plan on projects valued at $35,540,000 already approved by th Legislature in the past session before proceeding with workin drawings.

The workload in the preliminary planning phase for th budget year cannot be predicted at this time. Using the repo to the Joint Legislative Budget Committee titled "State Buil ing Construction Programs, July 1, 1962-June 30, 1967," pr pared by the Department of Finance, as a general guide, an adding projects prepared for budget submission for previou years and not yet funded, the preliminary planning workloa for the budget year is projected at roughly $100,670,000. How ever, it is at the discretion of the Trustees of the Californi State Colleges as to what portion of the state college prelimi ary plans (nearly half of the total) will be assigned durin 1964-65. For budget forecast purposes, a continuation for 196 65 of about the same level of basic preliminary planning wor from all sources, including state college, work is assumed.

B. *Special Projects*

A large portion of the preliminary planning program is in volved in the preparation of reports and recommendations fo site suitability and condemnation through physical inspection research, and engineering surveys. Billing for division service is made directly to the requesting agencies. It is anticipate that the demand for this type of work will increase by approxi mately $50,000 in the budget year.

PROGRAM EXPENDITURE DETAIL

Total volume of preliminary planning	$906,145	$952,551	$952,320
Preliminary planning, General Fund Departments	242,297	295,721	263,000
Preliminary planning for State Colleges	241,232	247,222	232,000
Departmental authorizations from construction appropriations	48,991	48,498	45,463
Special projects and preliminary planning for special fund departments	(373,625)	(361,110)	(411,857)

WORKING DRAWINGS

PROGRAM SUMMARY

That portion of the total program devoted to the preparation of contract documents, including construction drawings, specifications and estimates of cost, is defined as the Working Drawing Program. The extent of such documents is indicated by Section 14270, Government Code, a portion of the State Contract Act.

Working drawings are initiated only upon specific authority as indicated by the appropriation in the Budget Bill and specifically authorized by subsequent action of the State Public Works Board. Work in this phase involves responsibilities by the technical units of architectural design; architectural drafting; landscape architecture; mechanical, electrical, structural, civil and sanitary engineering; specification writing; and cost estimating.

Construction working drawings are prepared for segregate bidding whenever the contract cost is in excess of $300,000 an when several major groupings of work, such as general, me chanical, electrical, etc., are clearly indicated. Bids are als invited on a combined basis on these projects. Although som added cost is involved in preparing plans for segregated bidding such bidding results in lower total construction costs, fre quently amounting to as much as 5 percent below the combine bid.

Also included in the Working Drawing Program is the neces sary work that must be performed after award of the contrac in the area of checking shop drawings submitted by contractors reviewing and taking action on submittal of materials for ap proval; field inspections to co-ordinate intent of drawings wit

WORKING DRAWINGS—Continued

PROGRAM SUMMARY—Continued

construction progress; issuance of change orders; interpreting and clarifying intent of documents; negotiating and resolving quotations from contractors of change ordered items.

This office in the past year advertised for bids on projects with a value of $65,602,193. Also fully completed, but not advertised, were another $5,580,000 of projects pending availability of funds or completion of site acquisition, for a total of $71,182,193 completed projects. In the current year, it is anticipated that a project value of $85,000,000 will be accomplished.

In the budget year, this office anticipates a total available workload of $131,400,000 assuming the same proportion of work assignment to the division from the Trustees of the California State Colleges.

Working Drawing Program by Private Architects

Where the Director of General Services determines that the obtainable staff is unable to perform the particular work within the time required by public interest, the director may contract, with the approval of the Department of Finance and the State Personnel Board, with qualified architects and engineers for the performance of the work. (Section 14101, Government Code.)

Even under this program it is the responsibility of this office to perform all work for a project under the preliminary planning phase prior to inclusion in the budget, including site investigation and preparation of preliminary plans, specifications and estimates of cost.

Also under this program, substantial review and checking is performed of contract drawings prepared by private architects before requesting bids as well as substantial review of shop drawings and material submittals after award of contracts. Issuance of change orders during the progress of construction is also executed as well as the entire program of supervision of construction.

PROGRAM EXPENDITURE DETAIL

Working drawings by Office of Architecture and Construction	$5,889,264	$6,205,223	$6,134,418
Progress payments to private architects under contract	122,984	9,000	9,000

SUPERVISION OF CONSTRUCTION

"The State Architect shall have an inspector at each building during the whole time of its construction" (Government Code Section 14100) Under this portion of the total program, resident inspectors of the number required by the size and type of project are assigned to supervise construction. The chief responsibilities are to insure construction in full conformance to the contract plans and specifications; to co-ordinate work, work schedule and work areas among separate contractors and subcontractors; to interpret and resolve inquiries from contractors; to determine and evaluate actual progress made on construction and to prepare progress payment estimates; to make periodic and final inspection of workmanship and materials; to recommend final acceptance of project; to keep records of overrun of contract time at completion of construction for determination and justification of liquidated damages; to perform reinspection prior to expiration of guarantees.

Conformity of construction with the requirements of the plans and specifications is more than a contractual requirement demanded by the State. It also assures the safety, utility and proper functioning of the project as designed by specialized professionals in their separate fields. In addition, it is an obligation to the State to assure fairness to successful and unsuccessful bidders alike by enforcing compliance with plans, specifications, and all related items of the contract documents.

As of October 1, 1963, this office had a total of $93,000,000 contracts in force for which annual disbursements will total $73,400,000 (estimated).

PROGRAM EXPENDITURE DETAIL

Supervision of construction	$2,265,137	$2,381,140	$2,318,597

CONSTRUCTION OF PROJECTS (DIRECT)

PROGRAM SUMMARY

The State Contract Act provides that all projects shall be done under the contract awarded to the lowest responsible bidder, except that it may be done by days' labor under direction of the Department of General Services under certain specified situations, some of which are:

1. In case of emergency due to damage to a state-owned building or any other state-owned real property or improvements located thereon by an act of God.
2. At any time after approval of plans, specifications, estimates of cost, if the director deems the advertising or award of a contract, the acceptance of any bid, or the acceptance of any further bids after the rejection of all submitted bids is not to the best interest of the State.

It is the policy to contract for the performance of construction and improvement projects wherever it is feasible to do so rather than to use day labor or to use civil service maintenance crews.

Generally the use of day labor is limited to the following situations:

1. When there is a clear showing that a particular project cannot be accomplished by contract at a reasonable cost to the State because contractors do not appear interested in the project and where there is an urgent need for the project.
2. Improvement or repair work to be done in an area where prisoners are being confined or where mental patients are being cared for, making it necessary to have workmen under state control.
3. Minor construction in a remote location where neither contractors nor skilled labor is available.
4. Projects affected by conditions of site or existing structures where it is impracticable to define the details of work with sufficient accuracy to permit competitive bidding.
5. Historical landmarks restoration projects.

Almost all of the projects that fall into these categories are minor construction projects wherein participation by the division is requested on a current basis. It is difficult, therefore, to project the workload of the day labor force. During the current year as well as the budget year, it is estimated that work by day labor will approximate $1,800,000.

OFFICE OF ARCHITECTURE AND CONSTRUCTION—Continued

LINE	PROGRAM SUMMARY	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65
	CONSTRUCTION OF PROJECTS (DIRECT)—Continued			
	PROGRAM EXPENDITURE DETAIL			
	Estimated disbursements for construction of projects by Office of Architecture and Construction's direct construction forces	$2,347,875	$1,800,000	$1,800,000
	CONSTRUCTION OF PROJECTS (CONTRACT)			
	PROGRAM SUMMARY			

For the purposes of construction supervision, the State is divided into 3 areas as follows:

Area I with headquarters in Oakland comprises the northern coastal area extending from King City to Arcata.

Area II with headquarters in Sacramento comprises the central valley area, extending from Porterville to the Oregon line and to the Nevada line.

Area III with headquarters in Los Angeles comprises the Southern California area.

The amount of contract construction of projects in force is currently $93,600,000 for which progress payments are disbursed at the rate of $73,400,000 annually. The workload in October 1963 was distributed to the 3 areas as follows:

Area I	$23,600,000
Area II	24,500,000
Area III	45,500,000

It is anticipated that the amount of construction in for for the budget year will average approximately $120,000,0 at any given time and that the distribution to the areas w be as follows:

Area I	$30,000,000
Area II	45,000,000
Area III	45,000,000

Progress payments will be disbursed at a rate of approx mately $70,000,000-$80,000,000 annually.

PROGRAM EXPENDITURES DETAIL

Estimated disbursements for contract construction of projects	$55,783,098	$73,400,000	$85,000,000

Following is the organizational budget for the Architecture Revolving Fund portion of the Office of Architecture and Construction budget. The budget for the Architecture Public Building Fund, which provides support for the Schoolhouse Sectic of the Office of Architecture and Construction, may be fou in the State Operations Budget.

GENERAL ANALYSIS

Objectives

The Correctional Industries program of the Department of Corrections was established to provide a balanced and diversified work program enabling inmates to acquire the good work habits and occupational skills necessary for successful adjustment in order that they might be returned to free society as useful citizens. This program plays a significant role in the elimination of inmate idleness which would otherwise contribute to the causes of both mental and physical degeneration. Work projects for this program are selected to contribute to the rehabilitation of prisoners with minimum competition with private industry and free labor.

Program and Performance

The Correctional Industries Commission, representing organized labor, industry, agriculture, and the general public, is the policymaking body for this program. The commission is empowered to recommend productive industrial and agricultural enterprises for the prisons. This includes determining the advisability and suitability of establishing or expanding any industrial or agricultural enterprise involving a gross annual production of not more than the maximum amounts as provided by law. The commission may also discontinue or reduce any enterprise.

The industries program is administered by a central office headquarters staff under the general direction of the general manager of correctional industries.

The correctional industries program includes 32 industrial and 18 agricultural enterprises which have been established in all the correctional institutions of the department with the exception of the Conservation Centers, Medical Facility, and Rehabilitation Center. About 3,425 inmates or approximately 12.4 percent of the total prison population will be employed during the 1964-65 fiscal year. Activities include industrial operations such as the license plate factory at Folsom, the cotton textile mill at San Quentin and the sewing enterprise at the Institution for Women.

A shoe enterprise was activated during the early months of 1962 at the Men's Colony and has been in successful operation producing men's shoes for the inmates confined in the various institutions. Production of women's and children's shoes, gloves, and other leather products will begin early in 1964.

Research and design of new products in the industrial lines is continuing following the wide acceptance of modernized wood industry items produced during the past 2 years. The increased use of metals and plastics is continuing in keeping with the style trend.

Combined sales and transfer values of products resulting from the employment of inmates in this work program totaled $11,639,868 during the 1962-63 fiscal year. The major portion of all items produced are used or consumed by wards of the State. The remainder is sold to other tax supported governmental agencies.

In 1963-64, $600,000 was transferred from the Corrections Industries Revolving Fund surplus to the General Fund as a partial repayment of advances from the General Fund.

Proposed new positions for 1964-65 and administrative adjustments for both 1963-64 and 1964-65 are as follows:

Central Office, Administration—An assistant general manager is proposed to furnish more adequate supervision of institution operating functions; 2 production engineers to provide more adequate engineering services for new industrial projects; a correctional industries representative to provide for increased customer contacts and services in Southern California; and a sales order supervisor to supervise the order department.

The assistant general manager was established administratively during 1963-64 as was 0.3 temporary help due to clerical backlog. One industrial engineer is being abolished in both years.

Correctional Training Facility—A textile products factory foreman is requested to provide adequate supervision over unskilled inmates in the clothing factory. This position was established administratively in 1963-64.

Deuel Vocational Institution—New positions include an accounting technician III for increased workload generated by growth of the institution industrial program; a heavy equipment mechanic to supervise the maintenance and repair of heavy farm tractors and equipment; and temporary help to provide extra help during seasonal peak periods in the industrial and farm areas.

One correctional officer was established administratively in 1963-64 to provide close supervision of youthful inmates working with tools and grinding equipment. The temporary help positions were also authorized in 1963-64.

State Prison at Folsom—A general accountant II is proposed to provide adequate cost accounting control, along with temporary help during the canning season.

The above position and 0.3 temporary help to cover backlog in the accounting function were established administratively during 1963-64.

State Prison at San Quentin—A textile foreman (spinning) is proposed for added production supervision and 2 correctional officers are proposed to provide custodial coverage on the wall while the cotton textile mill is operating during the third watch. These positions were established administratively in 1963-64.

GENERAL ANALYSIS

Objectives

The Inmate Welfare Fund, established by Section 5006 of the Penal Code, is a trust fund held in the State Treasury and administered by the Director of Corrections for the benefit, education, and welfare of inmates in institutions under the jurisdiction of the Department of Corrections.

Program and Performance

The primary source of revenue for the fund is profits from the sale of items to inmates at canteens maintained in each institution under the Department of Corrections. Other revenue is derived from sale of handicraft items, donations, and miscellaneous sources. Funds so received are deposited in the State Treasury and allotted to the various institutions through departmental budgetary procedures. These allotments provide funds for the operation of the canteens and hobby shops and for the purchase of athletic and recreational equipment and supplies such as books, television sets, small games, and rental of motion picture films.

The gross revenue for the Inmate Welfare Fund is in excess of $2,000,000 annually. Of this revenue, an estimated 94 percent is used in operating the canteens, handicraft shops, and meeting administrative expenses. The remaining 6 percent is available for the recreation and welfare of the inmates including the purchase and repair of television sets, film rentals, fiction books for the libraries, athletic and recreational supplies not a part of the organized athletic or education program, and the cost of the inmate newspaper. The current major program of the Inmate Welfare Fund is the establishment of the initial complement of merchandise, personnel, supplies, and equipment at the Sierra Conservation Center which is to be activated in 1964-65.

Workload and administrative adjustments during 1963-64 include the addition of 1.3 positions and the reduction of 0.8 of a position for a net increase of 0.5 position at the various institutions. Funds for a total of 0.9 of a position are deleted in 1964-65 primarily attributable to reductions in overtime.

A total of 3.5 new positions are proposed in the budget for 1964-65 and include 1 canteen manager and 1 accounting technician for the Sierra Conservation Center scheduled to open in the spring of 1965, 0.5 intermediate clerk at the Institution for Women for increased workload, 0.1 overtime position at Deuel Vocational Institution, 0.3 of a position at San Quentin, fully reimbursed by a medical research project, 0.2 overtime position at the California Rehabilitation Center, and 0.4 of a position at the Southern Conservation Center to provide a handicraft program for the 1,150 inmates administered by that institution.

GENERAL ANALYSIS

Objectives

The State Educational Agency for Surplus Property is authorized by Sections 451 to 457 of the Education Code to cooperate with the Federal Government and its agencies in securing federal surplus property, including surplus foods, for distribution to eligible institutions.

Program and Performance

Surplus property of all federal agencies is made available to schools and other eligible institutions through 3 warehouses operated by this agency. The warehouses are located in Los Angeles, Sacramento and in San Leandro. All expenses of procuring, handling and distributing such property are paid by the agency and recovered by nominal service charges. Any excess service charges are refunded to the participating agencies after the close of each fiscal year and reserves are maintained to meet any unliquidated obligations.

The magnitude of this agency's operations is indicated by the following tabulation:

Year	*Fair value of property distributed*
1954-55	$13,983,511
1955-56	17,083,736
1956-57	20,216,696
1957-58	21,656,349
1958-59	27,928,933
1959-60	33,123,054
1960-61	30,984,884
1961-62	32,615,369
1962-63	29,804,000
1963-64 (estimated)	32,000,000
1964-65 (estimated)	32,000,000

The level of expenditures budgeted for the agency is determined by the availability of surplus hardware and food, as well as requests from interested participating agencies. In general terms, the work program includes the screening of available property; warehousing that which is received; processing and repairing where required; and distributing and checking for compliance. The work force required increases or decreases in proportion to the workload as measured in terms of service and handling charges made. Such change is shown in the following table, with the number of positions given being equivalent full-time positions, including temporary help and overtime:

Year	*Service and handling charge*	*Service charges as a percent of fair value*	*Work force*	*Average Service charge per man-year*
1954-55	$1,424,388	10.2	124.6	$11,432
1955-56	1,749,657	10.2	149.4	11,711
1956-57	2,010,665	9.9	178.5	11,264
1957-58	2,478,197	11.4	193.2	12,827
1958-59	3,084,890	11.0	208.2	14,817
1959-60	2,849,551	8.6	225.7	12,625
1960-61	2,886,850	9.3	242.1	11,924
1961-62	3,089,672	9.5	241.7	12,783
1962-63	2,884,624	9.7	208.1	13,862
1963-64 (est.)	3,000,000	9.4	228.0	13,158
1964-65 (est.)	3,000,000	9.4	228.0	13,158

Reduced availability of property and a consolidation of workload assignments permits a reduction of 22 positions effective with the 1963-64 fiscal year. Funds are provided in 1964-65 for the replacement of 3 trucks and 2 automobiles because of age and condition.

Department of Rehabilitation

INDUSTRIES FOR THE BLIND MANUFACTURING FUND

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS

Objectives

The State operates three subsidized production centers located at Berkeley, Los Angeles, and San Diego. These centers offer factory employment to blind, partially sighted, and physically handicapped persons enabling them to contribute to their own support.

Program and Performance

Prior to October 1, 1963, this program was operated within the Department of Education. Effective October 1, 1963, the program was transferred to the new Department of Rehabilitation and placed organizationally within the Division of Rehabilitation for the Blind. The aims for the administration of this program include continuing efforts to improve central coordination and control of operations, to increase the efficiency of manufacturing activities and effectiveness of the sales program, and to place an increasing emphasis on developing the rehabilitative aspects of the program and to integrate these with other programs operated within the Division of Rehabilitation for the Blind.

The manufacture of such items as brooms, mattresses, machine and hand-drawn brushes, mops, pillow-cases, hospital items such as surgical wrappers and drapes, and other textile items have constituted the main production program together with the fabrication and assembly of products on a subcontract basis. The manufacture of automobile seat belts is a new product introduced in 1963.

The administrative and physical plant operating expenses are a direct charge against the General Fund. A description of these expenditures is shown in the budgets for the Centers for the Blind in the Support section of the Governor's Budget. The manufacturing activities are financed from working capital supplied by the Industries for the Blind Manufacturing Fund into which the proceeds from the sale of the products are deposited.

A full-time equivalent of 191 blind or otherwise physically handicapped workers was employed in the three centers during 1962-63 and the payroll for these workers was $491,938. It is anticipated that a full-time equivalent of 215 workers will be employed in 1963-64 and 1964-65 with a payroll of approximately $550,000 each year. Sales of the products of the three centers during 1962-63 amounted to $2,527,418 and the cost of goods sold including salaries and other adjustments $2,504,305. This reflects a small gain in the manufacturing operations of $23,113 in the 1962-63 fiscal year, exclusive of costs for pro rata general fiscal charges of $30,340. After considering all costs, including the pro rata general fiscal charges, the fund closed the year with an operating deficit of $7,227.

The position of production superintendent at the Berkeley Center was abolished effective July 1, 1963, as a result of a re-evaluation of the management position needs at that center.

The financial transactions of the Industries for the Blind Manufacturing Fund, excluding pro rata general fiscal charges, are shown in the summary of operations immediately below. For comparison purposes, the payment for pro rata general fiscal charges is not included in the costs of the manufacturing operations.

	SUMMARY				
	TOTAL WITHDRAWALS				
	Loans to recipients of Aid to the Blind	–	$35,000	–	—$35,000

GENERAL ANALYSIS

Chapter 2127, Statutes of 1963, established a Revolving Fund for recipients of Aid to the Blind. The fund, to be administered by the State Department of Social Welfare, is to be used to make loans to recipients to enable them to establish themselves in businesses, professions, or other gainful employment. Loans are limited to a maximum of $5,000 each. The amount to be loaned cannot exceed the amount saved by the State as a result of discontinuances during the preceding year of Aid to the Blind resulting from excess earnings.

Administratively, the length of time for repayment of the loan, the beginning date of the first payment, the time intervals of payments and the specific amount of interest charged will be determined separately for each recipient based on individual circumstances. For this reason no estimate of future repayments or interest payments to the fund can be made until actual experience is available. It is anticipated that no payments of interest or repayment of principal will be received during the 1964-65 fiscal year.

	Totals	$9,148	$14,878	$13,633	—$1,245 (—8.4%)

GENERAL ANALYSIS

Objectives

The Soil Conservation Development Fund was created by Chapter 1032, Statutes of 1949, as amended, with an appropriation of $1,000,000 to provide for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservation districts. Section 12.2 of the Budget Act of 1958 returned $400,000 of this amount to the General Fund in 1957-58 as the full amount was no longer required for operation of the fund. Out of the remaining $600,000, $186,000 has gone to the support of the Pleasanton Nursery, $157,000 has been written off as bad debts, and $148,500 represents unreimbursed administrative expenses leaving $108,500 as total resources available to the fund in 1963-64. The fund is administered by the State Soil Conservation Commission.

Program and Performance

Equipment requests are investigated to determine whether there is appropriate need, to select suitable types, prepare purchase specifications, receive deliveries of equipment, and regularly inspect the operation and maintenance of equipment.

During recent years, federal surplus equipment has been available to soil conservation districts and the purchase of equipment for districts with state funds has decreased in volume. Loans are now made primarily for reconditioning and modifying the surplus equipment to adapt it for soil conservation use.

	Balance available in subsequent fiscal year	—54,284	—1,993	—49,162
	TOTAL ALLOCATIONS	$91,000	$100,000	–

GENERAL ANALYSIS

This revolving fund was created by Chapter 1551, Statutes of 1949, to provide loans to districts and municipalities for sewage and drainage facilities. This fund consists of the $1,000,000 originally appropriated, plus the accumulated interest returned on loans.

Allocations are made to municipalities and districts upon approval of the State Water Quality Control Board and the Director of Finance. Allocation for a loan (not to exceed $100,000) to the June Lake Public Utility District is included in the current year. This loan will exhaust the balance remaining in the fund. Since there will be a considerable interval of time before a substantial balance accumulates again from repayments and interest, a date of July 1, 1964, was set by the State Water Quality Control Board for receiving new applications for loans.

	Conditions of Loans and Allocations Outstanding:			
	Tahoe City Public Utility District	$15,000	$15,000	$12,000

LINE	EXPENDITURES	NO. OF POSITIONS 62-63 (Filled)	63-64 (Auth.)	64-65 (Auth.)	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

The following is the detail by organization of support costs together with the departmental costs of Capital Outlay as discussed in the program budget starting on page 716.

EXECUTIVE

The executive office of the department consists of the director, 3 deputy directors, a special representative, and 4 staff offices—internal audit, legal, public information, and policy.

One position is added for 1963-64 and continued for 1964-65 to act as an executive secretary of the California-Nevada Interstate Compact Commission.

Two junior counsel and 2 clerical positions are included for 1963-64 for increased legal activities in connection with the State Water Project. For 1964-65 3 additional clerical positions are provided to meet clerical workload increases. Seven positions are added for the legal staff. Four of the positions are continuations of positions set up during 1963-64 from funds budgeted for contract legal services. One additional senior attorney, 1 associate attorney, and 1 senior legal stenographer positions are proposed for increased work on construction contract problems, legal aspects of the power program, and in other construction related areas.

One additional information officer was established in the current year and is proposed new for 1964-65 in order to meet commitments in this area particularly related to the expanding construction program.

Temporary help is being reduced 0.8 of a man-year in 1964-65 due to workload readjustments.

DIVISION OF ADMINISTRATION

The Division of Administration has responsibility for the functions of fiscal management, personnel management, administrative analysis, graphic services, general office services, and rental property management.

The Division of Administration plans, organizes, and accomplishes the business management activities of the department and supports the administrative services necessary to accomplish the engineering activities of the department. Incidental thereto is the recommendation of policies which bear on the efficiency, organization, fiscal responsibility, and personnel management of the department, and the development of procedures to carry them out. During the 1963-64 fiscal year the Graphic Services Branch was added to the Division of Administration. This was accomplished by transferring the reproduc-

	tion, display and exhibit, and photography activities from the Technical Services Office and combining them with the duplicating activity formerly in the Service and Supply Branch. A total of 23.3 additional positions are provided for added workload in the Comptroller's Branch, the Personnel Management Branch, the Management Analysis Office, the Service and Supply Branch, and the Graphic Services Branch. Four additional budget and accounting positions are necessary to meet the increased fiscal management workload resulting from the expanding state water facility program. The need for 4 additional clerical positions in the Personnel Section is due to the increasing recruitment effort that will be made to meet program schedules and the increased personnel records tasks attributed to these increases in personnel. The 4 additional Service and Supply positions are to provide staff to meet record keeping and supply problems that result from the growth of the department. Three additional management analysis positions are needed for management practices, communications, and records methods studies that assist in carrying out the department's program for management of the State's water resources. The 5 additional positions in the Graphic Services Branch are to meet increased workload in reproduction and photography requirements that cannot be met by the existing staff. One additional position is proposed for the Central Records Section in order to keep pace with the filing requirements. 2.3 man-years of temporary help are required on a workload basis. The Chief, Division of Administration position, was abolished in the current year.

	ENGINEERING MANAGEMENT						

Engineering Management comprises the functions of the Chief Engineer's Office, together with his principal staff advisors, the Program Control Office and Safety Office, and supervision of dam safety. The chief engineer is the primary engineering officer of the department. He plans, directs, and supervises the technical and engineering activities of the department; develops and recommends policies concerning these activities; and reviews and recommends action regarding all engineering work and related technical work of the department.

The Program Control Office establishes, maintains, and supervises the operation of a uniform system of control of engineering programs in order to (a) provide the director and chief engineer with positive management control of the initiation, scope, and execution, of line programs, and (b) to insure full co-ordination of program schedules, work authorizations, and work orders.

The Safety Office is staff to the chief engineer and responsible for assuring that the department's activities are carried on safely, including dealing with safety problems encountered during both the design and construction phases of the State Water Facilities Program.

The Supervision of Safety of Dams Office has responsibility for supervising design, construction, maintenance, repairs, alterations, and operation of all dams in the State, above a certain minimum size and capacity, except those owned by the Federal Government, to the extent necessary for the safety of life and property. The staff will review plans for dam construction prepared by the department in the same manner as plans prepared by outside agencies.

A total of 0.8 of a man-year in temporary help is proposed for 1964-65 on a workload basis.

	POWER OFFICE						

The Power Office was created in 1963-64 by consolidation of staff and functions previously located elsewhere in the department. It is directly responsible for the department's power management program and participates in the power aspects of many other programs.

The increased activities of the Power Office require 5 new engineering and 3 clerical positions. These new positions are: chief, power office; 1 senior stenographer and 2 intermediate typist-clerks for the Administrative Office; 1 junior electrical engineer for the accelerated work of the Power Contracts Branch; 1 senior electrical utilities engineer, and 1 junior electrical engineer for the System Development Section; and 1 senior electric utilities engineer to head the Power Utilization Branch.

In addition, 2 man-years of temporary help are included to meet clerical requirements emanating from power contract negotiations.

DIVISION OF RESOURCES PLANNING

The Division of Resources Planning provides staff services in all phases of water resources planning. In addition, it has the line responsibility for studies of statewide scope that cannot be assigned to area branches, for applied research programs conducted by the department, and for Federal-State co-operative programs of a planning nature. The division exercises staff responsibility for all area branch activities relating to (1) collection of basic water-related data, (2) maintenance of current inventories of water resources, utilization, and requirements, (3) planning of water resources development to best meet the needs of the people, and (4) certain statutory services in the interest of public health and welfare. One clerical position is proposed on a workload basis for the Office of the Division Engineer.

One engineer and 2 intermediate stenographers are added to the division's Staff Specialist group in order to meet an increasing workload for this service.

Two research writers and 1 editorial aid are proposed to augment the Reports Administration Section to more effectively handle the increased workload in the preparation of reports concerning all planning activities and in the review of reports.

The Planning Investigation Section requires one statistical methods analyst I and 1 engineering aid for workload increases.

Coordinated Interagency Planning is a new group established in 1963-64 with existing positions, and the 1964-65 budget proposes a continuation of that activity with one principal engineer, one supervising engineer, two associate engineers, and one senior stenographer. This group will be responsible for the coordination of water resources development by federal, state and local agencies, and for the mitigation of the impact of the Supreme Court decision in *Arizona* v. *California*.

Increasing temporary help requirements will be met with the addition of 1.2 man-years of temporary help in 1964-65.

Five recreation positions are abolished in the current and budget years to reflect the transfer of recreation planning activity to the Department of Parks and Recreation. The Department of Water Resources will receive assistance in this area by contract with the Department of Parks and Recreation.

One and one-half man-years of consulting assistance is abolished in 1964-65.

DIVISION OF OPERATIONS

The Division of Operations is the organization responsible for the establishment of standards and criteria for operation and maintenance of the State Water Facilities and flood control projects; the physical operation and maintenance of State Water Facilities and flood control projects under the jurisdiction of the department; negotiation of water and power contracts and all other contracts necessary for project operation and for obtaining of reimbursement for all project services; the administration of watermaster service throughout the State; and for providing staff assistance to the chief engineer, branches, and other units of the department in matters relating to operation and maintenance of project facilities; the functioning of the flood operations center; and for the coordination and implementation of the federal-state river forecast center. The 19 new positions proposed in 1964-65 consist of the following:

One intermediate typist-clerk for the Administrative Office; 1 senior typist-clerk, 1 intermediate typist-clerk, 1 intermediate stenographer, 1 associate electrical engineer, and 1 assistant electrical engineer for the Statewide Power and Water Operations Center which will become fully operational in 1964-65; 1 senior electric utilities engineer for the Power Operations Section and 1 senior electric utilities engineer for the Power Maintenance Section; 1 associate electric utilities engineer and 1 junior electrical engineer for the enlarged scope of the Power Operations and Maintenance Program; 2 engineers for the Co-ordinated Water and Power Operations Studies Program; 1 engineer to head the Flood Operations and Water Supply Forecast Section; 1 engineer for the water quality studies in the Project Water Operations and Maintenance Program; 1 engineer for the River Forecasting and Flood Hydrology Program; 1 engineering aid for the Co-operative Snow Surveys Program; 1 weed control specialist for the Project Water Operations and Maintenance Program to develop methods of controlling weed growth along the aqueduct; and 2 clerical positions for the Water Contract Negotiation and Administration Program which will begin to place emphasis on administration of contracts, particularly accounting and billing procedures.

One position in the current year and 6.8 positions in 1964-65 are abolished due to workload readjustments.

TECHNICAL SERVICES OFFICE

The Technical Service Office provides professional, consulting, and technical services to all divisions, branches and offices, for the programs of the department. These services are totally reimbursed by charges to the programs, and include:

1. Engineering Laboratories—Statewide laboratory standards, and testing in concrete, soils, chemicals, fluid mechanics, and corrosion.
2. Geologic Services—Geotechnics, and subsurface exploration.
3. Mapping and Surveying—Statewide mapping coordination, aerial photo control, special instrument crews, photogrammetry, planimetry services, statewide drafting standards and reproduction.
4. Electronic Data Processing and Programming—Programming and electronic computer and data processing operations.
5. Mobile Equipment Management—Acquisition, accountability, and maintenance of automobiles, heavy equipment, trailers, mobile power units.

	TECHNICAL SERVICES OFFICE—Continued						
	In 1964-65, 19 new positions are proposed to provide necessary additional services for the California Water Development Program. Areas of increase are:						
	A. Two positions for the Laboratories Branch Headquarters Office, one of which is a continuation of a position administratively established in 1963-64						
	B. One skilled laborer for the Laboratory Maintenance Shop						
	C. Three delineators for the Drafting Section, Maps and Surveys Branch						
	D. Five positions for the Engineering Computations Branch continuing positions administratively established in 1963-64						
	E. One intermediate clerk for the Service Accounting S tion, Mobile Equipment Branch						
	F. Seven positions for the Service Maintenance Section, M bile Equipment Branch						
	All of the above positions are financed in whole from char to department programs.						
	Three positions are abolished in the current and bud years and 1.4 man-years of temporary help are abolished in budget year on the basis of workload readjustments.

LINE	EXPENDITURES	NO. OF POSITIONS 62-63 (Filled)	63-64 (Auth.)	64-65 (Auth.)	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

DIVISION OF DESIGN AND CONSTRUCTION

The Division of Design and Construction has responsibility for design and construction of state water projects, and standardization of all design and construction work on a department-wide basis, including review of technical adequacy of work in specialized areas. The division also has responsibility for the design and supervision of hydraulic structures for other state agencies.

Increases in permanent personnel, temporary help and consulting services are due to requirements for executing the water development program as outlined in the program budget.

The following new positions are provided for 1964-65:

In the Program Liaison and Control Office, 4 positions are included to expand the organization of the critical-path unit to improve program scheduling.

In the Administrative Services Office, 3 clerical positions are included to provide administrative services due to increased staffing of additional construction project offices and additional increases in Sacramento.

In the Staff Engineering Branch, 4 positions are included to provide necessary personnel to complete independent review of plans and to prepare standard manuals and handbooks.

In the Specifications Office, 4 positions are included to prepare specifications and review proposed contract changes.

In the Dams and Plants Design Branch 13 positions are included to provide additional personnel for the design of facilities in connection with the California Aqueduct construction and for the design of pumping plants and power plants for South Bay Aqueduct, Del Valle Division, California Aqueduct, North San Joaquin and South San Joaquin Divisions.

In the Aqueduct Design Branch 23 positions are included to provide additional clerical and drafting services and additional engineering personnel for designs on the California Aqueduct.

In the construction area 300 positions are included to provide inspection personnel and supporting administrative and maintenance personnel necessary for the construction inspection for Oroville Division, Upper Feather Division, North and South San Joaquin Division, and increased construction activities on the South Bay Aqueduct.

Thirty-four and one-tenth man-years of temporary help and 2.7 man-years of consulting time are proposed to meet expanding construction supervision requirements.

In the current year a net total of 36.6 positions were established primarily to meet design requirements while workload readjustments result in the abolishment of 19 positions in 1964-65.

DIVISION OF RIGHT-OF-WAY ACQUISITION

The Division of Right-of-Way Acquisition has responsibility for the acquisition of all land and rights-of-way required for the State Water Project.

In 1964-65, 19 new positions are required for workload increases due to acceleration of the property acquisition program for State Water Facilities, particularly increased condemnation activities. The increased workload commenced midway through 1963-64 and 9.4 of these positions were provided during 1963-64.

For 1964-65, the following new positions are proposed:

1. *The Office of the Division Chief:* 1 associate land agent, and 1 intermediate stenographer.
2. *Acquisition Branch:* 2 associate land agents, 2 assistant land agents, 3 junior right-of-way agents, 4 intermediate stenographers, and 1 intermediate typist-clerk.
3. *Relocation Negotiations Branch:* 2 associate engineers, 1 water resources technician I, and 1 intermediate typist-clerk.
4. One man-year of consulting services.

AREA MANAGEMENT

Area Management includes the assistant chief engineer, the area branches, and the Southern District Office. The assistant chief engineer plans, directs, and supervises the work of the area branches and the Southern District Office. The branches and the district office carry out most of the planning and operational activities of the department. In addition, the Southern District Office has initial responsibility for the design, right-of-way, and construction work in the southern part of the State.

The branches and the district are generally organized to manage the department's programs based on natural hydrographic boundaries. This organization facilitates the administration of the department's many investigations, data collection programs, and other activities to emphasize the varying needs of the different areas of the State.

During 1963-64 1 position was established for the Delta Branch to work on the Feather River Channel Characteristics Study. Seven positions were established in the San Joaquin Valley Branch. Five were established to handle the administrative workload when the branch moved to Fresno. Two positions were established to handle the additional workload on the Vegetative Water Use and Westside Crop Adaptability studies.

Proposed New Positions 1964-65

Northern Branch: Nine positions and 5.4 man-years of temporary help for expanded North Coastal Area Investigation, Sacramento River Water Quality Survey and Basic Data.

Two positions are being abolished in 1963-64 and 3 positions in 1964-65 due to workload readjustments.

Bay Branch: Thirteen positions and 0.5 man-years of temporary help for Administrative Services, Coordinated Statewide Planning, Operation Facilities and Contract Negotiation Programs. Six of the positions are required for the planned relocation of the branch headquarters to San Jose during 1964-65.

One position is being abolished in 1963-64 and 4 positions in 1964-65 due to workload readjustments.

Delta Branch: Fifteen positions and 0.8 man-year of tem porary help for workload in Branch Chief's Office, Delta Fis and Wildlife Study, Pilot Levee Maintenance Study, Delt Water Project, Economic Services, Sacramento River Wat Quality Management Program, Contract Negotiations, Surfa Water Services and Project Water Operations and Maint nance.

Two positions are being abolished in 1963-64 and 7.5 positio are being abolished in 1964-65 due to workload readjustment

San Joaquin Valley Branch: During 1963-64, 5 administr tive and clerical positions were added to the branch as a resu of the move to Fresno. The 1964-65 Budget reflects these positions plus 1 additional clerical position necessitated by t decentralization. Sixteen positions, 1.5 man-years of tempora help, and 0.8 man-year of consultant time are added for t San Joaquin Valley Drainage Investigation, Planned Utilizati of Ground Water Basin, Coordinated Statewide Planning Pr grams, Ground Water Measurement Program and Water Co tracting Program.

Seven positions are being abolished in 1964-65 due to wor load readjustments.

The Southern District includes 142 new positions and 21 man-years of temporary help for the 1964-65 fiscal year. these 142 positions, 18 will be in the Planning Branch (3 f the Orange County Coastal Planning Investigation and 4 f the Water Service Contracts Negotiations and Administration The balance of 11 positions will be for project operation a maintenance studies. One hundred twenty-four new positio and 21.5 man-years of temporary help are being requested p marily for design and construction activities in connection wi the California Water Development Program.

Eleven positions are being abolished in 1964-65 and a r total of 2 positions are added in 1963-64 due to worklo adjustments.

[a] The expenditures in this part of the budget are reconciled to the expenditures in the program budget through the reserve accoun The amount for 1962-63 reflects the difference between expenditures for mobile equipment in the revolving fund budget whi through the pool concept are charged to the using programs over a period of years to cover the cost of replacement.

[b] Reimbursements are not shown in the revolving fund budget detail.

STATE FACILITIES FINANCED BY LOANS FROM TREASURY FUNDS

EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

STATE PUBLIC WORKS BOARD FACILITIES

The State Building Construction Act of 1955 provides that the State Public Works Board may issue revenue bonds or certificates to provide funds to acquire or construct state public buildings when authorized by a separate act or appropriation of the Legislature. By definition "public building" includes automobile parking lots. The facilities so acquired or constructed are to be leased by state agencies at a rental rate that will retire the bonds or certificates and provide for the payment of interest. In addition the rental rates shall cover the cost of operation and maintenance of the public buildings authorized.

The State Public Works Board has entered into an agreement with the Board of Administration of the State Employees' Retirement System whereby that agency will purchase certificates to finance the construction of the 9 office buildings and the Los Angeles garage authorized by Chapter 1687, Statutes of 1955, as amended by Chapter 1647, Statutes of 1957, and by various subsequent budget act items.

In 1963, construction began on the San Bernardino and Stockton buildings. The Budget Act of 1964 includes an augmentation of $350,000 for the San Bernardino office building and is being made in order to add 1 additional floor to the building. Sites have been acquired for building in San Jose. An augmentation of $400,000 is requested for the San Jose office building for an additional floor in that building.

Office building No. 8, Sacramento, was authorized in the 1963 legislative session under the provisions of the State Building Construction Act of 1955. It is proposed to amend the financing and to provide for the construction of No. 8 and for land acquisition and construction of Office Building No. 9 from the Veterans Farm and Home Building Fund of 1943. These buildings will be constructed on the block bounded by 7th, 8th, N, and O Streets. The loan will be repaid from rental charges to occupying state departments with interest. In addition, land acquisition is proposed for additional parking facilities for both buildings. This loan will be repaid from parking rental payments.

Chapter 1242, Statutes of 1963, appropriated $13,000,000 from the School Land Fund for acquisition and improvements of real property in Sacramento within the boundaries of the Capitol Area Plan as adopted by the Legislature for use as parking lots and sites for state buildings. Income from rental of the acquired property shall be used to repay the School Land Fund the full amount of the loan with 4 percent interest accruing to the State School Fund. Upon repayment of the loan, any income will accrue to the General Fund. Twenty-four percent of any income from rental of property to private parties, except for parking shall be deposited in the State Properties Rental Fund for payment to the City and the County of Sacramento and appropriate revenue districts. Acquisition of this capitol plan area property will proceed through June 30, 1965 with an estimated expenditure of $1,600,000 during 1964-65.

HIGHWAY PATROL ACADEMY AND CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO

(School Land Fund)

Funds were loaned for the construction of the Civil Defense Headquarters and the Highway Patrol Academy from the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director of Finance, and the Commissioner of the California Highway Patrol the costs of these facilities are being repaid with interest a 2½ percent per annum by the respective agencies in 240 equa monthly installments.

GENERAL ANALYSIS

Objectives

This program provides residential facilities for state college students, both single and married.

Program and Performance

State College Dormitory Revenue Fund

In 1957 the Legislature approved an additional residence hall program to be financed partially by a loan from the Federal Housing and Home Finance Agency and the remainder from the State Construction Program Fund. All expenditures for construction were from appropriations from the State Construction Program Fund. During 1960-61, $14,173,000 principal amount of bonds, authorized under the State College Revenue Bond Act of 1947, were sold. The proceeds from the sale of these bonds were deposited in the State College Dormitory Construction Fund and $14,107,266 transferred to the State Construction Program Fund for reimbursement of construction advances.

The program provides capacity for 7,809 single students at the several state college campuses. Construction was completed on 15 units which began operation in September 1959. Construction of the remaining 21 units was completed and the units occupied in September 1960. All revenues accruing through the operation of the residence halls will be deposited in the State College Dormitory Revenue Fund. An operating reserve of 12.5 percent of current estimated expenditures has been provided for 1963-64 and 1964-65.

Moneys in this fund are appropriated to pay the costs of operation and maintenance of the residence halls. After providing for current support expenditures, remaining sums, as required, shall be transferred to the State College Dormitory Interest and Redemption Fund for interest and principal payments on the outstanding bonds. Remaining balances in any of these funds after payment of all authorized charges shall remain available for expenses incidental to the program.

The 36 units will provide student housing capacity as follows:

College	Men	Women	Total
Chico State College	208	208	416
Fresno State College	209	418	627
Humboldt State College	202	202	404
Long Beach State College	209	209	418
Sacramento State College	204	408	612
San Diego State College	627	418	1,045
San Fernando Valley State College	–	207	207
San Francisco State College	404	404	808
San Jose State College	606	606	1,212
California State Polytechnic College:			
San Luis Obispo campus	808	404	1,212
Kellogg-Voorhis campus	636	212	848
Totals	4,113	3,696	7,809

A brief statement of the funding arrangements related to this program is outlined below:

College	Estimated residence hall cost	State funds	Federal Housing and Home Finance Agency loan
Chico State College	$1,437,607	$729,007	$708,600
Fresno State College	2,077,686	1,057,186	1,020,500
Humboldt State College	1,406,817	712,317	694,500
Long Beach State College	1,416,868	722,368	694,500
Sacramento State College	2,121,090	1,072,290	1,048,800
San Diego State College	3,448,197	1,747,397	1,700,800
San Fernando Valley State College	717,274	362,974	354,300
San Francisco State College	5,040,180	3,296,880	1,743,300
San Jose State College	6,210,865	3,645,565	2,565,300
California State Polytechnic College:			
San Luis Obispo	4,644,158	2,362,258	2,281,900
Kellogg-Voorhis	2,767,507	1,407,007	1,360,500
Totals	$31,288,249	$17,115,249	$14,173,000

Bonds Redeemed: November 1, 1962	$200,000
Bonds Outstanding June 30, 1963	13,973,000
Budgeted bond redemption November 1, 1963	225,000
Bonds Outstanding June 30, 1964	$13,748,000
Budgeted bond redemption November 1, 1964	250,000
Bonds Outstanding June 30, 1965	$13,498,000

Each dormitory consists of two 3-story wings with each wing containing 104 beds except at San Francisco where two 6-story wings with 404 beds per wing are provided.

College Auxiliary Enterprise Fund

During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure. This program at Fresno State College was phased out in 1959.

On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges and fees are paid into this fund and are appropriated therefrom for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. These facilities provide housing for veterans or other students at established rates. The facilities operated by the College Auxiliary Enterprise Fund are listed below:

College	Family dwelling units	Dormitory units
Chico State College	45	15 (30 individuals)
Humboldt State College	10	37 (37 individuals)
San Francisco State College	84	–
San Jose State College	148	–
Totals	287	52

This budget reflects some changes in existing facilities due to the removal of some units due to age and condition, to make room for construction of permanent instructional facilities.

Department of Public Works

TOLL BRIDGE CONSTRUCTION AND REVENUE FUNDS

LINE	FUND CONDITION	ACTUAL 1962-63	ESTIMATED 1963-64	ESTIMATED 1964-65

Toll bridge construction funds consist of proceeds from sale of revenue bonds, the issuance of which is authorized by the California Toll Bridge Authority; and, as in the case of the Vincent Thomas Bridge, such other funds as are provided by statute. Such funds are expended for construction, reconstruction or improvements of toll bridges in accordance with the applicable bond resolutions and/or statutes.

Toll revenue funds consist of toll collections, rents, roadway service collections and interest on investments. Such funds are expended for operating expenses, for debt service, and for improvements not financed by construction funds.

The physical maintenance of all toll bridges is financed from the State Highway Fund pursuant to Section 188.3 of the Streets and Highways Code.

All toll crossings, other than the Vincent Thomas Bridge, are situated in the San Francisco Bay area.

San Francisco-Oakland Bay Bridge:

Although currently there are no outstanding bonds against the revenues on this structure, tolls are being continued to pay for the cost of alterations and improvements to the bridge authorized by Chapter 2316, Statutes of 1957, and the rehabilitation and improvement of the San Mateo-Hayward Bridge and the Dumbarton Bridge pursuant to Chapter 1784, Statutes of 1959. Under provisions of Sections 30770-30782 of the Streets and Highways Code, the revenues received after December 31, 1964, are obligated for construction of a rapid transit tube between the City and County of San Francisco and the County of Alameda. The cost of constructing the tube including approaches has been estimated as $133,000,000, of which the San Francisco-Bay Area Rapid Transit District will repay the State the cost of approaches estimated to be $40,000,000.

In addition to the toll revenues on the San Francisco-Oakland Bay Bridge, the residue of bond proceeds, in separate funds designated as the San Francisco-Oakland Bay Bridge Construction Fund and Southern Crossing Engineering Fund, are being used respectively for improvements to the San Francisco-Oakland Bay Bridge and for studies of additional crossings.

Carquinez Strait Bridges:

The Carquinez Strait Bridges comprise the 2 Carquinez bridges and the Benicia-Martinez Bridge, and are operated as a unit.

Construction of the additional Carquinez Bridge and improvements of the original bridge were financed by the issuance of $46,000,000 of toll revenue bonds pursuant to a resolution of the California Toll Bridge Authority dated October 4, 1955. Construction of the Benicia-Martinez Bridge was financed by the issuance of $34,000,000 of toll revenue bonds pursuant to a supplemental resolution of the Authority dated April 23, 1959.

Under the provisions of California Toll Bridge Authority Bond Resolution adopted on September 25, 1963, a new northerly approach will be constructed from U.S. 40 (Interstate Route 80) at Cordelia to the Benicia-Martinez Bridge. The project estimated to cost $10,000,000 will be financed from bond proceeds of the Carquinez Strait Bridges Refunding Toll Bridge Revenue Bonds, Series A. Construction on the approach is expected to start in February 1964.

All other construction has been completed and the bridges opened to traffic but several right-of-way and contract obligations are still outstanding.

Vincent Thomas Bridge (San Pedro-Terminal Island Bridge):

Chapter 74, Statutes of 1958, as amended by Chapter 1961, Statutes of 1959 (Sections 30680-30684 of Streets and Highways Code), authorized the construction of this bridge and provided for the financing thereof. Toll revenue bonds amounting to $5,000,000 were sold pursuant to resolution of the California Toll Bridge Authority dated February 28, 1961 and $16,400,000 was advanced from the Highway Users Tax Fund and the State Highway Fund, as authorized by the statute. The bridge was opened to traffic on November 15, 1963.

GENERAL ANALYSIS

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer insurance protection to employers at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

Expenditure estimates are predicated on the expectation of a continued increase in population growth and business activity. Changes in economic conditions may result in corresponding changes in the various items of expense.

GENERAL ANALYSIS

Objectives

This division assists eligible California veterans in the purchase of a home or farm. A California veteran is defined as a person who served in the military services during World Wars I, II, or the Korean Conflict, and who is a native of California or was a bona fide resident at the time of his induction into service. The program is entirely self-supporting and funds derived from taxation are not required for the purchase of properties or administration of the program.

Program and Performance

Within statutory limitations, the division purchases homes and farms for eligible veterans, and, in turn, executes a long-term sales contract with each veteran for the resale of the property to him. The cost to the department cannot exceed $15,000 in the case of a home or $40,000 in the case of a farm. Contracts with the veterans are written for a term of 23 years. The current interest rate is 3.75 percent. The major benefits included with these loans are (1) long-term, low-interest financing, (2) low-cost term life and disability insurance, and (3) low-cost fire and hazard insurance, including coverage for landslide and earth movement. There are 15 local offices throughout the State to process loan applications under this program.

A home protection plan of life insurance was provided in 1938. Each insurable veteran is covered for the exact amount of the unpaid balance of his contract. Commencing in 1960 these insurance benefits were added: If insured under the basic plan, the applicant is eligible for additional insurance which provides for a cash payment to the beneficiary of an amount equal to 20 percent of the unpaid balance of the purchase contract at the date of death.

A total of 205,971 properties have been purchased for California veterans from the inception of the program in 1921 through June 30, 1963, for a total investment of $2,051,890,000. Of these, 73,683 contracts have been paid in full. The department had 132,318 outstanding contracts, with a total obligation of $1,341,562,304, as of June 30, 1963. A total of 10,399 properties were purchased in the 1962-63 fiscal year. It is anticipated that approximately 12,000 properties will be purchased in the 1963-64 fiscal year.

The funds for property purchases are derived from the sale of state general obligation bonds approved by the voters. The department currently has $310,000,000 in authorized but unsold bonds. Of this, $60,000,000 is from the 1960 Bond Act and $250,000,000 is from the 1962 Bond Act. It is anticipated that funds on hand, together with funds to be derived from the sale of authorized bonds and the prepayment of veterans' contracts, will finance the program until the end of 1966 at the present rate of purchases.

Because of a decreased demand for loans, the department has closed 2 local offices and distributed their work to other nearby offices.

A total of 14 positions are abolished in the 1963-64 and 1964-65 fiscal years because of the reduction in workload.

GENERAL ANALYSIS

Objectives

The purpose of the San Francisco Port Authority is to promote the facilities and administer the operations of the Port of San Francisco, including the State Belt Line Railroad.

Program and Performance

The authority, established under the provisions of Section 1700 of the Harbors and Navigation Code, consists of 5 commissioners appointed by the Governor with the consent of the Senate. Each commissioner serves a 4-year term. One commissioner, elected by the other commissioners, serves as president of the authority.

This agency provides pier services for ships, assigns berths, rents office and wharf space, manages the Foreign Trade Zone, constructs and maintains harbor facilities, operates a railroad, solicits cargo and publicizes the harbor. Users of port facilities pay tolls, dockage, demurrage, and rental charges set by the authority. The operation of the port is entirely self-supporting.

The harbor is publicized through press releases, publications and advertising. Port traffic representatives solicit cargo for the port in California, and a full-time regional representative promotes harbor business in New York and on the East coast.

The port authority will not advance funds for the operation of the World Trade Center Authority in the 1964-65 fiscal year.

[a] Differs from the June 30, 1962 balance of $3,240,182 reported in the 1963-64 fiscal year due to the transfer of the reserve for fire insurance premiums to the prepaid insurance account with the State Controller. This transfer is partially offset by adjustments in Accounts Payable.

RETIREMENT FUNDS

JUDGES' RETIREMENT FUND

The Judges Retirement Fund receives contributions from the State in the amount of 4 percent of the salaries for the established judgeships of the justices of the Supreme Court and of the district courts of appeal, and judges of the superior and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. It is anticipated that there will be 642 members contributing to this retirement fund effective July 1, 1964. Legislation will be proposed at the 1964 Session to increase the contribution rates for both members and State. This is necessary to avoid a deficit in the fund during 1964-65 and to keep the fund financed in subsequent years.

TEACHERS' RETIREMENT FUND

The State Teachers' Retirement System is composed of approximately 316,712 active accounts. Approximately 29,728 members will receive retirement benefits during 1964-65. The present system became operative July 1, 1944.

Three major funds constitute the State Teachers' Retirement Fund. They are the Teachers' Permanent Fund, the Retirement Annuity Fund, and the Annuity Deposit Fund. Chapter 1583, Statutes of 1957, authorized the 3 funds to be combined for administrative purposes only. All other aspects of each fund are carried on as before.

The Teachers' Permanent Fund receives its revenue from members' contributions, contributions from the school district, interest from invested reserves, and yearly appropriations by the State from the General Fund. Retirement benefits from the fund are currently $600 per year to the person who is credited with 30 or more years of service, and who retires at age 60. A pro rata amount of that amount is paid for less than 30 years of service, and all benefits from this fund are usually discounted or improved actuarially if the member retires at an age less than 60 years or over.

The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies are required to pay contributions equal to 3 percent of the certificated payroll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the 3 highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.

The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes of 1956, has reopened this fund for additional member contributions. Members who have contributed to this fund receive an annuity at the time of their retirement, but the benefit is based solely on the value of the members' accumulated contributions.

GENERAL ANALYSIS

The Department of Employment administers the state public employment service, unemployment insurance and disability insurance systems. The department also performs certain functions as an agent of the Federal Government in connection with the administration of other programs.

The public employment service program offers to all workers and employers the advantages of a central point in the community at which job seekers and employers can have ready access to the largest and most centralized job demand and labor supply listing in the community. This job placement service includes a variety of supporting services which provide for:

1. Continuous assessment of the characteristics of the shifting labor market and current information on labor demand and supply needs.
2. Recording, appraising, and classifying the qualifications of workers.
3. Special job placement, counseling, and testing services to worker groups in the community work force who are given statutory preference—i.e., veterans—or who are disadvantaged by such factors as age or race.
4. Special services to employers designed to cut costs of recruitment, screening, training, and turnover, and to contribute to the solution of other in-plant staffing problems related to the selection and assignment of workers.
5. Assistance to community groups in making "skills of the work force" and "industrial development" studies and otherwise stimulating community action to solve problems which tend to deter achievement of maximum and stable employment in the community.

The public employment service is usually one of a number of organized facilities in the community assisting in the hiring process. Its services are available to all workers and employers whenever, in the public interest, a needed and productive placement service can be provided.

The unemployment insurance program provides for payment of benefits to workers who are unemployed through no fault of their own; and who are able to, available for, and actively seeking work, and meet the other eligibility requirements of the Unemployment Insurance Code. These benefit payments are made from the Unemployment Trust Fund which is financed through a payroll tax on employers who are subject to the provisions of the California Unemployment Insurance Code. In the 1959 Session of the Legislature, Part III was added to the Unemployment Insurance Code to provide for extended duration benefits during periods when unemployment reaches a 6 percent level. These extended duration benefits are financed by an additional tax on all employers. Estimates of extended duration benefits and additional tax amounts are included as expenditure and revenue items for the appropriate fiscal years.

The Unemployment Insurance Code provides for payment of disability and hospital benefits in two ways—either by the State from the Unemployment Compensation Disability Fund, financed by a 1 percent tax on wages paid by workers in employment subject to provisions of the California Unemployment Insurance Code—or by voluntary plans as provided by the code.

Chapter 2155, Statutes of 1961 provides for disability and hospital benefits coverage to agricultural employees. Since the coverage became effective on October 1, 1961, approximately 385,000 agricultural employees have been provided coverage. Approximately 44,000 agricultural employers are reporting wages as provided by the code. The addition of this program has increased the agency administrative costs during the 1962-63, 1963-64, and 1964-65 fiscal years.

Chapter 1563, Statutes of 1963 added Section 708.5 to the Unemployment Insurance Code to provide that self-employed individuals may elect coverage under the Disability Insurance program. The addition of this program will add to this agency's administrative costs as it is estimated that 2,700 individuals will elect such coverage in 1963-64, and 23,000 in 1964-65.

The enactment of Chapter 2154, Statutes of 1961 increased the maximum weekly disability benefit amount, increased the taxable wage base for employee contributions, and re-established the adverse selection provisions related to voluntary plans. This latter part of the enactment had the effect of decreasing the number of employers with voluntary plan coverage and increasing the number of state plan employers.

In the field of unemployment, the agency acts as an agent of the Federal Government in administering other programs such as:

1. Unemployment insurance benefits for unemployed federal workers and unemployed ex-servicemen.
2. The Federal Manpower Development and Training Act from the standpoint of identifying training needs, selecting and referring applicants, paying training allowances and subsistence, and travel allowances when appropriate, and placing the trained worker.
3. Similar responsibilities are assigned the department in connection with the Area Redevelopment Act. Federal funds are provided to finance extensive occupational training and retraining programs and for subsistence payments to those undergoing training.
4. The Temporary Extended Unemployment Compensation Act of 1961 provided payment of benefits to unemployed persons for extended periods when regular benefit entitlements were exhausted. This program expired on June 30, 1962.

California's responsibilities under the Federal Manpower Development and Training Act of 1962, will remain the same in the coming year. These responsibilities, agreed upon by means

[a] Expenditures from Department of Employment Contingent Fund included in overall budget totals. For Statement of Fund Condition see page 918.

DEPARTMENT OF EMPLOYMENT—Continued

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS—Continued

of a formal agreement signed by the Governor and the Secretary of Labor on August 22, 1962, require the Department of Employment to identify training needs of unemployed or underemployed workers, opportunities which these workers, with training, would be able to perform satisfactorily for California employers, and to transmit this identification as a "requisition" for training to the Department of Education, Division of Vocational Education. That division then is responsible for curriculum design, selecting the training facility and instructor and supervising the training given. The Department of Employment, in turn, selects the trainees and, upon completion of training, is responsible for the job development, placement and follow-up. The Department of Employment is also responsible for the prompt payment of training allowances to those individuals in training who are eligible.

The Department of Industrial Relations, Division of Apprenticeship Standards, is responsible for the development of On-the-Job Training programs under this same law. That division identifies the need for training, contacts and secures agreement from employers and/or unions to give the training and supervises the training given in a manner similar to the division's responsibilities in supervising apprenticeship programs. The Department of Employment selects and refers the individuals for training and, again, pays allowances when due. Employment is also responsible for the job development, placement and follow-up of those individuals trained who are not to be hired by the training facility.

The following table summarizes the Federal Manpower Development and Training program activities administered by the Department of Employment:

Number of Positions Required for Administration:			
Section			
Research and Statistics	3	11	11
Employment Service Technical	3	7	7
Area Offices	6	13	13
Local Offices	41	127	127
Accounting	2	5	5
Data Processing	1	3	3
MDTA Payment Unit	2	7	7
Other Sections	–	3	3
Totals	58	176	176
Dollar amount required for administration	$359,674	$1,263,893	$1,284,474
Number of trainees to be enrolled in MDTA courses	3,260	13,000	13,000
Dollar payments to trainees enrolled in MDTA courses including training allowances, transportation and per diem expenses	$885,326	$4,500,000	$4,500,000

The number and complexity of the programs administered by the Department of Employment have required the agency to adopt and utilize the most modern methods of budgetary and financial control.

The Department of Employment uses a performance system of budgeting under which personnel requirements are determined through workload projections multiplied by unit time requirements. These unit costs are developed from a system of functional time reporting in which all employees of the Department of Employment participate. The workload data for the Disability Insurance and Unemployment Insurance programs which were used as a basis for this request are shown in the following table:

Disability Insurance Administration Workload Data:			
(a) State plan claims	504,971	580,780	620,000
(b) Voluntary plan claims	75,190	46,980	43,600
(c) Voluntary plans approval and review process	25,692	3,608	3,131
(d) Appeals handled	3,728	3,675	3,910
(e) Wage earner refunds	261,967	282,000	298,000
Unit Time Data—Hours per Unit:			
(a) State plan claims	2.22	2.22	2.32
(b) Voluntary plan claims	.45	.40	.47
(c) Voluntary plan approval and review process	.69	4.39	2.67
(d) Appeals handled	8.15	8.00	7.98
(e) Wage earner refunds	.23	.22	.21
Unemployment Insurance Administration Workload Data:			
(a) Initial claims	1,931,310	2,008,830	2,053,000
(b) Weeks claimed	12,153,968	12,926,130	14,752,000
(c) Nonmonetary determinations	688,913	707,105	816,350
(d) Benefit appeals	41,669	46,450	49,870
(e) Subject employer contribution reports	1,383,906	1,429,100	1,443,800

1962-63 Fiscal Year

During the 1962-63 fiscal year the number of state plan disability claims filed increased 17.7 percent over the 1961-62 fiscal year and 30.4 percent over the previous 1960-61 fiscal year. In 1962-63 improved performance permitted a decrease in cost per unit of work.

Unemployment insurance benefit workloads increased slightly from the 1961-62 levels. Weeks claimed increased 4.9 percent from 11,582,966 to 12,153,968. Other key workloads experienced similar increases in volume.

Funds for administration of the Federal Manpower Development and Training Act program became available when the Governor signed an agreement for California in August 1962. The first training classes were started on August 27, 1962. Since that time and through June of 1963, a total of 110 training proposals have been approved. A total of 3,260 individuals enrolled in these training projects, with 730 trainees having completed their training courses. Of this number, 446 or 61 percent have already secured employment in training related occupations. Seventy-eight individuals have secured jobs in nontraining related occupations.

The employment service continued to expand its services to employers and work applicant groups. This included increased job placement and counseling service to the handicapped, veterans, youth, and older workers, parolees, and other groups requiring special assistance. During the 1962-63 fiscal year a record total of 858,001 job placements was made.

LINE	SUMMARY AND GENERAL ANALYSIS	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS—Continued

1962-63 Fiscal Year—Continued

The temporary unemployment extended compensation program terminated as of June 30, 1962. During 1962-63 phasing activities involving the processing of appeals and overpayments and investigation of potential fraudulent claims were required to completely close out the program.

1963-64 Fiscal Year

For the 1963-64 fiscal year it is anticipated that the principal workload item of disability insurance state plan first claims will be 75,800 or 15 percent higher than actual experience for the 1962-63 fiscal year. This is partially offset by an estimated decrease of 28,200 or 37½ percent in the number of voluntary plan first claims. This shift in claim workloads is attributable to Chapter 2154, Statutes of 1961 and the regulation promulgated to implement this Chapter which re-established the adverse selection provisions of the Unemployment Insurance Code. This agency's administrative costs are also increased by the enactment of Chapter 1563, Statutes of 1963 which provides that self-employed individuals may elect coverage under the Disability Insurance program.

The 1963-64 fiscal year Unemployment Insurance budget is based on the assumption that despite comparatively good business conditions, unemployment rates are expected to rise slowly on a seasonably adjusted basis throughout the fiscal year. The growing number of new entrants for the labor force, coupled with increased efficiency of industry, will result in an unemployment rate for the year of about 6 percent of the labor force. In this fiscal year employment growth will continue at a rate nearly equal to 1962-63 in most industries, while manufacturing growth may slacken somewhat reflecting a leveling out of the rate of increase in defense-related industries in California. Agricultural employment is expected to extend its long-term decline as technological advance and increased efficiency of a nontechnological nature continue to have an impact upon this industry. As in the prior fiscal year, those industries most closely related to population growth—finance-insurance-real estate, services, and government—will have large employment gains. Wholesale and retail trade will also experience a large gain. The outlook is favorable for the construction industry in 1963-64. The Public Works Acceleration Act should give some impetus to public construction while private residential construction should trend upward in response to an increasing number of family formations in California. Public utilities employment should also grow.

The increase in the estimate of requirements for employment service administration for the 1963-64 fiscal year over the 1962-63 fiscal year is attributable to the placement of major emphasis on the strengthening of nonagricultural placement and youth employment operations. Aggressive job promotion activities, particularly with top-level multibranch establishments and unions to effect industrywide referral agreements will be stressed.

Development and approval of Federal Manpower Development and Training Act program projects will continue to accelerate in 1963-64. It is estimated that 13,000 trainees will be enrolled in classes in this fiscal year compared with 3,260 in fiscal year 1962-63. This acceleration will result in an increase in the cost of administration of this program in 1963-64 and the need for 176 positions as compared to 118 positions in 1962-63.

The amount included for support from the Department of Employment Contingent Fund includes $118,076 for preparation of statistical studies required in accordance with House Resolution No. 98 adopted by the Assembly on June 18, 1963, to ascertain the characteristics of unemployment insurance claimants and the effect of wages and hours requirements on their eligibility for unemployment compensation.

1964-65 Fiscal Year

For the 1964-65 fiscal year it is anticipated that the principal workload item of state plan disability claims will increase 6.8 percent over the number of claims that is estimated for the 1963-64 fiscal year. This increase is attributable to estimated increases in California's civilian population and labor force in 1964-65 over 1963-64 and related increases in the number of wage earners with disability insurance coverage. The staffing estimates for the disability insurance program are based upon this increased workload multiplied by unit times used for the 1963-64 operating budget. The request for 1964-65 includes an amount in the rent-premises category for the establishment of 2 new disability insurance district offices, 1 in Van Nuys and 1 in Whittier. These new offices are needed to properly service 3 of the most rapidly growing segments of the Los Angeles Metropolitan Area, the San Fernando Valley, San Gabriel Valley and Orange County. At present, the offices serving these areas are at the maximum size for operating efficiency and will not be able to handle the 1964-65 estimated increase in volume of claims. The request does not, however, provide any additional amount in salaries and wages for the additional offices because of the workload unit times concept used in determining the overall request.

The 1964-65 fiscal year unemployment insurance budget is based on the anticipation that employment will advance at a less rapid rate than in 1963-64, although new employment records will be achieved in most industries. Construction will rise and defense spending will again be higher than in the prior year, although the rate of increase will probably be slower. As in years past, continued expansion is expected in services, government, and finance-insurance-real estate. The slower rate of employment growth will be accompanied by gradually rising unemployment throughout the year.

The amount included for support from the Department of Employment Contingent Fund for the 1964-65 fiscal year includes the following principal items:

1. A recurring amount for partial cost of operating the community employment program. This program involves work with local communities in the promotion and development of employment programs and with individual employers in the development of new industrial projects. The other part of the amount required for the support of this program is paid from federal funds.
2. An amount of $228,308 for costs to the Unemployment Insurance-Employment Service program for all of the additions to the administrative pro rata charges that were added by Chapter 1844, Statutes of 1959, except charges for the Central Records Depository of the Secretary of State. This amount consists of $210,725 for cost of the Legislature and $17,583 for the indirect imputed costs of the Central Fiscal Agencies for rent and Attorney General services. The Federal Bureau of Employment Security has advised this agency that granted funds cannot be expended for the cost of the Legislature.

Also, provision is made for interest payments from the Disability Fund in the amount of $26,700 during 1963-64 and $105,500 during 1964-65 on loans to the Unemployment Compensation Disability Fund. It is estimated that in March and April 1964 and 1965 (low periods for revenue receipts), that the cash position of the fund will require a temporary loan. The interest payment is based on short-term loans in the total amounts of $7 million during 1963-64 and $21 million in 1964-65 at 4 percent interest per annum.

The amount of $24,948 requested from funds made available to this agency under Section 903 of the Social Security Act as amended (Reed Act), is to provide for costs of the Department of Finance audits of the Unemployment Insurance-Employment Service program. In a previous determination the Federal Bureau of Employment Security ruled that such costs could not be paid from funds granted to this agency for administration of the employment security program. In view of this determination this request provides for payment of these costs from funds made available to this agency under Section 903 of the Social Security Act as amended (Reed Act).

This budget anticipates no increase in 1964-65 over 1963-64 program level for the activities connected with the Federal Manpower Development and Training Act.

DEPARTMENT OF EMPLOYMENT—Continued

SUMMARY AND GENERAL ANALYSIS	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

GENERAL ANALYSIS—Continued

1964-65 Fiscal Year—Continued

Included in the 1964-65 Budget are 200 additional positions for local office employment service direct workload operations. These workload additions are generated by increased assistance to minority groups, students terminating their education, older workers, youth, and special study groups and agencies like the Youth Opportunities Boards of Los Angeles and Alameda Counties.

In addition, Chapter 510, Statutes of 1963, requires a program of co-operation between the county welfare department offices and the local offices of the Department of Employment. All recipients of aid under this program will be required to register with local employment offices and local offices in turn will be required to report actions taken with regard to these recipients, which will affect their welfare eligibility status, to the county welfare department.

The services provided to the aid recipient referred by the welfare departments will be the same as those provided for all job applicants at local employment offices. However, the requirement that these actions be reported to the county welfare department is a cost factor which is superimposed upon the regular programs for which employment is budgeted by the Bureau of Employment Security.

Public Law 78, which has provided the State's agricultural industry with Mexican farm laborers when necessary, is expected to terminate in December 1964, resulting in a crucial labor problem for the industry. The termination of this Mexican farm labor program will allow the reduction of 10 positions formerly utilized to support the program. However, an additional 106 positions, or a net increase of 96 positions, will be needed during 1964-65 to meet the expected demands for farm labor created by the absence of Mexican workers. The California Farm Labor Service is proceeding, in co-operation with farmers, workers, and their respective organizations, to develop programs designed to gain maximum utilization of domestic workers in meeting the labor requirements of California's agricultural industry.

A summary statement of additional staff needs, with local office needs identified by function, is as follows:

Function	*Additional Positions Proposed*
Local supervision and planning	5
Information services	6
Domestic placement	39
Annual worker plan	11
Employer visits	28
Labor market reporting	3
Wage surveys	8
Total Local Offices	100
Central office farm technical section	6
Total Positions	106

The total budget for farm placement provides for 27 year-round farm labor offices and 41 seasonal offices, as well as farm placement functions performed in 49 unemployment insurance-employment service offices.

EXPENDITURES	NO. OF POSITIONS 62-63 (Filled)	63-64 (Auth.)	64-65 (Auth.)	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR

The Department of Employment is administered by the Director of Employment appointed by the Governor subject to approval of the Senate. He is responsible for all phases of the administration of the California Unemployment Insurance Code except for certain quasi-judicial functions which are the responsibilities of the Unemployment Insurance Appeals Board. Two deputy directors are appointed by the Governor. One assists the director in the administration of the code and acts for the director in his absence and the other is responsible for the farm placement program.

A reduction of 1 position is made in 1963-64 and 1964-65 due to termination of the need for special disability insurance studies.

	RESEARCH AND STATISTICS SECTION						
	This section compiles the departmental statistical reports, carries out analytical research in connection with the employment security and disability insurance programs administered by the department; is responsible for the farm reporting program, makes estimates of the workload of the department for use in preparing departmental budgets, and provides statistical and research services to the operating dvisions of the departments.						
	Twenty-eight positions are temporarily approved during 1963-64 and these plus 1 additional for a total of 29 are included as proposed new in 1964-65. The 29 positions requested for 1964-65 are required for continuing workload needs as follows:						
	Approved for 1963-64 are 6 positions, increasing to 7 in 1964-65, needed to assist in the preparation of statistical studies that are required in accordance with House Reso tion 98 adopted by the 1963 Assembly of the Califor Legislature.						
	Eight positions, 4 professional and 4 clerical, are propo for continuation to provide additional services needed beca of the expansion of the Manpower Development and Train Act program. During 1962-63, a total of 3,260 trainees rolled in Manpower Development Training Act classes and 1963-64 and 1964-65 it is anticipated that this will incre to a minimum of 13,000 trainees. Four of the positions requested for additional staff work on this program in de oping statistical and other techniques needed to produce so information on occupational and industrial trends in C fornia and the preparation of long-range occupational opp tunity studies. load in the preparation of local office activity, allowance payments and trainee characteristics reports.

One professional position is proposed for continuation to perform statistical work needed in connection with a 1963 legislative enactment which provides that self-insured employers may elect coverage under the disability insurance program.

Five positions, 3 professional and 2 clerical, are proposed for continuation to perform needed work on statistical studies that are being made of the Farm Placement program through use of agricultural employment data that are available through the new agricultural coverage phase of the disability insurance program.

Four positions, 3 professional and 1 clerical, are proposed for continuation to prepare additional research studies in accordance with recommendations of the Bureau of Employment Security of the Department of Labor. These studies will provide valuable data on such pertinent subjects as the problem of school dropouts, effectiveness of placement activities, and methods used in hiring of employees.

One professional position is proposed for continuation to prepare extensive statistical studies on occupation and industry by labor market area. These studies are needed to provide data in connection with the State Retraining program and the expanded employment service program.

One professional position is proposed for continuation because of increased workload in the preparation of occupational guide information. The Federal Bureau of Employment Security has requested that this agency double its current output of these materials.

One professional position is proposed for continuation because of an increase in workload in the Farm Placement program. This position is needed to analyze and evaluate special Farm Placement problems such as the review and determination of certifiable wage rates in dominated areas and the identification and classification of variables in piecerate operations.

One clerical position is proposed for continuation in the Administrative Unit of this section. The work of this unit in the maintenance of personnel records and miscellaneous typing, filing and clerical work has increased in proportion to the total increased workload of this section as related to the expansion of the various department programs.

	DIVISION OF APPEALS						
	Objectives						
	The 3 members of the California Unemployment Insurance Appeals Board are appointed by the Governor for terms of 4 years and constitute the final administrative body, vested by law with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and disability benefit determinations, and employer tax liability. The Appeals Board also hears appeals from rules and regulations established by the director.						
	Program and Performance						
	The Appeals Board formulates administrative policy and through its secretary and chief referee administers the affairs of the division. Referee offices have been established in San Francisco, Sacramento, Los Angeles, Fresno, Oakland, San Jose, San Bernardino, San Diego, Burbank and Long Beach The referees staffing these offices have the primary responsibility of hearing and deciding appeals from determinations relating to unemployment insurance benefits, disability benefits, overpayments, and disputed employer tax liability matters.						
	One professional position is eliminated in 1963-64 because of decreased workload.						
	A total of 22 new positions is included for 1964-65 as follows: One janitor position is temporarily approved in 1963-64 and proposed for continuation in 1964-65. This position is needed to provide janitor service in a new Area Referee's Office.						
	Proposed for the Appeals Board and Area Referee's Section are 3 and 18 positions respectively, due to the estimated increase in the benefit appeals workloads.

	DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS						
	Objectives						
	This division administers and operates the Unemployment Insurance and Employment Service Programs.						
	Program and Performance						
	The program of the division is carried out at 3 levels, the central office, the 4 area offices, and the local and farm labor field offices.						
	At the central office level are located the office of the Chief of the Division; the Organization and Management Section; Employment Service, Benefit Payments, and Farm Placement Technical Sections; the Interstate Unit; the Emergency Planning Unit; and the Manpower Development and Training Payment Unit.						
	The Organization and Management Section makes special studies to determine conformity of local offices with prescribed policies, standards, and methods of operation, and is responsible for planning of space and personnel needs and determination of the need for and development of procedures and standards in the general field of organization and management of the division. The technical sections provide program leadership and interpret and recommend policy. The Interstate Unit processes interstate unemployment insurance claims for payment. The Emergency Planning Unit plans with sections and divisions involved for emergency operations of the department in case of natural or man-made disaster. This unit was established March 1, 1960, and is financed through grants allocated through the United States Department of Labor by the Office of Civil Defense Mobilization for use of all state employment security agencies in making effective the National Manpower Plan.						
	The Occupational Analysis Field Center is located in Los Angeles but is under the direct supervision of the central office.

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS—Continued

Program and Performance—Continued

It is one of five such centers in the United States and serves as the point of analysis and processing of job analysis data gained by state employment security agencies in 11 western states.

The coastal, interior, southern, and Los Angeles metropolitan area offices direct the operation of local employment service and unemployment insurance offices and farm placement field offices. These area offices also assist in determining program needs and formulating plans to meet these needs.

Local offices provide services to the public in placement, testing and counseling, labor market information, and payment of unemployment insurance benefits. The Department of Employment works in close co-operation with the Departments of Youth Authority and Corrections in providing to parolees counseling and job placement services. The individual efforts of staff members of the Departments of Youth Authority and Corrections, coupled with the personal interest of employment personnel, have resulted in successful job placements under the most difficult conditions in a large percentage of those referred to employers. Local offices also provide the farm labor service where there are no separate farm labor offices. Separate farm labor offices in many localities provide service to the public in the placement of farm workers and preparation of farm labor market reports.

A reduction of 3 professional positions occurs in 1963-64 and 1964-65, 1 in the Organization and Management Section and 2 in the Benefit Payment Technical Section, due to workload decreases.

Temporarily approved in 1963-64 are 79.1 positions and proposed for 1964-65 are these and 204 more for a total of 283.1. The 283.1 positions are required because of increased workload needs as follows:

Two professional positions are proposed for continuation in the Office of the Chief, Division of Public Employment Offices and Benefit Payments. These positions are needed to provide additional specialized industry and/or craft-wide job placement and industrial services to employers and labor unions.

Two professional and 0.1 clerical positions are proposed for continuation in the Employment Service Technical Section. The positions are needed for additional work in the Manpower Development and Training Act program in the areas of procedural development and assistance to local offices in initiating and expediting of training projects.

Two professional positions are proposed for continuation in the Occupational Analysis Field Center. These positions are needed to prepare Occupational Analysis Training materials for further development of the techniques and methods for an effective manpower program.

Four professional positions are proposed for continuation in the Manpower Training Payment Unit. These positions are needed to provide for the anticipated expansion of the Manpower Development and Training Act program from 3,260 trainees in 1962-63 to 13,000 in 1963-64 and 1964-65.

An increase of 15 positions is anticipated in 1964-65 in the Interstate Unit due to the estimated increase in Unemployment Insurance Benefit workloads.

Six professional positions are proposed for continuation in the Farm Placement Technical Section. Four of the positions are needed to give technical assistance to field personnel in implementing new and involved farm placement programs and procedures. Two of the positions are needed for work on statistical studies that are being made of the farm placement program through use of agricultural employment data that are available through the new agricultural coverage phase of the disability insurance program.

Nine positions, 7 professional and 2 clerical, are proposed for continuation in the Coastal Area Office. These positions are required for continuing workload needs as follows:

a. One additional field supervisor position needed because of the increase in number of offices which resulted from the separation of Employment Service and Unemployment Insurance offices in metropolitan areas.
b. Two professional positions for assistance in the preparation of additional research studies in accordance with recommendations of the Bureau of Employment Security of the Department of Labor.
c. Four professional positions to perform labor market analysis work and develop training needs surveys in the further expansion of the Manpower Development and Training Act program.
d. Two clerical positions to provide clerical and typing assistance to professional personnel that have been added as a part of the expansion of this Department's Manpower Development and Training Act, employment service and other programs.

Four professional positions are proposed for continuation in the Interior Area Office. These positions are required for continuing workload needs as follows:

a. One additional field supervisor position needed because of the increased number of offices resulting from the separation of Employment Service and Unemployment Insurance offices in metropolitan areas.
b. Two professional positions to perform labor market analysis work and develop training needs surveys in the further expansion of the Manpower Development and Training Act program.
c. One professional position to act as training instructor in the performance of centralized training in the Interior Area Office.

Ten positions, 9 professional and 1 clerical, are proposed for continuation in the Los Angeles Metropolitan Area Office. These positions are required for continuing workload needs as follows:

a. One professional position for assistance in the preparation of additional research studies in accordance with recommendations of the Bureau of Employment Security of the Department of Labor.
b. Four professional positions to perform labor market analysis work and develop training needs surveys in the further expansion of the Manpower Development and Training Act program.
c. One professional position to supervise manpower services in the Los Angeles Metropolitan Area.
d. One professional position to act as Area Representative—Youth Opportunities Board.
e. Two professional positions to act as training instructors in the performance of centralized training in the Los Angeles Metropolitan Area Office.
f. One clerical position to provide clerical assistance to the Area Representative—Youth Opportunities Board and other professional staff that have been added as a result of expansion of Department programs.

Thirteen positions, 12 professional and 1 clerical, are proposed for continuation in the Southern Area Office. These positions are required for continuing workload needs as follows:

a. One additional field supervisor needed because of the increased number of offices resulting from the separation of Employment Service and Unemployment Insurance offices in metropolitan areas.
b. Three professional positions for assistance in the preparation of additional research studies in accordance with recommendations of the Bureau of Employment Security of the Department of Labor.
c. Five professional positions to perform labor market analysis work and develop training needs surveys in the

	Program and Performance—Continued						

further expansion of the Manpower Development and Training Act program.

d. One professional position to act as training instructor in the performance of centralized training in the Southern Area Office.

e. One professional position for expansion of the program for the preparation of Occupational Guides. The Bureau of Employment Security has requested this agency to double its current output of these materials.

f. One professional position in the Farm Placement Program to improve farm placement planning and management in the Southern Area Farm Field Offices.

g. One clerical position is needed to provide clerical assistance to the professional staff that have been added as a part of this department's expansion of its Manpower Development and Training Act and employment service programs.

Two hundred sixteen additional positions are proposed for Local and Farm Placement Offices in 1964-65. While a reduction of 280 positions occurs in 1963-64 due to termination of the Temporary Extended Compensation Program and Mexican Farm Labor Program, this reduction is not reflected in 1964-65 since workload estimates indicate a need for these positions and the additional 216 positions requested for 1964-65. Of these positions 200 are anticipated due to the estimated increase in unemployment insurance benefit workloads and the further expansion of the employment service program. Fourteen temporarily approved janitor positions are proposed for continuation in 1964-65. These janitor positions are needed because of the increased number of premises occupied as a result of the separation of Employment Service and Unemployment Insurance offices in major metropolitan areas. Anticipated overtime requirements add 2 man-years in 1964-65 previously temporarily approved for 1963-64.

	DIVISION OF ACCOUNTS AND TAX COLLECTIONS						
	Objectives						
	The Division of Accounts and Tax Collections is responsible for the proper reporting of wages and payment of contributions under the California Unemployment Insurance Code.						
	Program and Performance						
	The division consists of an Auditing Section staff in central office and field offices under the direction of the chief tax administrator.						
	The Auditing Section carries out the uniform statewide tax auditing, compliance, enforcement, and collection program of the department directly with the taxpayers concerned. The section determines whether employing units are required to register and report, whether services are covered under the law, and whether wages are taxable. The section also determines and verifies reported and unreported tax liability, collects delinquent amounts due, provides related advisory services, and assures compliance with relevant provisions of the California Unemployment Insurance Code.						
	In 1963-64, 2.2 and 18.9 positions are reduced in the Auditing and Field Auditing Sections respectively. These reductions result from a decrease in the number of subject agricultural employers over the number estimated and a change in law in which the adverse selection provision of the Unemployment Insurance Code was reactivated, thereby resulting in a decrease in the number of voluntary plan employers. A 0.5 man-year janitor position temporarily approved in 1963-64 in the field auditing section is proposed for continuation in 1964-65.						
	In order to strengthen the administration of the tax collection and compliance, and tax and benefit accounting programs, a Chief of the Division of Accounts and Tax Collections has been temporarily approved in the 1963-64 fiscal year and is proposed as a new position for 1964-65. As a part of this strengthening, it is planned to transfer the accounting section from the Office of Assistant Director—Administration to the Division of Accounts and Tax Collections to assure closer co-ordination of these related functions.						
	An increase of 1.1 positions in the Auditing and 0.3 position in Field Auditing Sections is anticipated in 1964-65 to provide for added requirements resulting from a 1963 statutory enactment which provides that self-insured individuals may elect coverage under the disability insurance program.

DEPARTMENT OF EMPLOYMENT—Continued

LINE	EXPENDITURES	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65

OFFICE OF ASSISTANT DIRECTOR—ADMINISTRATION

Objectives

The assistant director—administration advises the director and deputy director on fiscal and administrative matters and directs the Standards and Methods, Accounting, Data Processing, and Administrative Services Sections, and the Internal Audit Unit.

Program and Performance

The Standards and Methods Section performs a continuous review of the department's organization and the co-ordination of programs, policies and procedures. It evaluates present and future efficiency and effectiveness of existing policies, methods and organizations. It keeps informed on all problems which require planning, seeks to develop adequate solutions, and follows up results of planning activities. It also maintains the central archives and policy files of the department.

The Accounting Section processes employer status records and contribution and earnings reports; receives and deposits remittances; maintains employer reporting and accounting controls and reserve accounts records; reconciles the bank accounts of the various benefit programs; maintains employer and wage-earner report files; recomputes insurance awards; adjusts insurance account balances; maintains fraud and overpayment records; and maintains accounts and processes documents relating to unemployment insurance and disability insurance overpayments. It is planned to transfer this section to the Division of Accounts and Tax Collections due to the close co-ordination required for the related activities conducted.

The Data Processing Section using electronic data equipment establishes and maintains claim and wage record files; records and computes benefit awards; records employee and employer contributions; prepares related statistical reports; and assists in relevant fiscal operations.

Administrative Service activities are carried on at 2 levels; in Central Office and in the Business Management Offices. Activities included are the Training Section which plans and directs the departmental training program; the Personnel Section which plans and implements the personnel management activities; the Fiscal Section which handles fiscal administration; the Property Section which is responsible for premises procurement, proper space utilization, and real property acquisition; the Budget Section which prepares department budget requests based on time and cost data; and the Business Services Section which provides services such as typing, transcription, duplicating, and Central Office building management; Business Management Offices in the Coastal, Interior, Los Angeles and Southern Areas are within Business Services Section.

The Internal Audit Unit reviews, analyzes, and reports on financial operations and related records in field offices and Central Office.

Temporarily approved during 1963-64 are 49.6 positions and proposed for continuation are these and 46.2 more for a total of 95.8 proposed new positions in 1964-65. The 95.8 positions are required because of increased workload needs as follows:

Two professional positions are proposed for continuation in the Office of Assistant Director—Administration to increase the scope of our internal audit program. This program augmentation is needed because of the lack of a 1963-64 appropriation for the Department of Finance to perform an audit of this department.

One clerical position is proposed for continuation in the Standards and Methods Section because of increased activities in this section in the processing of materials, forms and procedures.

An increase of 13.2 positions is temporarily approved and increases to a requested total of 33.2 positions in 1964-65 in the Accounting Section due to the estimated increase in Unemployment Insurance Benefit workloads.

An increase of 31.2 positions is anticipated in 1964-65 in the Data Processing Section due to the estimated increase in Unemployment Insurance Benefit workloads.

A total of 6 positions are included in the Business Services Section for 1964-65. One professional position, proposed for continuation in the Business Services Section is the Chief of Business Services and is needed to supervise the business management offices in the field and the typing, transcription, mail control and duplicating services in central office. A further increase of 5 positions is anticipated in 1964-65 in the Business Services Section due to the estimated increase in Unemployment Insurance Benefit workloads.

A reduction of 1.8 man-years in overtime is made in both 1963-64 and 1964-65, however, partially offsetting the requested increases in permanent positions.

A total of 11.9 positions are included in the Area Business Management Section for 1964-65, of which 8.9 positions, 1 professional and 7.9 clerical are proposed for continuation. Eight and nine-tenths have been temporarily approved in 1963-64. The 11.9 positions are required because of the increased workload as follows:

a. One Business Services Officer position is proposed for continuation to supervise the activities of the newly established Santa Ana Business Management Office.
b. Three clerical positions are proposed for continuation to provide needed services in the new Santa Ana Business Management Office. These services include supervision of personnel roster work, duplicating and stockroom services, and clerical staff assistance as required.
c. Four and nine-tenths clerical positions are proposed for continuation to provide assistance in personnel roster work in the Coastal, Interior, and Los Angeles Business Management Offices. This additional work relates to the increased number of departmental employees resulting from expansion of department programs.
d. An increase of 3 clerical positions is anticipated in 1964-65 in the Business Management offices to provide adequate staff to meet projected increased roster, clerical, warehouse and stockroom workloads.

A reduction of 3 positions in 1963-64, and 3.5 in 1964-65 partially offsets requested increases in permanent positions.

One professional position is proposed for continuation in the Training Section. This position is needed because of the continued increase in staff resulting from expansion in departmental programs and the related need for preparation of comprehensive training programs and materials for new employees.

A total of 3.4 positions are included in the Personnel Section for 1964-65. Three professional positions are proposed for continuation. Two of these positions are needed for extension of the department's personnel management services as related to the increased number of employees resulting from expansion of department programs. The Public Health nurse position is needed to provide first aid and limited employee health services in this Department's Headquarters Building in Sacramento. In addition, an increase of 0.4 clerical position is anticipated in 1964-65. This position is needed to assist in writing procedures, manual revision and personnel transaction instructions for departmentwide distribution.

Two clerical positions are proposed for continuation in the Budget Section. An additional stenographer position is needed because of increased workload as related to added federal requirements for the maintenance of budget control data. An additional clerical position is needed in the Time and Cost Unit to assist in processing the increased volume of employee functional time reports.

Four positions, 1 professional and 3 clerical, are proposed for continuation in the Fiscal Section. These positions are required for increased workload needs as follows:

a. An assistant to the Comptroller is needed because of additional work requirements which have resulted from organizational changes delegating additional duties and responsibilities to the Comptroller.
b. One additional stock clerk is needed in the Procurement Unit to handle the increased volume of requisitions for supplies and forms. This increase has resulted from expansion of department programs and resultant increases in staff.
c. One clerical position is needed to assist in maintaining, on a current basis, the necessary accounting and reconciliation work in the maintenance of equipment records.
d. An additional clerical position is needed in the Claims Unit to assist in processing the increased number of travel claims, invoices, requisitions, and invoices for services.

DEPARTMENT OF EMPLOYMENT—Continued

LINE	EXPENDITURES	NO. OF POSITIONS 62-63 (Filled)	63-64 (Auth.)	64-65 (Auth.)	ACTUAL 1962-63	ESTIMATED 1963-64	PROPOSED 1964-65
	DIVISION OF DISABILITY AND HOSPITAL BENEFITS						
	Objectives						
	The Division of Disability and Hospital Benefits is responsible for the administration of the disability insurance program.						
	Program and Performance						
	The Central Office operation develops plans, standards and procedures and evaluates all disability insurance claim operations.						
	The Claim Control Section provides claims service for the disability district offices; processes voluntary plan claim reports; supervises all voluntary plan activities for conformity with requirements of the California Unemployment Insurance Code; and maintains voluntary plan files.						
	The disability district offices, within assigned geographical districts, evaluate first claims under state coverage for disability insurance to determine if they meet minimum standards; determine eligibility of claimants for disability insurance; prepare and issue disability insurance payments to eligible claimants; maintain all claim records for disability insurance claimants; conduct a field visit program which includes unscheduled visits to residence of claimants and visits to employers to review installation of voluntary plans for conformity with the California Unemployment Insurance Code; and process and answer all correspondence with employers, claimants, doctors, institutions, and other state or government agencies.						
	The medical director formulates medical policies, programs, and standards for the disability insurance program of the department. Offices are maintained in Sacramento, Los Angeles and San Francisco. He also advises the personnel office on medical problems concerning employees of the department.						
	In 1963-64, 1 and 73 positions are eliminated in the Claims Control and Disability Insurance District Offices Sections respectively. These reductions result from a decrease in the number of agricultural disability insurance claims over the number estimated and a change in law in which the adverse selection provision of the Unemployment Insurance Code was reactivated, thereby resulting in a decrease in the number of voluntary plan employers. However, the district office reductions are not reflected in 1964-65 since workload estimates indicate increased need sufficient to require the 74 man-years involved. District offices required temporary approval of 3.5 positions in 1963-64 and these positions are requested on a permanent basis in 1964-65.						
	An increase of 17.5 positions in Disability Insurance District Offices is anticipated in 1964-65 due to an estimated increase in disability insurance benefit workloads.

[e] Excludes Los Angeles County Fair, Cloverdale Citrus Fair, and National Orange Show.

Department of Agriculture—Division of Fairs and Expositions

DISTRICT, COUNTY AND CITRUS FRUIT FAIRS

GENERAL ANALYSIS

Program and Performance

The State's fair program consists of the California State Fair and Exposition, the California Museum of Science and Industry (a permanent museum maintained by the 6th District Agricultural Association), 50 district fairs, 24 county fairs, and 2 citrus fruit fairs. The fair season extends from February to November. The sites of these 78 institutions are located in 54 of the 58 counties.

Budgets of 76 fairs are summarized on the following pages. The budget of the California State Fair and Exposition is on page 386 and the budget of the California Museum of Science and Industry is on page 73.

The fairs are established for the purpose of holding fairs, expositions and exhibitions of all of the industries and industrial enterprises, resources, and products in the State with the purpose of improving, exploiting, encouraging, and stimulating such production. All year use of fairgrounds for community gatherings, recreational activities, conventions, livestock sales, 4-H and Future Farmer meetings, sports events, school sessions, farm labor camps, and disaster relief use are encouraged.

In an effort to improve the fair program, the Division of Fairs and Expositions in the Department of Agriculture cooperates in the conduct of schools of instruction for managers and directors; sponsors annual conferences for training of judges who officiate at fairs; holds annual meetings with Future Farmers and 4-H officials and with representatives of breed associations and exhibitors groups to revise rules and regulations in the Master Premium List which details amounts that can be paid for many classes and types of exhibits.

Financing of the Fair Program

Fair activities are financed by State appropriations, contributions from other governmental sources, donations, and revenues produced from the fairs' use of their facilities.

Business and Professions Code Sections 19622, 19626, 19627, and 19630 provide that part of the revenue received from the tax on parimutual wagering on horse racing is deposited in the Fair and Exposition Fund. A statement showing the distribution of revenues deposited in the Fair and Exposition Fund appears in the Capital Outlay Section of this budget on page 813.

Business and Professions Code Section 19622 makes annual appropriations to the following five agencies:

Support of the California State Fair and Exposition	$265,000
Support of the California Museum of Science and Industry	15,000
Support of the Los Angeles County Fair	250,000
Support of the 1-A District Agricultural Association	250,000
Support of the 48th District Agricultural Association	125,000

Section 19626 provides that 5%, but not more than $180,000, of the balance remaining in the fund after deducting certain appropriations shall, subject to statutory limitations, be paid to citrus fruit fairs. Section 19627 provides that 40%, but not more than $4,680,000, of the first balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.

Business and Professions Code Section 19630 apropriates $2,250,000 annually from the remaining balance of the Fair and Exposition Fund for capital outlay purposes at county, district, and citrus fruit fairs. This appropriation was augmented in 1963-64 from the savings in the continuing appropriation made by Business and Professions Code Section 19627. It is proposed that a similar augmentation be made in 1964-65. These funds are allocated by the Director of Agriculture upon approval of the State Public Works Board. The State Fair, the Museum of Science and Industry, the 1-A and the 48th District Agricultural Associations and the Los Angeles County Fair are not eligible to receive allocations from this appropriation.

The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are apportioned on the basis of premiums paid. The maximum amount which may be apportioned to any one fair during any fiscal year is limited to the amount required on the basis of need as determined by the Department of Agriculture, but not to exceed $65,000. Funds apportioned under the provisions of Section 92 of the Agricultural Code and Section 19627 of the Business and Professions Code are distributed to the fairs monthly from current revenue paid into the Fair and Exposition Fund.

The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Division of Fairs and Expositions before the premium lists are printed. The proposed premium lists are reviewed to determine whether they comply with the Master Premium List and to determine the suitability of the proposed offerings for the individual fair.

Supervision of Fairs

The Department of Agriculture, through its Division of Fairs and Expositions, supervises the activities of 73 of the 74 district and county fairs. The Los Angeles County Fair, as well as the two citrus fruit fairs, do not come within the supervisory jurisdiction of the department.

The activities of the California State Fair and Exposition are under the supervision of the Department of General Services.

The financial transactions of all of these agencies are subject to review of the Audits Division, Department of Finance. This review usually consists of reviewing premium awards before payment and an annual financial review of the fairs records.

District Fairs

District fairs are administered by district agricultural associations which are State agencies. Each association is governed by a board of nine directors appointed by the Governor for terms of four years.

The boundaries of the 50 districts are established by Section 80 of the Agricultural Code. The powers, duties and responsibilities of the boards are contained in Sections 80 to 97, inclusive, of the Agricultural Code. The associations are also governed by other laws, rules and regulations that apply to State agencies generally.

Forty-nine of the districts conduct annual fairs which attracted more than three million persons during 1962. The remaining district (the 6th) maintains the California Museum of Science and Industry. The fairgrounds are used for a variety of purposes during the nonfair period.

Each of the fairs employs a full time manager and such other employees as may be required. Many fair employees are used only for a limited time during preparation of the annual fair.

County Fairs

The majority of the county fairs are conducted by nonprofit associations acting as agents of the respective boards of supervisors under the provisions of Sections 25905 or 25906 of the Government Code. In a few cases, the fairs are conducted directly by the county.

The reported attendance at the 24 county fairs was 2,850,000 for 1962. The fairgrounds are also used extensively during the nonfair period.

Citrus Fruit Fairs

Section 84 of the Agricultural Code and Section 19626 of the Business and Professions Code define the requirements that must be met to qualify for financial assistance. There are two nonprofit corporations that meet these legal requirements. The National Orange Show receives $150,000 annually and the Cloverdale Citrus Fair receives $30,000 annually.

These fairs reported their 1962 combined attendance to be 322,000. Facilities of these fairs are extensively used during the nonfair period.

Department of Agriculture—Division of Fairs and Expositions

22nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Southern California Exposition at Del Mar)

GENERAL ANALYSIS

The present activities of the 22nd District Agricultural Association date from 1933. Annual shows are conducted on the association's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936 an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on association grounds. The rental is based on a percentage of parimutuel wagering during the race meets. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club and Operating Company, Incorporated, for the conducting of race meetings.

The 1963 fair was conducted from June 28th to July 7th Seventeen thousand five hundred and one exhibits entered by 3,862 exhibitors were judged at the fair. The 1964 fair is to be held June 26th to July 5th.

52nd DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Sacramento County Fair at Sacramento)

LINE	FUND CONDITION	ACTUAL 1962 CALENDAR YEAR	ESTIMATED 1963 CALENDAR YEAR	PROPOSED 1964 CALENDAR YEAR
	GENERAL ANALYSIS			
	The association was formed in 1948 pursuant to amendments to the Agricultural Code passed in 1947. The association succeeded to the activities of the Sacramento County Fair held at the City of Galt on county fairgrounds since 1937. Since 1954, fairs have been conducted on the grounds of the California State Fair due to abandonment of association grounds in Galt. The 1961, 1962 and 1963 fairs were co-sponsored with the California State Fair and Exposition. The 1963 fair was conducted May 11th to May 19th. Exhibits entered by 1,693 exhibitors were judged at the fair. The 1964 fair dates are June 10th to June 14th.

ALAMEDA COUNTY FAIR

(Conducting the Alameda County Agricultural Fair at Pleasanton)

GENERAL ANALYSIS

The present activities of the fair date from 1939. Annual fairs are held on the county fairgrounds located in the City of Pleasanton and feature horse races on the old Pleasanton race track in addition to general livestock and other exhibits. The 1963 fair was conducted from June 30th to July 14th. Eleven thousand four hundred seven exhibits entered by 2,788 exhibitors were judged at the fair. The 1964 fair dates are June 28th to July 12th. Fairs are conducted by the Alameda County Fair Association under a contract with the county under the provisions of Section 25905 of the Government Code.

BUTTE COUNTY FAIR

(Conducting the Butte County Fair at Gridley)

LINE	FUND CONDITION	ACTUAL 1962 CALENDAR YEAR	ESTIMATED 1963 CALENDAR YEAR	PROPOSED 1964 CALENDAR YEAR
	GENERAL ANALYSIS			
	Sponsorship of the fair by the County of Butte dates from 1938. Early fairs were held by the Paradise Fair and Apple Show Association at Paradise, California. Since 1940, fairs have been held at Gridley on the county's fairgrounds by the Butte County Fair Association under agreement with the board of supervisors under the provisions of Section 25905, Government Code. The 1963 fair was conducted from August 22nd to August 25th and consisted of general livestock and other exhibits. Eight thousand two hundred ninety-eight exhibits entered by 709 exhibitors were judged at the fair. The 1964 fair dates are August 27th to August 30th.

HUMBOLDT COUNTY FAIR

(Conducting the Humboldt County Fair at Ferndale)

LINE	FUND CONDITION	ACTUAL 1962 CALENDAR YEAR	ESTIMATED 1963 CALENDAR YEAR	PROPOSED 1964 CALENDAR YEAR
	GENERAL ANALYSIS			
	The fair is held under the direction of the board of supervisors who appoint directors to manage the operation of the fair. In the past, these directors have been members of the Humboldt County Fair Association, an organization founded in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period. Annual fairs are conducted at the county fairgrounds located in the City of Ferndale. The 1963 fair was conducted from August 12th to 18th and featured general livestock and other exhibits with particular emphasis on dairy cattle and sheep. Five thousand three hundred sixty-six exhibits entered by 1,232 exhibitors were judged at the fair. The 1964 fair dates are August 10th to August 16th. For many years a feature of the show has been horse racing and parimutuel wagering.

	GENERAL ANALYSIS			
	The fair is conducted by the Los Angeles County Fair Association under an agreement with Los Angeles County under the provisions of Government Code, Section 25906. The Los Angeles County Fair Association was incorporated as a nonprofit corporation in 1940 and succeeded to the Los Angeles County Fair, a nonprofit stock corporation, at that time. Los Angeles County receives allocations for conducting the fair under the provisions of Section 19622 of the Business and Professions Code and under its agreement with the Los Angeles County Fair Association, reimburses the association for expenditures to the extent of the state appropriations. The Audits Division of the Department of Finance makes annual audit examinations of this fair. The 1963 fair was conducted from September 13th to September 29th. The 1964 fair dates are September 18th to October 4th.

PLUMAS COUNTY FAIR

(Conducting the Plumas County Fair at Quincy)

LINE	FUND CONDITION	ACTUAL 1962 CALENDAR YEAR	ESTIMATED 1963 CALENDAR YEAR	PROPOSED 1964 CALENDAR YEAR
	GENERAL ANALYSIS			
	The present activities of the fair date from 1940. Annual fairs are held by the Plumas County Fair Association under a contract with the board of supervisors under provisions of Government Code, Section 25905, on county fairgrounds partially owned by the county and partially leased from the United States Forest Service under a lease expiring in 1965, located just outside the City of Quincy. The 1963 fair was conducted from August 7th to August 11th and consisted of general livestock and other exhibits. Two thousand nine hundred fourteen exhibits entered by 922 exhibitors were judged at the fair. The 1964 fair dates are August 12th to August 16th. There is no charge for admission, but the county contribution is partially based on the actual attendance during the fair.

SHASTA COUNTY FAIR

(Conducting the Intermountain Fair of Shasta County at McArthur)

GENERAL ANALYSIS

Sponsorship of the Shasta County Intermountain Fair by the County of Shasta dates from 1936. Annual fairs are held on the county's fairgrounds located at McArthur by the Intermountain Fair Association under a contract with the board of supervisors under the provisions of Section 25905, Government Code. The 1963 fair was conducted from August 31st to September 2nd and consisted of general livestock and other exhibits. Five thousand and seventy-five exhibits entered by 647 exhibitors were judged at the fair. The 1964 fair dates are September 5th to September 7th.

No admission is charged at this fair.

SOLANO COUNTY FAIR

(Conducting the Solano County Fair at Vallejo)

GENERAL ANALYSIS

Activities of the fair date from January 1946, although no allocations were received by the association under Section 92 of the Agricultural Code until 1950. Annual fairs are conducted on approximately 150 acres of land north of the City of Vallejo by the Solano County Fair Association under agreements with the board of supervisors under the provisions of Section 25905 of the Government Code. A particular feature of the fair has been a race meeting with parimutuel betting. The 1963 fair was held from June 19th to June 29th and consisted of general livestock and other exhibits. Four thousand five hundred and sixteen exhibits entered by 785 exhibitors were judged at the fair. The 1964 fair dates are June 17th to June 27th.

CLOVERDALE CITRUS FAIR

(Conducting the Cloverdale Citrus Fair at Cloverdale)

LINE	FUND CONDITION	ACTUAL 1961-62	ACTUAL 1962-63	PROPOSED 1963-64
	GENERAL ANALYSIS			
	This fair receives an annual state allocation under Section 19626 of the Business and Professions Code, the first such allocation being made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted by the Cloverdale Chamber of Commerce. The Audits Division of the Department of Finance makes annual audit examinations of this fair. Annual shows, featuring citrus displays, are conducted in the city of Cloverdale. The 1963 show was held from February 21st to February 24th. The 1964 dates are February 20th to 23rd.

NATIONAL ORANGE SHOW

(Conducting the National Orange Show at San Bernardino)

GENERAL ANALYSIS

The National Orange Show was incorporated in 1922 and is a continuation of a nonprofit association with some modifications formed in 1910. It appears that the early history of citrus fairs in San Bernardino can be traced back to 1879. The association receives an allocation under the provisions of Section 19626 of the Business and Professions Code but does not come under the jurisdiction of the Government Code or other codes pertaining to state organizations, its actions being governed by the Corporations Code. The only jurisdiction the Department of Finance has of the activities of the association pertains to an annual audit to determine that the appropriations have been used for the general purposes provided by the statutes. Under the provisions of Section 94.6 of the Agricultural Code the National Orange Show is required to file with the Department of Finance by January 20th each year, a statement of operations in the previous calendar year. Annual fairs are conducted by the association on grounds owned by the association and located in the City of San Bernardino. The 1963 show was held from March 14th to March 24th. The 1964 show dates are March 12th to March 22nd.

Salaries and Wages

INTRODUCTION

Presented in this supplement to the budget document proper are the complete and detailed data on approved staffing for all state agencies. This information has been published in a separate volume to (1) reduce the quantity of detail in the budget document and thereby focus attention on the programs and activities of the several state agencies; (2) simplify the mechanics of budget preparation and printing; and (3) consolidate information on number and classification of positions, pay rates, and salary and wage expenditures.

For each state agency the information outlined above is reported for the 1962-63 fiscal year on an actual basis and for 1963-64 and 1964-65 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement is given below and on the immediately following pages.

Position Titles

In this volume, positions encompassed by state civil service have been listed by the official class titles as established by the Personnel Board. Positions exempt from civil service have been listed by the official class titles established by (1) statute, (2) The Regents of the University of California, (3) The Trustees of the California State Colleges, or (4) such other authority as may have been designated by law.

Authorized Positions

For the 1963-64 and 1964-65 fiscal years, positions reported as *authorized* are those which were included in the 1963-64 Budget as approved by the Legislature. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

In some instances, certain classes have been combined to provide replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporary downward classification for recruiting purposes. Such positions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, $440–590, (b) junior-intermediate clerk, $298–419.

Expenditures

Estimated salary payments for each group of like positions are reported for the 1963-64 and 1964-65 fiscal years. These estimates represent salary costs on the basis of continuous, 100 percent occupancy of all authorized positions and include the cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies are included in the budget document as *Estimated salary savings*. For the 1962-63 fiscal year *actual* salary expenditures are reported for each budget function.

Number of Positions

For the 1962-63 fiscal year, the number of positions represents actual man-years (A man-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal one man-year.) of employment expressed in terms of full-time, full-year equivalents counted to the nearest tenth of a man-year.

Positions for 1963-64 and 1964-65 are counted to the nearest tenth of authorized jobs expressed in terms of full-time, full-year equivalents. The only exception is in the case of positions to be established after July 1. In such instances, the positions are counted without adjustment for delayed establishment, e.g., a full-time position to be established January 1 is counted as 1.0 position, not as 0.5 position.

As in the case of expenditures, appropriate adjustments are included in the budget document to reduce authorized positions for 1963-64 and 1964-65 to anticipated available manpower.

Salary Range

Rates of pay listed under this heading represent salary ranges established by (1) the State Personnel Board for civil service, Disaster Office interim merit system, and Maritime Academy classifications; (2) the appointing authority with the approval of the Director of Finance for certain exempt positions; (3) statute; (4) The Regents of the University of California; or (5) The Trustees of the California State Colleges.

The amounts shown are the (1) minimum and maximum monthly or hourly rates, (2) flat monthly rate, or (3) annual compensation as fixed by competent authority. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the pay plan adopted by the State Personnel Board, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than $10. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, $298–362 indicates a monthly salary range having steps of $298–$313–$329–$345–$362. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth on page 4.

Salary ranges for academic positions in the University of California are set forth on page 5.

Salary adjustments, effective January 1, 1964, under the provisions of Items 35 through 39 of Chapter 8, Statutes of 1963 (First Extraordinary Session) are not reflected in this supplement. Provision has, however, been made for the cost of such adjustments in the budget document.

Schedule of Salary Ranges in Use in the State Service

As of July 1, 1963, Unless Otherwise Noted

Range No.	Steps				
21a.	$271	$284	$298	$313	$329

Salary Schedule for Instructional Positions—State Colleges

(Based Upon Salaries Effective July 1, 1963)

RANK [a]	ACADEMIC		VOCATIONAL
	CLASS I [b]	CLASS II [c]	
Assistant	$5,148– 5,688	–	–
Instructor	5,976– 7,260	$6,276– 7,608	–
Junior instructor [d]	5,976– 7,260	6,276– 7,608	$5,976– 7,260
Assistant professor	6,576– 7,992	6,912– 8,400	–
Intermediate instructor [d]	6,576– 7,992	6,912– 8,400	6,576– 7,992
Associate professor	7,992– 9,720	8,400–10,188	–
Senior instructor [d]	7,992– 9,720	8,400–10,188	8,400–10,188
Professor	10,188–12,396	10,692–13,020	–
Principal instructor [d]	10,188–12,396	10,692–13,020	10,692–13,020

[a] The maximum percentages for the academic ranks for professor, principal instructor, principal vocational instructor and associate professor, senior instructor, senior vocational instructor will not exceed 60 percent of the total number of all faculty members having academic rank.

[b] Persons whose minimum academic or professional preparation is equivalent to a college degree.

[c] Persons whose minimum academic or professional preparation is equivalent to a doctor's degree.

[d] Instructors and vocational instructors receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

Salary Schedule for Librarians—State Colleges

	RANGE
Library assistant I	$4,788 to $5,832
Library assistant II	5,280 to 6,432
Librarian I	5,400 to 5,976 [a]
Librarian II	5,976 to 7,992 [b]
Librarian III	$6,576 to $8,400 [c]
Librarian IV	7,992 to 9,720
Librarian V	8,820 to 10,692
College librarian	12,396 to 15,060 [b]

[a] Three-step range
[b] Seven-step range
[c] Six-step range

Salary Schedules for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A	$536	$562	$590	$619	$650
B	562	590	619	650	683
C	590	619	650	683	717
D	619	650	683	717	753
E	650	683	717	753	790
F	683	717	753	790	829

CRITERIA FOR RANGE DETERMINATION	ACADEMIC (Preparation)	VOCATIONAL (Preparation)
Range A	Provisional or special credential, without bachelor's degree.	—
Range B	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.	—
Range C	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.	Three years experience as journeyman craftsman.
Range D	Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential. Or regular general secondary credential.	Qualification for special secondary Vocational Class A Credential in T and I and PS Education.
Ranges E and F	Used only for "incentive increases" when a teacher receiving less than Range F completes at least six units in college level courses approved by his department and taken after appointment. He shall then be entitled to advance to the corresponding step in the next higher salary range for the class, and such an advance shall be known as an "incentive increase."

* Interim step. Those with full research rank who were at Step 3 during 1961-62 were increased to the interim step July 1, 1962, and will remain at that level until advanced to Step 4.

** Designation of specialty completes classification title.

a Usual salary period is 1 year.

b Usual salary period is 2 years.

c Usual salary period is 3 years.

d Usual salary period is not specified.

e Except Berkeley and Los Angeles.

f Salary for Berkeley and Los Angeles only.

g The last 3 annual increments are allowable only to persons with the Doctor's Degree.

Merit Salary Adjustments

Subject to availability of funds, Section 18854 of the Government Code provides that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in a position provided the employing agency certifies to the Personnel Board that the employee's job performance meets the level of quality and quantity expected by the agency considering the employee's experience in the position.

All employees in salary ranges with a maximum step of $399 and below and who have received permanent appointments may receive an increase from the first step to the second step of their salary range upon completing six months of qualifying service as defined by State Personnel Board rules. In addition, employees in salary ranges with a maximum step of $419 to and including $536 may receive a similar salary adjustment when the predominant recruitment source is from outside state service. This same adjustment may be granted to employees in classes with salary ranges not exceeding $619 where acute recruitment difficulty is experienced.

Except for employees of the University of California, provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustments opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for *estimated salary savings.*

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

Merit salary adjustments for employees of the University of California and the State Colleges are determined in accordance with rules established by the Regents and the Trustees, respectively.

Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.
2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty, or responsibility of the work.
3. Conditions of work in the class.
4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of casually employed trades workers and printing trade employees in the state service are established at the hourly wage rates negotiated by unions with private employers in the county in which they are employed. These employees receive all the collateral benefits of premium pay for night work, travel time, and overtime pay provided by private industry. For these two groups, the State also pays the full cost of hospital, surgical and medical insurance benefits for both the employees and their dependents, where such health and welfare benefits are provided by private employers.

Casually employed trades workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent state employees receive. However, the State does pay into vacation and retirement funds where such benefits are the prevailing practice in private industry.

Printing trades employees receive all of the benefits enjoyed by other state employees with one exception. Other state employees receive an average of 11 holidays a year. Printing trades employees are provided the eight paid holidays received by their counterparts in private industry.

The salary ranges shown are those in effect on July 1, 1963 unless otherwise indicated. Salaries and wages expenditures for both the 1963-64 and 1964-65 fiscal years reflect these rates of pay. Statutory salaries are provided for at the rates in effect during the 1963-64 fiscal year.

[a] As approved in the 1963-64 Budget, the Department of Public Health assumed the responsibility for the operation of this facility on July 1, 1963. This facility was formerly owned and operated by the Los Angeles Air Pollution Control District. In addition to the 43.2 positions listed here, 5 clerical positions were established and transferred to the Bureau of Administrative Services for administrative purposes.

[a] The internal audit staff was transferred from the Fiscal and Business Management Section to the director's office effective October 1, 1963. Four clerical and 1 investigator positions were transferred from the Investigation Section to the legal counsel's office effective August 30, 1963. The investigator position was reclassified to a senior typist-clerk position. These changes were made as a part of the reorganization of the Motor Vehicle Investigation Section and dealer licensing procedures.
